 FISCAL NOTE.--Pursuant to Legislative Law, Section 50:
 SUMMARY: This proposed legislation would allow Tier 3 members of FIRE
 to purchase prior service as a cadet in the NYPD and use the appointment
 date as a cadet to determine the initial date of FIRE membership for
 plan or tier eligibility purposes provided such purchase of service is
 made within five years of the effective date of this legislation.

CENSUS DATA: The number of members who will benefit in the future from this fiscal note is unknown. The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the potentially impacted population used to develop the average costs is summarized below.

	To Tier 2	Within Tier 3
Active Members		
- Number Count:	3,144	3,913
- Average Age:	35.9	34.3
- Average Service:	6.8	5.8
- Average Salary:	125,500	117,100

IMPACT ON MEMBER BENEFITS AND CONTRIBUTIONS: Currently, the purchase of prior NYPD cadet service performed while not a member of the New York City Employees' Retirement System (NYCERS) does not provide a retroactive date of membership in FIRE, nor would it provide additional service retirement benefits for Tier 3 members.

Under the proposed legislation, purchased NYPD cadet service would entitle members with cadet service before July 1, 2009 to be deemed a Tier 2 member, and would be included in the calculation of benefits as non-qualifying service credit.

Also, purchased NYPD cadet service would entitle members with cadet service between July 1, 2009 and April 1, 2012 to be deemed an original Tier 3 member.

For cadets who did not join NYCERS, the member would have to pay member contributions that would have been payable to NYCERS had they joined on their initial cadet appointment date, plus 5.0% annual interest.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. Additionally, 1.2 years of cadet service was assumed based on the amount of cadet service previously purchased by members of the New York City Police Pension Fund.

The number of members who will benefit in the future from this Fiscal Note is unknown. The cost of this proposed legislation could vary greatly depending on the number of future members who benefit and on their length of service, age, and salary history.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.
