

Say No to the Coney Island Casino

We the undersigned residents of the Luna Park Housing Development in Coney Island, Brooklyn are providing this petition to express our strong disapproval and vehement opposition to the construction of any Casino in Coney Island.

There are 6,000 people residing in Luna Park Housing, one of the largest affordable middle-income housing developments in New York State. The proposed Casino in Coney Island would be located right across the street from our homes.

It will completely overwhelm our neighborhood, replacing existing businesses with a massive Casino and Hotel complex that will be open 24 hours a day, 7 days a week.

It will not provide a single improvement or enhancement to our neighborhood, but will instead hurt the local economy and lower local property values.

It will completely erode our quality of life, and it will reduce not enhance the local tax base as many existing residents are forced to move and local businesses are forced to close.

It will bring a tremendous increase in traffic which will choke our streets with vehicles and increased pollution, inhibiting the ability of ambulances and other emergency vehicles to reach our homes, and endangering our lives.

It will bring an increase in crime right to our front doors with large, rowdy, and noisy crowds spilling out from the massive 24-hour a day Casino and Hotel complex and in to the streets around our buildings.

We therefore demand that our elected officials and representatives stand with us to protect our homes and vote against any Casino in Coney Island.

We demand that our elected officials only appoint representatives to the Community Advisory Council who will oppose the Casino in Coney Island project.

We also firmly state that we will not support or vote for any politician who does not stand with us at this time, and vote against the Casino in Coney Island project.

Say No to the Coney Island Casino

We the undersigned residents of New York City are providing this petition to express our strong disapproval and vehement opposition to the construction of any Casino in Coney Island.

The proposed Casino in Coney Island project would overwhelm the Coney Island neighborhood, displacing local businesses and residents. It would replace the existing amusement and entertainment area with a massive and indistinctive casino complex that would erase the very reason people come to visit Coney Island.

The proposed Casino in Coney Island would replace Coney Island's unique and historic amusement park and entertainment district with an oversized casino development project that would monopolize the local economy.

The proposed Casino in Coney Island will not provide a single improvement or enhancement to Coney Island, but will only bring an increase in crime, traffic, garbage, pollution and noise.

It will hurt the local economy, lower local property values, and put the Coney Island amusement area at risk. It will reduce, not enhance, the local tax base as many existing residents are forced to move and local businesses are forced to close.

We therefore demand that our elected officials and representatives stand with us to protect Coney Island and vote against any Casino in Coney Island.

We demand that our elected officials only appoint representatives to the Community Advisory Council who will oppose the Casino in Coney Island project.

We also firmly state that we will not support or vote for any politician who does not stand with us and vote against the Casino in Coney Island project.

Testimony Against Street Demapping for Coney Casino Project

As a lifelong Coney Island resident, 41 years, I strongly oppose the proposed demapping of Bowery between West 12th Street and Stillwell Avenue, and the air rights over portions of West 12th Street and Stillwell Avenue.

Those who chose to demap Coney Island are environmental terrorists driven by greed. You are not doing anything for the people who live in this neighborhood. This demapping would severely worsen our already critical traffic problems and parking issues residents are experiencing currently. Driving to Cropsey can take nearly two hours from Sea Gate.mornings and weekends. I have experienced many instances of the longest parking lot on Neptune Avenue.

Emergency access, overdevelopment and overpopulation are my greatest concerns. Commuting to and from the train station is now plagued with double-parked cars, congestion and pedestrian traffic on Mermaid and Surf especially when there are multiple events occurring simultaneously. The current traffic issues poses the greatest risk to accessing emergency assistance and to transport residents to the only hospital in the area.

Coney Island is not Las Vegas or Atlantic City. It is a residential neighborhood with various faith-based organizations, a library, schools, hospitals, local businesses, private homes and apartments. Demapping these streets to facilitate a casino that threatens our quality of life with addiction and prostitution. This is not the Coney Island I want.

I urge you to reject this demapping proposal and to remember that politicians are elected to serve the community and not the interest of the developers.

City Council of New York City**TESTIMONY REGARDING: The Coney Development - ULURP No: 250108MMK**

As a small business owner operating on Surf Avenue for the past decade, I strongly oppose the demapping of portions of Bowery between West 12th Street and Stillwell Avenue, and air rights over West 12th Street and Stillwell Avenue.

The DEIS for this project admits that the proposed casino complex would meet all visitor needs internally, stating it would be "unlikely that the proposed project would generate demand for additional uses within the socioeconomic study area." In other words, the development is designed to keep visitors inside spending money, not supporting surrounding businesses.

The demapping would eliminate vital public space and street access that currently allows visitors to flow naturally between different businesses and attractions. This would concentrate economic activity within the proposed casino complex at the expense of existing small businesses that have served this community for years.

Furthermore, the increased traffic congestion resulting from the demapping would make it even more difficult for customers to access businesses like mine during peak periods.

I urge the Council to reject this demapping application and instead support planning that benefits the entire Coney Island business community.

Respectfully submitted,

			I have had the great pleasure in my life to visit Coney Island. Its history, to myself and many others, is so integral to an experience in New York and to the sense of wonder and history that the city holds. This casino development would erase so much of that history and wonder for children and adults that have the great joy of experiencing a summers day on Coney Island. It would truly be such a shame. Please consider the voices of the people who have been able to have that experience, pass it on to their children and families for generation. Developments like this casino kills that shared joy.

			I grew up listening to the stories of the fun my grandmother had at Coney Island, and when I was old enough, I visited Coney Island myself. I immediately realized, from the moment I stepped into the park, that this was a magical place, a completely wonderful place. A place where everyone from all walks of life came to be dazzled, and thrilled, and be uninhibited, be themselves! Till this day, I consider it one of my favorite places in the world, and I know I am not the only one! You can see the magic of Coney Island in the people in the surrounding community, who treasure it to be the magical, nostalgic place it is, and forever should be. By building a casino, you take away all that magic, and all that wonder that Coney Island provides and will continue to provide for generations to come. PLEASE DO NOT PUT A CASINO IN CONEY ISLAND!!!!

			Allowing a casino project to be erected in Coney Island would be a short-sighted permanently damaging disgrace. Hopefully CAI is already involved with the Coney Island community in a demonstrable way – it is their community. Destroying Luna Park would destroy a historic district and palpably change the very nature of Coney Island. Casinos, while providing jobs, attract prostitution and drugs to a family-oriented seaside place of rest and relaxation for all New Yorkers – all for the price of a subway or bus ride or a short walk for members of the community. A casino will fundamentally change the character of Coney Island forever converting a seaside community for the masses to a corporate crime infested mess for the few. A casino will not help existing neighborhood businesses (most casino customers purchase all services from within the casino properties) and it will destroy an area that screams "New York City". Let's not relegate Coney Island to the dustbin of history. This proposed project must be stopped before it starts – and if it is approved, all politicians with their names attached to it beware – you will be primaried and defeated. You were elected to protect NYC's best interests. A casino project is far from anyone's best interest in Coney Island.
6/9/2025 18:02:31	Jeff Tewlow	10023	This casino would actively kill all of the small businesses in Coney Island. The footbridge they intend to build encourages anyone who stays there to stay within the walls of the casino and not invest their money in the city of New York. It's shameful to even consider allowing this capitalist monstrosity to take away from the people of the city of New York.
6/9/2025 18:37:49	Emma Bedard	70119	Leave Coney Island ALONE! A casino is completely pointless compared to the historical mark and memories Coney Island has given to New York City for decades. We will NOT stand for this!

			... strongly oppose the proposal to build a casino in Coney Island. The Wonder Wheel and the surrounding attractions are not just entertainment landmarks — they are part of our history, culture, and the heart of the community. These places belong to the people and have always been a source of joy, family memories, and local pride.
			Bringing a casino into this neighborhood will do more harm than good. It risks taking jobs and opportunities away from long-time local residents and small businesses. It will change the character of the area, increasing crime, traffic, and displacement, and pushing out the very people who have kept Coney Island alive for generations.

			To our local Elected Officials, I am writing to express my very strong disapproval and opposition to the construction of a Casino in Coney Island. The proposed Casino project will not provide any improvements for Coney Island. The Casino will instead replace large sections of the amusement area. It will build over and close off the streets, blocking access to the beach and boardwalk. The proposed Casino will only bring an increase in crime, traffic, garbage, pollution and noise, forcing many existing residents to move and local businesses to close.

			Luna Park is as much part of the fabric of the city as the Empire State Building, the NYPL, and so many other landmarks. To destroy it would be to destroy the spirit of New York City. It would be a devastating loss to the history, community, and joy of the area. And frankly, it would be a massive embarrassment and stain on anyone's record who would vote for such a thing. Coney Island is about community and voting for a casino to further line the pockets of people who do not need more money is a morally bankrupt decision, and one at odds with the needs of the people who live in Brooklyn and the millions of people who come to visit each year. I find it genuinely disgusting that this is even being considered.

			I think destroying it and turning it into a whole CASINO is so not okay. Casinos make more addicts, bad for the environment around coney island. Its only for adults makes coney island have your guard up. Theme parks are for everyone to enjoy and people of sny age can have fun! its insane you want to destroy coney island for your casino and to make more addicts and making coney island not dangerous but less people are gonna visit since its only adults!

Coney Island is known for its amusement parks, beaches, and cultural landmarks it's a place where families come to enjoy themselves, not a destination for high-stakes gambling. Introducing a casino could lead to increased traffic, strain on local infrastructure, and a rise in crime or problem gambling, all of which would hurt the small businesses and long-time residents who make the community vibrant. We should be investing in developments that enhance Coney Island's unique identity, not projects that risk eroding it. Also I don't support anyone who wants to build a casino

			I have been going to Coney Island, especially in the summertime ever since I was a little girl and it has always always been a family oriented place. You will make Coney Island a breeding ground for crime possibly muggings and families will no longer feel safe. I as well as many other New York City, lovers and residents will not feel comfortable with the change that you are trying to bring for your own profits.

			The proposal to displace Luna Park with a casino threatens to fundamentally alter the character of the area, degrade the quality of life for local residents, and jeopardize the well-being of generations who call this community home. Casinos have been linked to increased rates of problem gambling, crime, and financial distress in surrounding communities. Introducing such a development in a residential area risks serious long-term harm to local families, youth, and vulnerable populations. While casino developers promise jobs, these are often unstable or exploitative. The long-standing small businesses and vendors that rely on seasonal tourism around Luna Park could be driven out by rising rents and corporate interests. In addition, a casino would drastically increase traffic, noise, and pollution in an already crowded area, worsening public transit strain and making it more difficult for residents to safely navigate their own neighborhood. All in all, Coney Island has long been a symbol of resilience, diversity, and working-class culture. A casino does not align with that identity — it commercializes and cheapens what makes this neighborhood unique.

