

The New York City Council

City Hall New York, NY 10007

Legislation Text

File #: Int 0667-2015, Version: *

Int. No. 667

By Council Members Rodriguez and Mendez

A Local Law to amend the administrative code of the city of New York, in relation to requiring the department of sanitation to conduct a feasibility study concerning placing sensors on public waste receptacles.

Be it enacted by the Council as follows:

Section 1. Title 16 of the administrative code of the city of New York is amended by adding a new

section 16-141 to read as follows:

§ 16-141 Feasibility study concerning placing sensors on public waste receptacles. No later than

January first, two thousand seventeen, the department shall:

a. Conduct a study of the feasibility of placing sensors on public waste receptacles to alert the

department when the receptacle has been filled to capacity, which study shall include a cost-benefit analysis of

placing such sensors on public waste receptacles citywide, including a calculation of the additional department

employee hours and extra trucks that would be necessary to promptly empty receptacles once capacity was

reached, if any, and an analysis of the expected environmental impact of using such sensors, including any

environmental impacts expected to be caused by such extra trucks; and

b. Report on the findings of such study to the mayor and council.

§ 2. This local law shall take effect immediately upon enactment.