			Hello, Please do not build a casino in Coney Island. Coney Island amusement park is one of the most historic parks in the country . I love going there and want the park to thrive for future generations. I definitely won't be going to a casino. Look at Atlantic City , it's a dump with all those casinos. 			<p>My name is Henry. I like to say nyc needs more places for children to go instead of corrupt facilities like casinos where people are taught how to gamble money away instead of spending their money on happy and joyful things. And our favorite attractions are being taken away also famous restaurants . It's just a bad idea. Please do not replace Coney Island with casinos that a bad decision</p>

5/7/2025 16:24:16	Ari Sadler	48220	I have been visiting Coney Island for over 80 years. There is no other place like it. I visited yesterday, for work, and was over joyed to see that much of it has remained the same. It is "The People's" Amusement Park. People from all walks of life and that is so very special. I have 2 granddaughters, 11 and 12, and I can't wait to take them to a Real Amusement Park not a Corporate Amusement Park like Great Wolf Lodge and American Dream. I grew up near Savin Rock Amusement Park which was very similar to Coney Island but on a much smaller scale. Still, it was an amusement park nestled in a neighborhood with all the good and bad that goes along with it. Sadly, it is gone. A victim to the same 'money oriented' mindset that is planning on destroying what Coney Island is really all about - a place where kids, of all ages, like the 75 yo me and my young granddaughters, can get lost and enjoy the old rides, the food stands, the shops, the crazy carney side of it and most of all the people - the real people - even the elderly, homeless man who was rumbling to himself on the bench next to me at Nathans. Yes, he and everyone else like him or not like him needs a place to go, freely and without charge, and be around and near others having fun. Please don't take that energy away from him and others like him or me and others like me and replace it with a corporate gambling facility. I won't even get into the argument about how we are destroying lives and our society with easier access to gambling. Please let us keep something that yes, may be flawed, and yes my not corporately glittering, and yes may not bring in the revenue that is wanted BUT it is ours, all of ours, including you and your loved ones. Please do not let what can never be regained slip away. Please do not put another nail into our humanity. Thank You!

			As a community blight, a casino is second only to an environmental disaster site. A casino hosts games that are engineered to leave players poorer off and fuel addiction to make losing more likely. How can such an institution do anything but deplete its neighboring community? As an NYU neuroscientist holding a PhD in Cognitive Science and an MS in Statistics, opposing this development is common sense to me. No reasonable person can consider these facts and believe that a casino fulfills anything but the greed of its developer.

The culture and activities there should be honored and revitalized. The attractions that still stand are what make Coney Island what it is and losing that would destroy everything that it stands for.

			NO casino in Coney Island. The integrity of Coney Island needs to be maintained. I was born in New York and have always liked the atmosphere of Coney Island - in part, a little gritty - as in West Side Story kind of gritty - combined with the thrill of a traditional amusement park and the charm of the boardwalk. It should not be sterilised by the development of casinos and hotels. There is so much gentrification everywhere - and in many cases, it's a good thing; but it also takes away from the character of a place. Coney Island is one such place that deserves for its character to be preserved.

			<p>The film: ANORA that won this year's Oscar for BEST PICTURE was partly filmed in Coney Island. Director James Gray filmed "LITTLE ODESSA" in Brighton and Coney Island. Woody Allen used the Thunderbolt rollercoaster as a backdrop in ANNIE HALL. Why? Because this is an iconic and well-known amusement park in Brooklyn for over 100 years. And still going strong without a casino.</p>
			<p>Developer Joe Sitt claims to love Coney and went there as a boy. I don't doubt that. However, his vision is not from the eyes of a boy any longer. But from what money he can yield by turning this place into a mini Las Vegas.</p>
			<p>He should be putting his money and effort into working with the city/city council and the community to improve it: More rides/retail/upgrading the museum/restaurants/more seaside attractions.</p>

			I am not a resident of New York but that doesn't matter. Coney Island does not need a casino. The history of Coney Island needs to be preserved as an icon - a community. It is a spot for everyone, of all ages, to enjoy. Growth like casino brings a new set of issues - more trash, gambling, traffic, crimes, and forcing long time residents to change their entire lives. This is why I say NO to the casinos.

			I am a licensed NYC sightseeing guide, on the board of a local historical society and Community Board, a performer, and love Coney Island and walking in the annual Mermaid Parade to celebrate the area and the Summer season at one of the city's public beaches. This proposed development is another example of big real estate and greed ruining the cultural fabric of this city's local communities. It must be stopped.

			<p>My family has lived in the Coney Island area since the late 1800s. My grandmother and her siblings worked in the Coney Island theme park throughout the Great Depression and helped keep their family afloat during a period of immense financial difficulty. One of my Great Aunts owned and operated the House of Wax that proudly stood there until the 1980s. Some of my fondest childhood memories involve the Coney Island boardwalk and going to Cyclones games with my family. So when I say Coney Island has been a irreplaceable part of my life and family history, I mean it. I cannot imagine anyone who would throw away over a century of history and the joy the Coney Island area brings to people of all ages, for a casino when there are other similar ventures slated for development in Queens. To me and many others, Coney Island is as much a part of New York as the Statue of Liberty or the Empire State Building. Do not let greed erase one of New York's treasures.</p>

			<p>No New York City landmark with the rich history and iconic reputation of Coney Island should be bulldozed for a project that could go ANYWHERE else. Coney Island is a unique part of New York's history, and unless you want to go down in the history books with those who demolished the old Penn Station, this project should be redirected to somewhere it won't have an irreparable effect on the city by destroying a beloved, precious landmark.</p>

			Please do the right thing and stand up for the families and community who have enjoyed Coney Island for generations as a place to be outdoors, in the sun, feeling the wind and salt air- NOT a place to be indoors, in a disgusting casino, loosing their hard earned money for the benefit of a greedy developer who probably doesn't even live in the area. It's not hard to understand, it just requires your courage to not be bought by the greed mongers who don't care about real people.

			I have been a member of the Coney Island Polar Bear Club and a participant in the annual Mermaid Parade for 20 years. The Casino will destroy what is left of this historic district. Coney Island is already overcrowded. I am also concerned how it will limit emergency vehicles accessing the beach. Cost of living will increase and displace the disenfranchised communities in the area. Please protect the beauty and the culture of our beach and beloved Coney Island!

			As an Architect and Mermaid Parade Patron, I assert that Coney Island is a historic place with historic structures that hosts historic events, and it should be protected as such. In addition, the new development is entirely out of scale with the existing and surrounding community and does nothing to honor the structures that have been there for decades. This new plan will block existing roads and sidewalks which will limit and disrupt pedestrian foot traffic- the main way people explore the area. To erase such things would be an enormous loss of local and national culture. Surely there are other underutilized sites that are occupied by less significant structures that could be redeveloped for the purpose of building a casino or casino complex.

			I travel from Rhode Island often to attend events at Coney Island, especially the Mermaid Parade. It would be a tragedy to change the character and egalitarian space with a casino. This would provide profits for the few and destroy such a magical family friendly place. Coney Island is the most New York place I have ever experienced. A place for everyone, to have fun, feel the sea air and be in community. A casino is antithetical to that.

			All of the hard work of making Coney Island a rich cultural gem for New York over the last 30 years will be lost if these casino plans are allowed to go through. Coney Island has been a place for the families of NYC to enjoy a fun day thanks to the beach and amusement parks. It is unique as a place for people of every tax bracket to find a little fun in their work week. When I first came to New York as a kid out of college in the 90's, this community was a touchstone for my creativity and joy. Stepping off of the subway platform to see the vast expanse on ocean made me feel at home in a strange unforgiving city. Endangering the businesses and community that helped to capture that joy would be a crime.

Just because a billionaire wants something and says "it will be great" doesn't mean it's true. The proposed casino will cause problems and destroy the unique landscape, community, and culture of Coney Island. The reason people want to come and keep going back is because of the established culture—not because there's a casino there. I hope you will be able to see past money and do what's best for the community by saying NO TO THE CASINO.

Casinos don't have the shelf life they once did, you'll be destroying what makes Coney Island special for what? A year or two of glitz before things degrade like Atlantic City?

This iconic place is famous around the world and should be a registered historic landmark. It would truly be a shame to lose one of the last remaining city amusement parks. 			For my entire life, I've studied amusement history. I've always read about certain developers having almost a grudge against Coney. They wanted so badly to redevelop it. Robert Moses, Fred Trump, the list goes on. It was frustrating to read, and through the 2000's I assumed it was over. Well, surprise, surprise, of course some developer wants to do it again! For god's sake, can't you pick ANYWHERE else? Why here? Leave Coney Island alone for good! It always seems like some greedy developer gets the itch every 5-20 years. What's next, Central Park?

			While the capital investment of a casino might seem alluring for developers in New York City, its value is far out weighed by the significance of this historic neighborhood, and these landmarks that will be absolutely decimated by the proposed casino (which is not only an eyesore but an obvious environmental hazard).
			The history of our city, the history of our Coney Island cannot be bought and sold. What Coney Island means to our families and future generations as a place for all New Yorkers to enjoy, not just the entitled and the rich, is wealth beyond development. HANDS OFF OUR CITY, HANDS OFF OUR CONEY ISLAND. All power to the Coney Island of our ancestors and preserving the living, breathing history of our beloved home. May the elected officials who do not stand for the voice of the people of New York City, receive no votes and no more endorsements. Politicians listen up: you work for the people!

The assault on our historical landmark community by a cynical billionaire developer who acquired buildings only to let them sink into disrepair and now claims that his project is a needed improvement confirms New Yorkers' suspicion that our state and local governments are committed to a tiny self-serving cohort of real estate investors. Please reconsider this awful plan that will impoverish already poor families and increase crime in the area.

			As an archaeology principal investigator and historic preservation professional of 18 years, who also frequents New York City for my job, it is my recommendation that the proposed Casino project will have an adverse (negative) effect on Coney Island and the surrounding area. Specifically, the casino construction will adversely affect the historic amusement area, beachfront, and most poignantly the Riegelmann Boardwalk. As you likely already know, the New York City Landmarks Preservation Commission designated the Riegelmann Boardwalk a scenic landmark in 2018. Moreover, a number of buildings and attractions along the boardwalk and amusement area have been listed in the National Register of Historic Places (NRHP); the NRHP is a federal list that was established by the National Historic Preservation Act (NHPA) of 1966 for those sites, structures, buildings, objects, districts, etc. deemed worthy of preservation due to their historic and cultural significance. It is my professional opinion that the Casino project will result in an adverse affect to all historic areas within the project's footprint and limit of disturbance as well as the surrounding viewshed (visual impact radius) of the historic elements of Coney Island. Coney Island is wholly unique and there is no other historic amusement district like it in the world; the scope and size of such a project would permanently damage the intricate and storied history of Coney Island, Brooklyn and New York. Moreover, the casino project would besmirch the living memory and culture history of the area with an antiseptic and vapid facade of "modernity" all who have lived and died in their pursuit of the pleasure and happiness that Coney. Please for the sake of Coney's future and the preservation of our collective history going forward, oppose the Casino project. Thankyou.

Coney Island was a gift to kids, and to the young at heart. We couldn't go to Disney, but we could get here to play and suspend our disbelief for a while. A casino will not cater to our city's young people. In fact, it caters to no interest of our city's people.

			Coney Island is true magic. It reminds us of the past while still being a living place that thrives. It has heart and soul and has touched many people's lives for so long. It is a pure representation of New York, the greatest city in America. It's authentic without gimmicks and is welcoming not only for the artistic and offbeat, but to anybody of any age. Going to Coney Island is stepping into a wonderland. It's a piece of history that YOU can live... not just a picture hung on a wall in a museum that will soon be forgotten. But it's not just history it's RIGHT NOW, it's alive, and anybody with any real respect for it would never dream of replacing it with a casino. A casino will never have the effect that Coney Island has on others. Approaching the beautiful skyline of the park on a warm summer day, hearing the sounds of excitement will be remembered by a child forever. Enjoying the thrills of the rides and realizing the simple pleasures in life are the moments that will be always be cherished. Do you think seeing a grey, modernized building engulfing the land and the sky will be something that a child will think back upon with magical memories? Of course not. You can go anywhere and see big corporations and ugly buildings with money as their only objective all over the world. That's not special. And ripping out years' worth of glory and plopping a disgusting casino on its soil is evil. I vividly remember my first time approaching Coney Island, hearing "I Want To Take You Higher" by Sly and the Family Stone in the background and feeling like I was in paradise. Now I'm 18 years old and I still feel giddy even when I'm only thinking about it. Coney Island is something that you cannot buy at the store, and cannot recreate once it's gone. It is unique and special and I am so grateful that I have had the privilege to experience it. Going to Coney Island means taking a bite of Nathan's hot dogs, riding the creaky wooden cyclone, witnessing the thrills of the circus sideshow and walking along the boardwalk feeling summertime happiness. My grandparents are buried on Coney Island. It was a huge part of their lives growing up in the 40s and 50s. It's in my blood and I'm proud to say that I am a part of Coney Island and its story. But more importantly, it is a part of me. It's much more than an amusement park, that title doesn't give it justice. It is a symbol of happiness, of love for the simple things in life. It's proof that magic does exist.

Swimmers, carnival entertainment, handball players, and boardwalk sunbathers offer more to the area than a huge air conditioned gamblers casino. 			Coney Island offers a rare and classic opportunity to experience a treasure of old NYC; it deserves to be enjoyed by New Yorkers, not sacrificed in the interest of yet another misguided urban mall. A huge casino does not belong in a densely populated urban area. In addition, the narrow neighborhood streets are already overwhelmed by the increased traffic of a sunny summer weekend. 			In addition to marring an area of exceptional historical significance, the casino will put small businesses out of business in favor of big, corporate business. Bussing in people who will speak in support of the casino is underhanded, rotten behavior that ignores the desires and erases the voices of local constituents. You are not doing this for the neighborhood—if you were—you'd listen to the neighbors and not bus in jerks from other boroughs.

			At this point, when it comes to Coney Island, everyone should know Joe Sitt is a con man who can't be trusted. He's made grand plans to build there before. In 2009 he got the City Council to make zoning changes so he could build housing, hotels, and more rides. He suckered Council members with the traditional developer siren call of jobs, jobs, jobs! And once he got the zoning changes, what did he build? Nothing. Not a single ride, hotel, or unit of housing. He did exactly what his critics knew he intended to do all along: he flipped some properties for a huge profit, and it was to the city, so tax payers foot the bill for his con job.

Coney Island embodies all these ideals. Where else can you find a Mermaid Parade, an aquarium, a circus sideshow, a museum, and rides, rides, and more rides. And did I mention the beach? And the food? People from around the world flock to Coney Island to experience the magic. But now, some billionaire wants to ruin everybody's fun by replacing what's loved with a bunch of obnoxious casinos? I DON'T THINKS SO! We like Coney Island the way that it is. New York, America and the world like Coney Island the way that it is. Everywhere we look, wonderful places are disappearing before our eyes and being replaced by enormous warehouses, casinos and other eyesores. Let's put a stop to this before it starts. Let's preserve Coney Island - a living piece of Americana - for our children, our grandchildren, and for many generations to come. Say NO to the casinos. In fact, say FUGGEDABOUTIT!

			Do NOT allow this casino. I grew up in Sheepshead Bay. Went to Coney Island as a teenager. And still visit. This amusement park goes back to the turn of the century. The history can't be replaced. Sigmund Freud visited. Actor/Fatty Arbuckle played there. Along with other notable theater/film people of the day. Rode the Parachute Jump. And the Cyclone. Have photos of the Thunderbolt (decommissioned) and torn down by then Mayor Giuliani who thought it was an EYESORE. Well, he WAS and STILL IS an EYESORE. Nothing was built on that site.

			Coney Island is so rich in NYC history, built by immigrant communities for generations. Much of that rich history has already been erased, however it will be completely obliterated if a billionaire's Casino is built on the peoples' playground. The casino will sky rocket rents in the area and displace many people who have called Coney Island home for many years. It would be a sad day if the casino gets built, erasing a true piece of made for the enjoyment of all.

			I am writing this - and showing my HUGE disapproval of the proposed casino - not as a resident of Coney Island nor Brooklyn nor even the state of New York. I'm writing this as a historian of not only the amusement and entertainment history of the Island. I cannot express how utterly wrong headed this proposal is, and not just as most casinos and "development plans" surrounding them NEVER develop the neighborhood revenue their proponents claim will roll in. It's a lie. They take the money that's made - no matter how else the subject is framed - pocket what they can, and leave the neighborhoods to deal with all the downsides that the predicted income never corrects. Coney Island has an international reputation as the birthplace of organized amusement. You build the casino, that's gone.

			<p>I understand the idea of wanting to add on more to Coney Island and to bring more people to it, but a Casino is NOT the way to go. Frankly, the idea of a casino is ridiculous and if it's put into action, it'll drag the neighborhood to hell. Not only will the noise and pollution be an obvious problem, but think of the uptick in crime that would happen if a casino were opened on Coney Island? Not only that, but think of the potential accidents that could happen.</p> <p>At a casino you waste your money and you get drunk, and if you're drunk you'll do something totally stupid. If the casino were opened, drunk dummies could very easily wander out onto the beach and drown themselves in the ocean. When you're drunk you don't think, you just act. The manner in which you'll act can only be described as braindead and reckless! That, and if someone is an angry drunk they could very easily lash out and started fights. That, and it's a prime spot for robbery. A bunch of money to be earned lying in one spot? Sounds like an opportunity to get mugged if you ask me.</p> <p>It's been bad for the neighborhood, bad for the environment and overall stupid in general. You'd be ruining an 150 year old landmark just to fuel the nation's crippling gambling addiction.</p> <p>New York has already been the butt of so many jokes because of the amount of crime and the pollution that attracts rats and roaches (which the city has become known for!), do you really want to add more fuel to the fire? Do you really want to taint the image of this once proud city even further?</p> <p>If not, then leave Coney Island as it is and don't tamper with it. If it ain't broke, don't fix it. And Coney Island is totally functional and fine as it is! I'm the name of historical preservation as well as the health and safety of the people of Brooklyn, and New York as a whole, please leave Coney Island alone.</p>

To whom this may concern,

I'm writing to you today regarding the casino development in Coney Island. My name is Jesse Newman, I'm a 32 year old writer from New York City. I'm hoping to spread word of this disastrous development within Coney Island and hopefully have information passed up the chain to anybody who might care about this and possibly leverage some influence.

The following are some key points:

1. A real estate developer known for flipping large parcels of land and shady business practices has partnered with a casino developer to build a large gambling venue within the heart of Coney Island, displacing and disrupting many long term businesses.
2. The local Community Board 13 will imminently vote on a zoning proposal tomorrow on Wednesday, Jan 15th that will clear way for the construction of the casino, before a full board vote on Jan 22.
3. The casino team wants to close a portion of Bowery Street between West 12th and Stillwell Avenue, and purchase air rights over portions of West 12th and Stillwell to construct tall buildings connected by pedestrian bridges. Thor Equities, the real estate developer, is likely in cahoots with the Malaysian land development the Genting Group for this project.
4. The project will block views of the iconic Wonder Wheel, surround the existing landmarked building housing the 40+ year old non-profit arts organization and museum Coney Island USA (responsible for the Mermaid Parade), and usher in the end of the true history of Coney Island as a historical amusement district.
5. Thor Equities purchased, allowed to rot, and then demolished 2 historic 100 year old buildings on said land parcels, keeping the lots empty and rat-infested while waiting to make this play to flip the property - a plot years in the making - and are resorting to dirty tricks and deception in the public approval process. A nearly 500-page document was released by the firm, knowing the public would be unlikely to comb through it to reveal the truth of the plan's dire implications.
6. The developers have promised to enact a 200 million community trust to "assist" the area with recreation center construction and flood prevention. It's a bad faith argument, a bribe, and a Faustian pact, as the Coney Island community has been asking politicians for similar rec center development for years, which hasn't materialized. There additionally have been studies that prove that 600 million is needed for flood prevention; the implication is that ONLY the land around the casino itself will be protected. The citizens largely understand this.
7. The casino developers have been paying people in Gravesend and Bensonhurst for "advocacy," and bussed them into the community board meeting (with most of them leaving early).
8. Coney Island has always been known as "The People's Playground", and is the only neighborhood in New York City that is zoned for both residential and amusements usage.

A casino is in no words a community space, has no place in a residential area near playgrounds, and will only bring vice, addiction, prostitution, and the death of a true gem of NYC. Consider Atlantic City, the degradation that the casino businesses ushered in, or the destruction of the beautiful original Penn Station in 1963. History has proven that both of these ventures were huge mistakes. Perhaps with more joined effort these travesties could have been avoided—perhaps not.

It's unclear whether the die has been cast, but I'm trying my best to spread word. The casino developers are counting on the development process being obfuscated from clarity for Coney locals, the general public, as well as any city stakeholders who might object to the project. I'm imploring you to spread word of this, to share this email with your colleagues, political associates, board members, anyone who might care—and to ask them to forward it to any people they might know. I'm additionally reaching out to local politicians, newspapers, and other local civic history entities. If you have any questions please feel free to reach out to me at this email, or at (646) -761-2250.

Thank you so much for reading.

Best,

Jesse Newman

PS: Coney Island was named for the rabbits, "coneys" that populated the peninsula. The name is true to the spirit of the island; Coney Island represents, despite roughshod decades, the innocence that humanity can manifest. It transcends lines of race, class, and politics, exemplifying the best things about NYC—people united through the joy of the ocean, the wholesome bridging forces of fun, family, romance, joy, history. A true melting pot where it's possible to stand side by side with strangers and share a linked joy illuminated by the glow of the sun—like the light emanated by Lady Liberty's torch, who's glow citizens throughout our country of many stripes can feel fading. "Community" can be a buzzword sanitized through media, bandied about in bad faith by development companies in an effort to grease the city governance and trick the populace—but it means something real, something pure and good, delicate.

			Coney Island amusement park, aquarium, and beach is a landmark and cherished escape for New Yorkers, many of whom cannot afford more expensive trips or destinations. They (we) depend on local spots like Coney Island to provide opportunities for our families in spite of the tremendous rising costs of raising kids in NY.

			We voted this down nearly 2 years ago, why the hell is this being pushed through again?? Over development results in blanketed catastrophes, just look at Southern California. Who will be responsible when a further bottleneck is placed on Coney Island and we lose more lives, homes and property?? Who is it that is making money from this proposal??? Because we know it's not the residents of this impoverished neighborhood with an over abundance of residents who are people of color. When the hell does this willful Ignorance and disregard for humanity stop???? My remarks don't even touch on how these casinos make their money on the backs of the poor, those on public assistance, retired who are collecting social security in particular, and those with mental health disorders who are easily addicted. It needs to stop NOW!!! NO CASINO IN CONEY ISLAND OR ROCKAWAY.

It is sickening that people with money are so hell-bent on implementing personality-less "developments" that are DESIGNED TO STEAL MONEY FROM POOR PEOPLE, siphon it up to wealthy people, and all at the expense of a US institution such as Coney Island. It is sickening that this country makes such ventures legal when it is obvious what the REAL intention of such project is. NO CASINO.

			<p>I'm a fan of Coney Island as it is (I live in Toronto, but I still like Coney Island) and I DON'T want to see a casino in Coney Island, period.</p> <p>Casino gambling is nothing but a super-hard pastime that most people will lose at unless they're mathematically gifted or have a bio-chip implant in their brains that allows them to compute how to win at card games. It does NOTHING for people except make them broke and depressed afterwards, as well as addicted. It will also mess up Coney Island, a lot, and for what?</p> <p>Instead of a casino, how about an indoor amusement center similar to Playdium (an amusement center which was in the city of Mississauga that's contiguously bordered to Toronto, where I live [https://en.wikipedia.org/wiki/Playdium] but which closed down and is now in Brampton) which would have a lot of arcade games and attractions in it? That's a lot better than a casino.</p> <p>I hope that common sense prevails, and that the city realizes that building a casino in Coney Island will devastate the area, NOT revitalize or enhance it (something like that was planned for Ontario Place here in Toronto, but which was scrapped [the casino was still built, but it's at least near a racetrack in the northwest of the city.]) Let what Coney island is, stay AS IT IS without altering it for something that never really works anyway (except in Las Vegas or Monte Carlo.)</p> <p>Respectfully yours,</p> <p>Neville Ross (solex10@hotmail.com)</p>

1/13/2025 10:24:06	Mathew Namer	10011	I've lived in New York City my whole life and have been visiting Coney Island for that entire time. It's a very unique special historical place that should be preserved in a historic district. More recently I've played shows at Coney Island with my band The FMs and have attended the wonderful Mermaid Parade. The proposed new development would completely destroy the Coney that New Yorkers and beyond know and love.
1/13/2025 12:45:07	Mariah Charpentier	05156	Coney Island is a beautiful and unique place that keeps the art form of sideshow alive. To get rid of a truly one of a kind place to put in a cement building that will house a casino is absolutely insane. There is approximately 1,500-2,200 casinos in the United States alone, Yet there is only one Coney Island.

			<p>As a native of Coney Island, I strongly oppose the proposed casino development, and urge elected officials to reject a project that will lead to the demolition of existing businesses, the shrinking of the amusement district, and exacerbate already challenging traffic issues.</p>
			<p>I grew up in the Luna Park development and am deeply concerned about the detrimental impact on the quality of life for current residents of Luna Park, Brightwater Towers, and other nearby communities if this massive casino project moves forward. This project would harm not only residents but also the thousands of New Yorkers who flock to Coney Island each summer for a day at the beach and the amusement parks. Coney Island does not need a 40-story hotel, and the adjacent large buildings in this complex blocking access to the beachfront and amusements.</p>
			<p>Politicians must not be swayed by the flashy promises of casino developers. There are countless examples of casino developments that devastated the character of beach communities and ultimately failed, leaving behind greater economic and social harm than existed before.</p>
			<p>Coney Island needs thoughtful development that builds on its unique strengths: universal access to sun, sea, and sand; an affordable escape to a world-famous amusement area; investment in small businesses that serve visitors; and protection of the fragile barrier island ecosystem.</p>
			<p>Relying on a casino to define the future of a place that has been the "People's Playground" for nearly 150 years reflects a lack of vision by the City of New York and the project's backers. In my adopted home of Richmond, Virginia, residents decisively rejected a similar casino project because they understood the long-term harm such developments often cause, once the initial economic boost fades.</p>
			<p>I urge decision-makers to carefully consider the true impact of this project on the community. This project will permanently alter the character of the community, ruining what makes Coney Island so special.</p>

			As someone who frequently works in NYC, Coney Island is a place I spend much of my summer at. To hear the place I love may become a useless casino infuriates me. People are struggling just to live, what makes you think they'll spend their hard earned money there? Add to this, Coney is historic. For you to want to wipe away that history for greed is ridiculous. Between the congestion pricing on the bridges and this idea, it's like you WANT to lose money with losing tourism. 			I am a loyal visitor to Coney Island and return every summer to visit the area and attend the Mermaid Parade. I am making this journey from Berlin, Germany and it continues to be a highlight of my year and has been since 2016. On my visits I have met many wonderful people from across the USA and without the Mermaid Parade and the Uniqueness that Coney Island attracts and includes none of that would be possible. The development of a Casino would absolutely destroy everything that attracts not only myself but many others to the area.

1/10/2025 22:54:24	Nikila Luke	11385	New York City has little to know land for amusement park, entertainment., Coney Island has provided This space on the shores of brooklyn for over a century. While , some parts have been restored, Other sections of the boardwalk are slowly turning to commercial spaces for shopping, the Amusement parks there are losing ground. There's a rich cultural history in Coney Island, and that must be preserved and only replaced with something of equal amusement park value to the people of New York City. 15 to 20 years ago a developer purchased a number of properties along the boardwalk and try to change the zoning to residential, the good sense of those in charge at the time prevented that from happening. A casino for gambling is not that. Casinos for gambling are not places for children to enjoy, like the amusement parks are. Please think very long and hard about this decision and the long negative Impact construction of casinos would have, families will no longer be able to enjoy the Coney Island boardwalk together. Thank you.

			Coney Island is one of mine, as well as many other of your constituents, most beloved parts of new york city. As it stands, there's over a century of history of the boardwalk and amusement parks being a great place of gathering for all new yorkers! 			It is so upsetting to think that one would further prioritize alcohol, gambling, and money over joy and history. We have seen so much destruction of historical and iconic pieces of New York in order to make room for hotels and chain restaurants. Coney Island is a place where families and people of all ages can go to have fun for little money (something that is rare in this city). It is an iconic location that holds a lot of history and to see it torn down and see it turned into a "paradise" of drinking and gambling, no longer welcoming for families would be a tragedy. Please do everything that you can to prevent this.

			Please do not be tempted by baseless claims of "economic value" that do not truly improve the lives of your constituents or local businesses. Your job is to have the best interest of your constituents, not developers. We have lost so much trust in the government, and will only lose more if projects like this continue to threaten our neighborhoods. Do not let the rich continue to become our governing class. We need representation and someone to fight for us, we do not have millions of dollars to wave in front of your eyes. I believe that we can keep what makes New York a special place and safeguard communities and culture, if we all look out for one another.

			As a long-time resident (30 yrs) of CI who now lives out-of-state and with deep roots and continued family ties to CI, I strongly oppose this development. This project will exacerbate existing challenges in our community, further displacing residents who have persevered despite inadequate resources and infrastructure neglect. CI remains a relatively affordable neighborhood, a testament to its resilient community, comprised largely of elderly residents and immigrants. This proposed attraction will undoubtedly drive up housing costs, pricing out current residents. If this project is such a good idea for CI, I suggest exploring alternative locations, such as Staten Island instead.

It would be devastating cultural loss for the city of New York if a casino was allowed to move in and destroy the old-school loveliness of the place. I grew up near Atlantic City, and bringing casinos there was extremely bad for the area. The casinos don't pay their taxes, and it's brought crime and scourge to a previously cute and attractive seaside resort. Don't make the same mistake in Coney Island!

The only other thing I never got to see in person that I grew up from the 70's onward seeing in tv and film was the Twin Towers and from the attacks I never will. Don't loose this.

			Populations within 10 miles of a casino are 2x more likely to suffer from gambling addiction, substance abuse, and economic distress. It has been proven that casinos are detrimental to the quality of life for the people around them. Casinos are good for corporations, not for New Yorkers. What is good for New Yorkers is low-cost recreation, as offered at Coney Island as it has existed for over 100 years. Coney Island is living history.

			Coney Island is a treasure. I have some of my greatest memories there. Whenever I'd come home from collage that would be the only place I'd want to visit. The building of the casino is not only a slap in the face to NYC and Brooklyn locals but to all the visitors who will never get to experience something authentic. The shadow lines will have devastating effects on mental health as the city grows darker from development greed. People need to feel heard and supported not considered insignificant and in the way of profit. Profit that only goes into the hands of people afraid to lose profit not in the hands on people in need.

			Coney Island is New York! It's full of the wonderful, wild, wacky, diverse people that make NYC great – and that's because it is, HISTORICALLY, for the people. How many free public beaches are accessible by subway? How many affordable family outings? Destroying a century of NY families' histories to pad the pockets of a billionaire is abhorrent, unnecessary and shortsighted. Culture and community are for us – disgusting money-grabs that lock tourists inside staring at slot machines have not place here.

			<p>Our history and our heritage shapes our humanity, and this world has already destroyed so much of that humanity in the name of profit and greed. An elected official of New York who would allow that same greed to claim one of New York's most iconic spaces deserves neither to be elected or official; they deserve to be consigned to history as a traitor to our culture.</p> <p>There are so many better ways to revive Coney Island as a relevant community space, one that adds as much value to our community as they do to our economy. I implore you to consider any of them before you consider a casino.</p>

			Coney Island is one of the only cool places left in NYC and bringing a casino will literally ruin it. Atlantic City is the worst place I've ever been in my life and I personally would never go back to Coney Island (I go often now and spend money there) if there was a casino. They attract crime and the money spent there does nothing to benefit the community or surrounding businesses.

			I've worked with the Coney Island History Project since 2007, first at our free exhibit center under the Cyclone and since 2011 at Deno's Wonder Wheel. Here we go again trying to save Coney Island! Thor Equities' horrendous renderings for their multi-block casino project with a hotel over 400 feet tall show a complete takeover of the amusement area. It would overwhelm Coney Island USA, Luna Park and Deno's Wonder Wheel Park and destroy numerous small businesses. The developer is asking to close, or "demap," several public streets for private use which would endanger public safety by increasing traffic congestion and cutting off the beach and boardwalk to emergency vehicles. I ask the community board, city agencies, and elected officials to do your job with integrity and vote no on this project.

			The amusement park at Coney Island is a cultural cornerstone of New York and destroying it so that already rich people can get even richer is akin to ripping out the heart of the city. Without the preservation and protection of its most iconic landmarks and the communities that call these areas home, New York is nothing but another site of soulless development. This city is nothing without the communities that allow its culture to thrive. To displace them is to destroy everything that makes New York what it is.

			I grew up in Brooklyn; further north, but Coney Island is a staple of my childhood, and an exceptionally important Brooklyn community. Turning it into a casino and razing the community there would destroy an integral part of New York. The reasons above detail why — and even aside from that, consider the feelings of so many New Yorkers.

			<p>The proposed development of a massive casino, hotel, and convention center in Coney Island threatens to erase the unique cultural and historical identity of this iconic New York landmark. By removing nearly half the amusement rides and placing the remainder, including beloved traditions like the Mermaid Parade, at risk, this project could dismantle a community built over generations.</p>
			<p>Beyond cultural harm, this development would exacerbate the already rampant displacement of New Yorkers. Coney Island's charm lies in its accessibility and appeal to diverse residents and visitors alike, but a sprawling casino complex would drive up rents, push out local businesses, and accelerate gentrification. Longstanding residents, who have been the backbone of this community, could be forced to leave, replaced by a tourist-centric model catering only to the wealthy.</p>
1/8/2025 20:17:00	Khrystina Bradley	10025	<p>This is not just a local issue — it is a citywide threat to affordable housing, cultural preservation, and the character of New York itself. Once the heart of Coney Island is replaced with towering shadows and corporate greed, the city will lose a piece of its soul.</p>

			Stop monetizing everything for your own profits that only benefit the few. Coney Island and the surrounding areas are a staple of NYS that all New Yorkers and people from around the world should have the opportunity experience. And they should experience it in the form it is meant to be, not as some out place casino that becomes a tax haven for only certain people. It needs to stay as it is with all the culture and vibrant atmosphere it has long been known for. As a Long Islander it was an amazing experience the first time I went and saw the sights and heard the sounds, and ate the food I saw on the movies and heard in the music growing up. Not to mention riding the famous Cyclone Rollercoaster that my grandad always talked about as he was a kid who grew up in Brooklyn. This place is generational, not a place to be plunged into darkness by folks who only care about the bottom line and their stock dividends. Keep your money grubbing hands and your corporate margins out of Coney Island. Thank you.

			I'm a native Miami citizen, but have countless times visited coney island and know the historical value and impact it's had on American culture for generations. It would be a shame to destroy history for the sake of profits one man will never take with him to the grave. I have seen similar landmarks in Miami get torn down due to developers with no care for historical preservation, only profits. I have seen beautiful wonders such as Hialeah park go to ashes with developments and casinos. This is why I stand by the people of New York to say no to the casino and development.

Coney Island will only uptick in crime, the historical landmark will be stained with economic greed. Studies I've read say most revenue from casinos are from locals not tourists. We, citizens, wouldn't benefit from the casino. It will slowly deteriorate our surroundings until casinos become the only viable idea in South Brooklyn. We have enough homeless people, our economy suffers enough in NYC. Please don't make things worse for us. Opening this door can lead to worse things to come. I don't want us to become like Atlantic City. If anyone wants to gamble they can do so on the outskirts of the city. We even have them in Queens. Please keep our history. 			The Coney Island District is a cherished landmark that should be protected, not wiped out to make way for this. Before moving to NYC 13 years ago I lived in Nevada for 21 years - I know the ups, downs, ins and outs of the casino industry and what is has to offer, and yet I would choose to keep the historic Boardwalk and surrounding areas intact rather than spend any of my time or resources at an establishment like The Coney. Do the right thing and shut this plan down.

			The construction of this Casino will destroy history, charm, and all the reasons that we love Coney Island. Despite the fact that I currently reside in a different borough; I feel a responsibility to stand up for the residents and business owners of Coney Island, as well as everyone who loves to go there to enjoy it, whether they live in NYC or not. Coney Island is an incredibly important and valued part of NYC history. I do not want a Casino and the extras that come with that Casino, to come and ruin it. Leave the Casinos In Atlantic City.

			As a member of the Coney Island Polar Bear Club, who travels every week to this amazing and accessible beach, please don't push the members of this vibrant community out. Keep Coney Island an affordable destination for city folks, families, and tourists. I've watched the mom-and-pop shops closing down in recent years or change and it's heartbreaking. Invest money in supporting the local business or encourage new ones. A beach doesn't need a casino. Casinos are indoor activities. Beach are for outside and amusement parks and boardwalks and being with community. Not breathing oxygenated recycles area and playing craps.

			Coney Island is an iconic landmark that should be treated as such. Building a casino ruins the only family-friendly place that a large populous enjoys going to over the summer. We don't need a 2.0 of Atlantic City, look what happened ther - it became a useless dump that ruined integral U.S structures and History along with the casinos being built. Coney Island is part of our history. Stop ruining it!

			A casino in this area is absolutely ridiculous. Coney Island is a historic area where people come from near and far to enjoy the beach and boardwalk. A casino would bring in more cars, traffic, trash, crime and really destroy the essence of the neighborhood. This is not AC. Keep the grotesque buildings elsewhere. If people want to gamble at a casino, they can take the train to Queens.

			This is a terrible proposal for the neighborhood and history of Coney Island.
			The blueprints and visual models are absolutely abhorrent, and for lack of a better description-look like gaudy architecture of the 1980s. I cannot fathom such a project being green lit let alone even proposed based on its design.
			The further obstruction of accessibility for individuals-and more importantly emergency services to the area-should be an automatic halt to such a proposal.
			By building this casino, the area would be stripped of its potential to be built upon further celebrating its history and heritage.
			A casino would remove a community based and family centric amusement park that is something for all New Yorkers to be able to afford and access, which without, is something NY children would not be able to experience otherwise.
			The allowance for parts of Coney Island to deteriorate is a pathetic stance to have had over the years. The potential for a casino to be built is abhorrent and unforgivable.
			The problem today is most people in power do not choose to take the harder route. I implore you to do what is right, not what is easy and beneficial to a small few and not the greater good.

			The Casino would destroy the neighborhood. They promised Atlantic City would be saved by the casinos yet if you go a block or two from the strip you can see that the city is still blighted. The casino would ruin the aesthetic of the neighborhood and take away land for amusement park rides. This is a terrible idea.

History has proven building casinos does little to improve local communities - it hastens many worse problems. Coney Island is a true gem of NYC history and destroying it would be an absolute tragedy and blight, similar to the demolition of the original beautiful Penn Station, but arguably worse. Coney Island is one of the purest last bastions of the way NYC has always been illuminated as one of the most vibrant and wholesome melting pots in our nation - it functions as a pure good for so many people to unite in joy, from so many different places and generations. I beg of you to consider the cry of the community and not go forward with this plan which will only serve to earn money for a limited few with zero stakes in the continuing protection and stewardship of the soul of Coney Island

			Coney Island is an integral and irreplaceable facet of NYC and is a living testament to our rich history. A casino will remove the character and beauty of Coney Island and replace it with a hollow artificial knockoff that encourages addiction and kills the soul of what once was. The last thing we need is a casino, let alone one that will stand on the ashes of our beloved Coney Island.

			Hello, My name is Henry A . I am calling to let (name of politician you are calling) know that I am strongly opposed to the building of a Casino in Coney Island. A Casino would destroy the very reason people come to Coney Island. 40 and 20 story tall Caslno buildings that cast shadows over the amusement area should not be allowed to be built in Coney Island. Please know that I will not vote for any politician who is not against the construction of a Casino in Coney Island. Thank you.

			As you know, casinos prey on those experiencing severe medical debt, those who need to make ends meet, and create an environment of addiction. Is this where you want to get your money from? Casinos also attempt to keep clients by having restaurants and convenience stores, aiming to keep customers in this addictive bubble, and threaten the small businesses around it. The quality of the "job growth" projected will be at the cost of the culture of the city and the health of its residents. This is a disastrous proposal that smacks of greed and exploitative practices.

			My grandfather passed away this morning. He helped raise me in Brighton Beach and would always take me to Coney Island on the weekends. There were only a few rides that fit within the narrow window of things he wasn't too old for and things I wasn't scared of as a kid! It's a place full of memories. That same thing is true for millions of people over the years. Removing historic landmarks, even if not entirely, is what has led to the disconnect between our local government and the people. New York has never been about the past, I know that. What it is, is a melting pot. The Russian, Ukrainian, and Uzbek people who immigrated to this country look at that beautiful park in their neighborhood and see it as a beacon of something much more grand than a twice collapsed wooden roller coaster. If you think saving the Cyclone changes this, then you're missing the point. Coney Island was a place people came from all over New York to have fun, and it was right in our backyards. It wasn't about drinking or gambling or any of the vices that trust me we're all far too familiar with. It was something pure that we had.

			I'm actually not opposed to building a Casino in Coney Island if it's done right, but the proposed development is too obtrusive, cutting off public access to the boardwalk and reducing the historical amusement district (which has all ready been greatly reduced over the years). 			My family is from Brooklyn and Coney Island specifically is the center of many beautiful memories. This is the case for countless other families and individuals, and it would be a tragedy to lose such an iconic place over a casino. I would imagine many would boycott this decision were it to be followed through with and intentionally not go to the casino as a reaction to losing this national landmark. The casino would not be able to last and the idea of it feels like an insult to the culture of Brooklyn as a whole. Please consider this in your decision.

			As a kid me and my friends would take the train from the Bronx to Coney Island. Till this day kids from now do the same. It's not only a part of the city it's a part of NYC's community it's an experience that unites all the boroughs. That being said how many adult entertainment events, activities, designated areas are throughout the whole city?! Too many that doesn't compare to how many of that is poured into the community for children. Leave a KNOWN fun place for everyone. It's known developers don't care about the outcome their projects leave on the community as long as it fills their pockets, but please to the people in charge of this, not only will you be hurting city-wide community. You will also ruin the future kids having a place to make memories in a city like this. What Coney Island provides is limited in a area like New York City, put that casino anywhere else or go buy and unused and unknown beach !!!!

			Coney Island provides countless communities with the opportunity to experience amusement without leaving the city; something that not all Americans, let alone New Yorkers can afford. Taking away some of the last remaining attractions that New Yorkers love will fundamentally alter NYC, and not in any positive way. Please do not do this.

			I grew up in Brighton Beach, and this park has meant everything to me. My childhood was full of the beauty and wonder of this amusement park. From the rides, to the games, to the outlook on our beautiful ocean, this place is truly magical. If you replace it with a soulless casino, you are robbing our neighborhood of its central joy, and children of their magical childhoods. Our park is more important than this deal, think of the people you serve rather than monetary greed.

			We have enough casinos as it is in NYC. We don't need another one. Coney Island is an NYC treasure; removing parts of it and getting rid of it is like getting rid of Central Park. It will block access to the beach and boardwalk. It will also increase crime; something Eric Adams has not been dealing with well at all. A casino will just cause WAYYYYY more problems

Leave Coney Island alone for families and people to enjoy, don't ruin it with another money grab. PLEASE Not only will I not vote for any politician that supports this project but I will blast their shit online and tell everyone else that they are letting their greed ruin one of this city's last historical treasures. 			As a Brooklyn resident, I encourage my elected officials to reconsider any support for this project. Coney Island is historic and there are other ways to inject employment opportunities into the area. If they really cared about their constituents' opportunities, they would have been working on a plan all along. Instead, this casino would only line the pockets of dubiously interested parties.

			Coney Island is one of the few places in New York that remains historic. This casino is unnecessary and ridiculous, and will take away from one of the few places that is still accessible to New Yorkers of all backgrounds. Already the infrastructure of this city is crumbling. Adding a massive casino and high rise hotels will but further strain on a city that can barely support it's working class citizens. This development plan is a slap in the face. Profits should not be the only thing this city values. There are other, more fair, and more accessible ways to bring revenue.

			<p>As a proud Brooklyn native, Coney Island has always been more than just a destination for me — it's been a place of joy, fulfillment, and cherished memories for my family across three generations, as well as for countless families in my Bed-Stuy community. For so many of us, especially those on fixed incomes who can't afford the luxury of trips to Disney World or Universal Studios, Coney Island has been a paradise that has filled our hearts with pure, unbridled joy, and we'd hate to have it ripped from our community.</p>

			Allowing this casino to eclipse CONEY Island would be the most egregious and disgusting display of billionaire developing power to date. How horrific to even consider this??? Imagine destroying a city for what? Every year at the mermaid parade I marvel at the beauty of the shore, seeing the beach, the sky, the comradery, the love shared by strangers and community alike. To never see the sun again on Surf Avenue would be tantamount to murdering the city. My grandmother spent a lot of time in Coney Island and I have nothing else to connect us. When I go I feel her with me. DO NOT DESTROY CONEY. Please please, SAVE IT! these remnant outposts of what life used to be, and without gentrification and the ugly soulless architecture. When buildings, neighborhoods *and* elected officials had real character and integrity. Do not be bought. This is a horrific idea, please ensure the next generation gets to enjoy the fun and charm and particular beauty of this neighborhood. Please do not push people out or force people to move, please please say no to this casino. Protect the spirit and life of the neighborhood! I beg you.

			We do not need a casino in Coney Island, specifically we do not need one that will be built where Brooklyn history thrives. Coney Island is a beacon of hope in a Brooklyn that is already diseased with gentrification. Please keep Coney the way it is and do not give into a billionaires disgusting dream of dismantling the heart of Brooklyn for personal gains.

			The effort to replace a historical area with a billionaires pet project is frankly disgusting. Coney Island has been cherished in the memory of New Yorkers for centuries and continues to bring joy every day. Tearing it down and taking it away from New Yorkers to usher in a class of wealthy elite will permanently destroy the community. STOP.

			<p>Hello to whom it may concern,</p> <p>I am writing on behalf of myself and my fellow neighbors who want to save Coney Island from corporate greed and casino development.</p> <p>I have been coming to coney island for nearly 20 years, and for those who know me, know that this place is more than a beach or a cheap thrill. This place is my safe haven and happy place. Coney Island is the epitome of what names New York, NY... any day of the week, you can come here and be with so many people from all walks of life, from many parts of the world, speaking different languages, and we are all congregating over our shared love of reverie, our love for the uniqueness of nyc, and the vastness of the beautiful sea. It is a bright spot of innocence, strangeness, a place to move fast while slowing down, and pure delight. Coney has such a rich history of providing joy for a hundred years to New Yorkers and the thought of its demise would be an unmeasurable loss to not only New Yorkers, but to everyone around the world.</p> <p>The world doesn't need another soulless casino, and to disrupt the fabric of such a tight knit community. It needs to value the history it has and protect it.</p> <p>Do the right thing,</p>

			Please listen to the community — a casino is NOT what will be sustainable and healthy for the longevity of Coney Island. Why can't the money go into existing businesses, and building true community spaces in empty lots that match the historic visuals of the neighborhood and don't involve gambling or the mass destruction of a historic line of vision? Say NO to a casino. You will be on the right side of New York City history on this matter.

			This project while potentially providing some jobs for Coney Island residents will ultimately provide a burden for the neighborhood, city, and local residents through an increase of neighborhood crime in the form of illicit drugs, prostitution, and theft, as well as neighborhood degradation which HAS occurred in other casino cities like Las Vegas, Atlantic City, and Springfield, Mass. Additionally, access to gambling for those addicted to gambling will be increased in Coney Island. To do this to a neighborhood which has FINALLY begun to emerge from its decades-long plight, is unconscionable...and despicable on the part of its developers and, especially, its supporting members of NYC government. There are other ways to generate income and provide jobs in this area. To take the quick and easy route which will ultimately plunge Coney Island back into its former horrid state, rather than take the responsible, uplifting route should be blocked, and supporting politicians condemned.

			Coney Island is an affordable site for families to use the beach, have fun in the summer sun, and gather in community. It is home to cultural events - like the Mermaid Parade - that showcase the creativity and ingenuity of New Yorkers. It is home to small local businesses that could not compete with a casino. And the amusement park is a historical site that must be preserved.

			<p>Please don't take the only great family amusement park we have in Brooklyn. It's an iconic place in NYC. Families look forward to going there for fun and making memories. People come from all over to embrace it. If you allow the Casino, the only memories will be of losing money and rides will be taken away. Example: New Jersey Casino and Steel Pier is New Jersey's icon. Again, please don't take away Brooklyn's icon. We need laughter and amusement not gambling problems. I understand changes are made everyday/everywhere. Some are for the best and some are for the worst. We already have a Casino in Queens. We don't need multiple Casinos in multiple Boroughs. Let the beauty of Coney Island live on as an amusement park the way it is. If billionaires want to build they can seek to build places for the whole family to enjoy somewhere else. Kids don't gamble, not all adults gamble. Don't take the Sunshine away from Coney Island we have enough shade on our residential streets. I will continue to pray that you make the right decision to leave Coney Island as is. Thank you for your time. SINCERELY, MARIA CRUZ</p>

			<p>It is apparent that the only beneficiaries of this development are wealthy property developers and out-of-towners who want a local miniature Atlantic City. Coney Island is one of the last places in Brooklyn that is both close to the subway and (relatively) affordable. If this development goes through, it will continue to force out current residents who can no longer afford their rent.</p>
			<p>Gentrification and attempts to "improve" low-income neighborhoods does NOT benefit the majority of New Yorkers. As a result, NYC's shelter system is already overflowing with folks who can't afford soaring housing prices. We all know NYC's "affordable" housing is hardly affordable and programs like 421-a do not benefit blue-collar workers. This proposed casino is just another attempt to create additional wealth for developers, veiled as a benefit to the neighborhood. We are not fooled.</p>

Childhood memories & the core piece of Brooklyn's identity was forged here over many decades. Sacrificing this so that a core group of investors can make a few basis of profits, is unwise. Please reconsider

6/7/2025 12:38:07	Patricia friday	11207	A casino does not belong in Coney Island. If they put it in Coney Island it's going to take away family-fun place and replace it with a nightlife place and it doesn't fit that playful, nostalgic Coney Island feel, it can hurt the community by increased crime, rising rents, traffic and congressional, and replacing jobs that serve the neighborhood. Plus Luna Park is a historic landmark it's been there for years every since the 1910's or something so to destroy something that is culturally important will be bad

			<p>Coney Island is a generationaly special and magical place for myself and my children and I know this to be true for countless other native and non-native New Yorker families. A casino would irreparably damage and alter the culture of this uniquely special place, and the ethics of placing a gambling venue in a poor neighborhood are highly questionable and could significantly exacerbate crime levels.</p>

			I am a Brooklyn native and lifelong resident of Brooklyn. The happiest memories of my childhood were in Coney Island, along with the happiest memories of my adulthood alike. I am not the only one who is distraught by such an idea. Coney Island is a landmark, a New York institution. Thinking about the culture and history that lies within Coney Island in the light of the sort of erasure that heartless, soulless developers don't care about ignites a fire deep within my heart. I was shocked to hear that this development is even a possibility. I am devastated writing this. I beg you not to do this. I want to show my children one of the last remaining relics of the Brooklyn I grew up with.

			New Yorkers have enough buildings to waste our lives in - what makes a casino any different? We need Coney Island the way it is - ridiculous and legendary, a thing of dreams and imagination. What part of the human imagination does the casino capture? What does it inspire? Other cities have casinos, only New York has Coney Island.

It is my 7 year old's favorite place on earth. To put a casino there would be to utterly destroy what Coney Island has represented for decades dating back to my grandparents in the '30s and '40s. 			This would absolutely decimate the neighborhood on several fronts from making it harder for small businesses operations to disenfranchising the locals and their communities in Coney Island. The casino plans being obnoxiously big and stealing air space above other buildings that have been in the area longer is appalling. As a fellow Brooklynite I disapprove of having a casino be built near the boardwalk or in Coney Island area.

			I am strongly opposed to bringing a casino to Coney Island. I moved to NYC from Baltimore where they placed a casino downtown in 2014. In a decade, the casino in Baltimore has had no positive impact on the community, and in fact crime rates in Baltimore continue to rise with the Baltimore police sending extra details to the casino, a considerable and unnecessary cost to the city. Please don't subject Coney Island to the same fate. Coney Island is a historic and beloved landmark for New Yorkers across the boroughs and it would kill the spirit of the area and make things worse to bring a casino to this vibrant community.

			I find it upsetting how this'll possibly get passed, especially with how the economy's going and how Brooklyn and NY as a whole have big issues with homelessness and poverty. Building a casino at the height of all this, especially on top of its rich history, is quite cruel and a dangerous game for the middle and lower classes. People go here to have a break in their daily lives and to enjoy and appreciate the beautiful vintage history of this part of Brooklyn and to just rip it all away for something that is not only unnecessary but harmful to both residents of NYC and its visitors is mind-boggling. Again, this is not needed, and it's best to leave it as is. It is something people have cherished for decades and will continue to appreciate. Luna Park is something many people go to for a reason, and it's best not to go against citizens' best interests, as I don't see how many people would agree with this. I strongly oppose this and I hope you'll make the right decision to keep it. Thank you.

			Having worked in Coney Island for almost 10 years, I can assure you that we do not need this type of attraction in this area. Coney Island has changed over the years for the better and has become safer and cleaner. This will certainly take this all back and ruin the appeal and charm of coney island

The area has improved much over recent history, yet this proposal would set the area back, disrupting the historical, carnivalesque spirit of Coney Island. This is already a destination spot, for the rides, for the flagship Nathan's stand, and the historic character of an amusement park. Transforming this into what amounts to a luxury resort is a disservice to the legacy of the Coney Island boardwalk.

			Coney Island's historic neighborhood has deeply impacted my life in New York. I love the dear friends who are longtime residents of the neighborhood. Seeing sideshows and burlesque by the beach, kept alive for generations by incredible artists, is a cultural resource that cannot be replaced. Coney Island is of great value to New York, and this casino project will hurt the area. The vibrant history kept alive by Coney's historic sites and institutions like the Coney Island USA sideshow , the theme parks, and the Mermaid Parade cannot be replaced with cash grab building projects. They will be damaged and forced out of the neighborhood by this soulless project. The effects of this casino project to communities, businesses and the arts in the neighborhood will be horrible, and this project is not wanted!

Do you think New Yorkers can afford going to the casino when you guys are charging thousands of dollars in rent and we all have back up rent, we don't even get paid enough all these fees you guys are introducing and you think we're gonna wanna pay to go into a casino. You guys aren't even thinking you guys are trying to have an outcome where you think you're gonna make money but you're gonna end up clashing and it's gonna be horrible. Nobody even asked for a damn casino. That's what Atlantic City is for. That's what makes it fun. Nobody wants to be in a damn casino and I hope that shit gets Robbed no for real. I really do hope it gets shot up, I hope everything the worst possible thing that could happen can happen in there. You guys can't even keep a public space safe so what the fuck makes you think we're gonna think a casino in Brooklyn is going to be safe.

			Coney Island has been and is a quintessential part of life for not only the residents in Brooklyn but all over the city- to even consider replacing it shows: 1. a complete lack of regard for the people that live here, 2. Greed since there's already a casino in New York, 3. A lack of research and/or care for the potential consequences this would bring

			This proposal is a egregious attempt to take a beautiful, historic part of Brooklyn away from the people of Brooklyn for some rich man's playground. This is outrageous, especially when there is plenty of inactive land where such a project could be proposed. This casino would destroy livelihoods, neighborhoods, and small businesses, the proposal is SHAMEFUL.

Coney Island, on the other hand, brings joy to not only NYers but to people from around the world.</p> <p>I think Coney Island is one of the last unique places in America like this and makes you feel like your in another place/time just for a everytime you visit. if we sell it off to a developer it will look just like any other place in the world today, and would be devastating.</p> <p>I'm not saying not to let them build a casino, I have nothing against the developer of their casino, just somewhere else the area. There's lot of places they could build just not on Coney Island, it's far too precious.</p>

			Coney Island as it exists has been a touchstone for NYC Families like my own. The culture and community from the salsa on the boardwalk to the watching the sunset before the fireworks has been such a kind reminder of the beauty of NYC. It would be a shame to tarnish it with greed and exploitation of the city. There is literally no need for a casino in Coney Island.

			This is a terrible and unsafe idea for a multitude of reasons. First, there is already an ongoing addiction crisis in New York City. Building a casino—especially in one of the most easily accessible locations in Brooklyn; there are at least 10 MTA bus + subway lines in the area—would further the crisis by introducing the population to gambling. More gateways into addiction equates to more homeless individuals, which is a crisis in itself. Furthermore, Coney Island (especially Luna Park) is frequented by minors, who—from an ethical and moral perspective—should not be exposed to casinos at such a young age. Children are highly impressionable, and a building with neon lights and music could leave a long-lasting impact on their risk of developing a gambling addiction. Finally, adding a casino and a large hotel would significantly increase noise pollution in the area, which is already rather high due to the nearby train station, beach, amusement park, and boardwalk. Noise pollution has been proven to cause severe damage to the ear canal, leading to hearing loss earlier in life and general lack of spatial awareness. Ultimately, Coney Island is a location of childhood memories and tranquility for millions. Transforming it into a casino hub is incredibly unsafe and unnecessary, and there is a nearby alternative (Atlantic City) for those who are truly desperate or interested.

			Coney Island is a unique and beloved cultural resource as well as a place many of us live and work in every day. The casino project threatens both our cultural heritage and the functionality of this community and the many small businesses it supports. I strongly support revitalization of this area and I am not opposed to casinos, but this development and its specific plans to take over a huge swathe of public streets and public beach access, destroy amusements and block historic views of the beach and Wonder Wheel could not be a worse fit for this neighborhood. Coney Island's draw today is its small businesses, public atmosphere and unique character/history, and bulldozing and privatizing those things will only devalue it as a destination and doom it (and the casino project) long-term. I strongly believe this is the wrong course of action and I fear it will permanently damage and blight the area if it is allowed to move forward. There is development that is forward-thinking and right-sized for Coney Island, and this project is NOT it.

			As a proud New Yorker and southern Brooklyn resident, my heart sank when I saw this architectural rendering. Coney Island is one of the last places in NYC that is truly for everyone, from all walks of life, backgrounds, and economic levels, to come together and enjoy our city. Not to mention the historical significance of the landmarks, which should be equally accessible to all. Please, please don't let greed and money get in the way of that. I have photos of my grandparents enjoying Coney Island in the 1920s, and I treasure the fact that I can walk in their footsteps. (And spend my money in the local businesses, and bring friends to do the same!) We need to stop this.

			Coney Island needs more amusement space and access to the beach, not less. Destroying what is special about Coney Island, what makes it a beloved destination, and making it less available to the public is shortsighted and silly. 			Joseph Bonsignore : To the community Board , Senators, Congressmen, City planners, Mayor, and Governor. Coney Island, the Jewel of the Country and the playground of the world that on any given day summer fall or winter has been a tourist destination of generations. Having been born under the LA Thompson with my grandfather owning much of the rides have witnessed the destination of privately individual investments that drew hundreds of thousands and some times in the millions of families to the Beach and Amusement throughout its era. It has been greed of developers and poor vision in city planning. I state No Casino or High Rise structures be placed in what was protected as one of the Federal Zones Amusement Area. Thor is one of those Billionaire developers that couldn't care less for the most valuable real estate in the country. It would be advantageous for smaller investors to build permanent rides, store concessions, and needs of the community to uphold the legacy of generations gone by . Please consider the future of the Jewel passed down and its potential. The Question stands a casino and development could never compete with several thousand attendees to the crowded beaches, Rides, Amusements, Restaurants, and concession drawing hundreds of thousands any given day. Don't let Thor or other wealthy corporations become the landlord making millions on the building in development selling to the city thus abandoning it, making more for themselves and not the community. No to de-maping or permits to develop. No to Casino or High Rise.

			Casinos generally end up derelict. Look at how abandoned Atlantic City has become over the years. They are a cancer on the surrounding neighborhoods and the locals, not boosting the local economy, but draining it and the wallets of the hardworking people in the area, NYC already has a casino in Queens less than an hour away, why would a competing one taking away what is essentially the ONLY working class public beach in NYC away from the tax paying citizens?

The Coney Island Museum and Sideshows by The Seashore are both housed in the same building, which is conveniently close to the beach. I want to be able to bring them back when they are older, and one day my kids too. I can't imagine riding the Q to the end of the line and not seeing all of Coney Island laid out in front of me... It's sugar, Nathan's, the wonder wheel, all the little shops along the street that entice you to come in as you're walking down to the boardwalk. 			This is disappointing and disgusting to hear a rich person plans to tear down half of Coney Island to put in a Casino that overshadows the park. Coney Island is a thriving community with so many cultures coming together and enjoying the beach and the rides that are offered. It is known to be a historical monument because of the legacy that is attached to the amusement park. I grew up going to Coney Island and riding on the rides and enjoying the activities that are there. By getting rid of Coney Island amusement park, you are disgracing the culture and the community build without recognizing the damages you will cause. I, as part of the community of South Brooklyn, and the millions of people who go here each year, will not support this and encourage the people who vote on whether this happens to say no.

			There are so many other things that money and funding can be used for in order to actually enrich the neighborhood and the youth that live there rather than open doors to gambling, alcohol use, crime and possible thefts. The surrounding neighborhoods of casinos in other places like Atlantic City are a vision of what Coney Island should never become! Coney Island is a landmark area with generations of memories on the boardwalk, in the amusement park and on the beach that would be severely altered with a casino there. Coney Island can use so many other things that can actually help the members of the community and offer jobs to them instead of a place like a casino. There's also things that can be built that will not obstruct the beautiful beach views and livelihood that is able to be seen from passing views on the train and from the belt parkway, things that do not need an eyesore of a casino or the problems that they bring.

Building massive casino buildings will turn a substantial chunk of it into a dangerous deserted wasteland until the construction is completed. Walk down the blocks that have giant condo buildings going in right now. It's frightening. I also don't believe a casino complex will bring peace and safety to the neighborhood.

			Casinos are faceless behemoths preying on low-income communities. And not only that, given this proposal's location, it will bring crime, traffic, garbage, and pollution to the boardwalk. Most importantly, it will stifle the very elements of Coney Island that make it unique and special. Keep this casino out of Coney Island, and preserve its spirit.

			I have raised my daughter in Brooklyn. Going to visit Coney Island and the rides at Luna Park has been a regular event, and a very special part of summer. The mermaid parade, getting ice cream and hot dogs, and enjoying the family-friendly atmosphere on the boardwalk is an important part of New York culture, and Brooklyn-specific culture. Tearing down Luna Park and replacing it with a casino would destroy this culture, and leave in its wake a seedy mess of gamblers, drunks, criminals and prostitutes.

			<p>Coney Island has always been a place full of joy, nostalgia, and incredible memories for so many people, including me. From the rides at Luna Park to walking along the boardwalk with an ice cream in hand, it's a spot that feels like home, even if you're just visiting for the day. Proposing to build a casino here threatens everything that makes Coney Island special. Instead of enhancing the area, it would bring in problems like increased traffic, noise, pollution, and crime, while taking away the heart of what makes Coney Island such a beloved destination.</p> <p>One of the things I love most about Coney Island is how accessible it is to everyone. Families come to enjoy the rides, play games, and relax on the beach. It's a space where kids can laugh and run freely, and adults can remember what it feels like to let loose and have fun. A casino would replace large sections of this amusement area and block access to the beach and boardwalk. It would turn a place meant for connection and fun into one that feels exclusive and cold, prioritizing profits over the people who've made Coney Island what it is today.</p> <p>Building a casino would also hurt the community. Coney Island isn't just a tourist spot; it's home to people and small businesses that have been there for decades. Introducing a casino would push out local shops and restaurants, replacing them with big corporations that don't have the same charm or history. Many residents would be forced to leave because of rising rents and increased living costs. It's heartbreaking to think of the tight-knit, diverse community that has always been part of Coney Island being pushed aside for a project that doesn't even benefit them.</p> <p>What makes Coney Island magical are the memories people have made there. The laughter from the Cyclone, the smell of hot dogs from Nathan's, and the sound of waves hitting the shore—all of these moments create a unique atmosphere that's impossible to recreate. If a casino is built, it will overshadow everything that makes Coney Island special, replacing joy with flashing lights and the constant ding of slot machines. Those memories will become just that—memories, instead of experiences people can continue to create.</p> <p>Coney Island has survived for so long because of its charm and its ability to bring people together. A casino doesn't fit here. It would tear apart the community, damage the environment, and erase the very thing that makes this place special: its heart. Instead of building a casino, we should be focused on preserving and improving what's already there. Coney Island is about family, fun, and making memories—not gambling and profit. Let's keep it that way.</p>

The nearest amusement park close to the size of Coney Island would require city residents to travel to New Jersey. Why eliminate access to entertainment facilities to accommodate the gambling addictions of city residents. The city doesn't need 2 casinos within 20 minutes from each other.

			<p>Have you ever been to ATLANTIC CITY? The beach is empty, the place is a run down pit. What makes you think here will be any different? It won't be.</p> <p>The city already was run for tens of millions by Thor equities in a move that put tons of small business owners out of shop and handed all the rides and concessions to multi national corporation who turned family-run livelihoods into minimum wage slave jobs.</p> <p>I sent all my out of town guests to Coney Island to marvel at the most diverse beach in the world, eat at Nathan's, and complete a whole scavenger hunt. It's a beloved place for families to escape the heat, with very calm water, highly buoyant salt water excellent for young kids to safely enjoy. And you want to bring in what? A dimly lit cesspool of vice to draw people in from the beach and cast a bunch of down-on-luckers to stumble around amongst kids trying to build sand castles?</p> <p>did you think this through at all?</p>

			What modern-day Robert Moses came up with this plan. Replacing America's Playground with a massive, fully indoor gambling den and convention center is unconscionable. As the real Brooklyn continues to be eroded by commercial interests tailored toward gentrifying transplants, allowing a billionaire developer to dismantle a historic, beloved, and weird/wacky/wonderful community space this way is beyond shameful. 			Coney Island needs more family friendly entertainment, all year indoor arcades, in door water park, a in door car racing track, maybe updating the signs to give the look of the present, past and future, I don't think casinos should be in coney it would bring a darker side to Coney Island that's not needed, I been going to Coney Island since I was a little boy, I want my daughter to enjoy the same Coney Island that i enjoyed, seeing the wonder wheel, parachute jump, the great cyclone, on that turn on the F Train... that would be gone. So let the community, the locals, have a strong say so in this, If they're against it I know millions of other New Yorkers are against it also.

12/20/2024 18:33:17	Hope Ardizzone	11221	Coney Island is the people's playground. Do not ruin another cultural institution in NYC. Coney Island is a beautiful space for all ages. Making it a casino would limit the space to just be for adults. Gambling is a serious addiction. It is a risk to the financial stability of residents to put a casino there.
			 Not to mention this is a beloved amusement park that has been here for hundreds of years. Constructing a casino would mean demolishing historical landmarks in the name of profit. This also means destroying the current oddball performing arts scene of sideshow and the Mermaid Parade. Don't let corporate greed get in the way of a beautiful historic amusement park.

It is a representation of how far native New Yorkers have come, starting from nothing and being able to create a beautiful, welcoming, family friendly community for millions of people. And I don't believe it is right that just because transplants cannot accommodate to our customs. We have to change. They should be the ones to change their points of views not us.

			Coney Island is an iconic and historic area of Brooklyn that preserves unique snapshots of the city from the 1920s, 1960s, and 2000s in a beautiful blend that is only capable in places like New York. Erecting a modern style casino at the extent of the cultural heritage that has been building in this area for generations.
			Not only am I a lifelong New Yorker, but so is my mother. She didn't take me to Coney Island as a kid because she thought it was merely a shadow of what it used to be. It was only when I was an adult that I visited for the first time and fell in love with the area. I took my mom back recently and she told me it resembles the Coney Island she knew growing up. I have no doubt that beauty will be eradicated by this ostentatious and profit-driven development.
			Building this casino will destroy what makes Brooklyn and all of New York the best city in the world. By allowing it to continue you are only facilitating the death of this great city.

			Constructing a casino on Coney Island would cut off the public's access to a historic and much-loved site that provides New Yorkers with a resource that collectively we already have so little of – fresh air, open space, and access to the ocean that surrounds NYC. Coney Island is an incredibly democratic space – people from all walks of life and all boroughs gather there to have fun and enjoy an iconic piece of NYC. Local businesses would suffer with a casino in place, and it would fundamentally change the surrounding neighborhoods much to their detriment. Please keep Coney Island as a public good, and say NO to the casino.

			A Casino would destroy the memories that people made in Coney Island. Many why grew up on NY have known Coney Island since at a young age, and has been kid friendly for years and a casino would defeat that purpose. Please cancel the plan for the casino and save Coney Island.

			I refuse to believe any politician who says they are looking out for the community/residents of NYC while at the same time voting to let a billionaire destroy Coney Island. This plan would make Coney Island a place where a few people will get rich and something beloved gets taken from working people. Don't turn Coney Island into Vegas. Don't destroy Coney Island with car pollution and garbage (not to mention the safety concerns re: emergency vehicles being cut off from access to the beach!). Don't force out artists and small business owners. Don't take away another affordable good thing (one of the very few that remain!) from people who are already struggling. Can't wait to NEVER AGAIN vote for any politician who supports the proposed casino.

The shore is also a fragile ecosystem and the whole area is in a flood zone that will be inundated more and more often in the near future.

			The proposed casino plan will block the view and access to the amusement area and the ocean beach. Free and easy access to the ocean beach is an essential part of living in New York City - Coney Island is open for everyone to enjoy. Do not allow casino developers to ruin the Peoples' Playground with empty promises of union jobs that will not even be accessible to the local inhabitants who truly need full employment.

			Coney Island has a rich artistic and immigrant culture, one of the few remaining neighborhoods left with authentic nyc character. With climate change and wealth disparity at the literal highest levels in history, the last thing this city needs, especially near our beautiful ocean, is a mega energy sucking, garbage producing, culture ruining money pit for people to fall in. Build it in a wealthy neighborhood mall like Williamsburg

1/15/2025 11:49:41	Erika Tullberg	11216	Coney Island is one of New York City's unique treasures! Visitors to the city come there to see the area's history and quirkiness, and locals value affordable access to the boardwalk, beach and park rides their parents, grandparents and great-grandparent also enjoyed. Why would we replace these things with a cookie-cutter casino and development that is designed to keep people inside and take their money as efficiently as possible?

			The people that make New York City authentically what it is would be put at risk by this and majority of New Yorkers are already struggling with finances and to feel safe in their own neighborhoods as is!!! Due to gentrification, native New Yorkers are already fighting hard enough to afford to stay in the homes that they have been in for years, this would be overkill. This would do more harm to the community of Coney Island than anything else. That boardwalk is for friends and families to come together, for annual iconic NYC events to be hosted, for the legendary amusement park to be enjoyed. Could you imagine all the noise, crime, homeless, addicts that would grow in that area due to a casino?? Something this city absolutely does NOT need. We already have one not so far away and we should keep it that way. Coming from a native New Yorker this city is in need of things that actually help the city AND ITS PEOPLE. Not put profit greed over the importance of maintaining a community staple. For ONCE, let's think about it that way. I can guarantee most residents would agree and if this does not make you at least try to reconsider then you'll be part of the problems that keep growing here that the mayor and congress swear they are "fixing"

			coney Island is one of the most special places in the world, to see it grow over the years has been the joy of my life. But it's growth has always been proportionate to the health and safety of its residents. Alongside them and empowering them. A casino would do the opposite and force people into a downward spiral of poverty and greed. no casino on Coney Island.

			Coney Island is a historical place...it has already shrunken ENOUGH. Leave all the big casinos in Atlantic City...this community (who actually goes to Coney and LIVES here) cherishes this place...it is sacred to so many small businesses, artists, performers, and so much more. There isn't any place like it...why would We want to make it a commercial nightmare...have some compassion for the history that lies here...

It's garbage, it attracts garbage people, and it destroys everything around it. Thor Equities and Joe Sitt have done enough damage and have already cost the city millions over Coney Island. You need to shut this down once and for all.</p> <p>This is a make-or-break issue for me. 			As someone who has grown up going to Luna Park, this is absolutely not okay. Coney Island is already a place where families can go. The neighborhood over the years have gotten worse and worse. I would know, I am still very close to Coney Island and go there once in a while. A casino would only bring in more people who are drunk, drunk driving, gamblers. Overall, not a family area

			The casino business model runs fully counter to the open communal and sensory experience that makes Coney Island a unique and preserved environment. Casinos sequester their clientele in windowless boxes and they will deprive small local businesses and attractions from foot traffic. The people of NYC and residents of Brooklyn deserve access to our vital and precious waterfront and our skyline should not be obstructed with towers. Do not hand our coastline over to developers who want to profit without providing any benefit to residents. If our local construction unions need opportunities consider the many critical community assets that need repair and refurbishment like our crumbling schools and libraries. And consider the lessons of failed casino projects in Atlantic City that came before.

People lose their lives to gambling every day, crime will go up incredibly higher than it already is . If you actually care about new yorkers and its residents, especially native ones, you'd be against promoting and continuing with this development. I've personally watched too many loved ones lose their hard earned money over and over again in hopes for a better future for themselves, creating a sick mental illness where they think that one day they will win big, when obviously, their chances are extremely slim and is orchestrated to profit developers and casino managers/owners. It targets the most vulnerable, and if you want to profit off of these most vulnerable people in exchange for their money, it's nothing but greed. If New York claims to care so much about the rising mental health issues and crime, you'd be against this proposal. Do not sacrifice a historical landmark and the memories of hundreds of thousands if not millions native new yorkers for a tax cut for the most wealthy. Children do not need to see their loved ones fall into addiction either. There are so many areas where this can be developed, choosing this location is absolutely selfish. We do not need tourist traffic in every corner of new york, some places need to be preserved and nurtured. Use that money to help coney island as it is become better without needless additions. Please dont be selfish.

In 2025 how can it be ok with anyone to block access from one of NYC's few outdoor spaces, to make the beach, the ocean, less accessible to average people? Notice that the casino's renderings never show people dressed in beach attire walking on their sidewalks. Clearly the masses are meant to go around, not through, this area should they take the train to the beach—quite an effective deterrent. We have seen this all before: The marginalization of the masses, especially Black and Brown folks, to make space for the wealthy to live and play. The broken promises. Look at Barclays Center, over a decade of lies, and an area increasing in wealth and decreasing in the number of Black people (41.8 percent of the population in 2000 to 20.3 percent in 2015-2019). Fresh air, mingling of diverse groups of people sharing nature and play, replaced by increased health problems, increased gambling addiction and another coo for the "haves" at the expense of the "have nots." Robert Moses would approve.</p>

This project will damn all local businesses to either closure, desecrate historic and iconic locations, and on a more personal level create significant apprehension to visit Coney Island.

			<p>The Coney Island that exists now and I had growing up felt safe and family-friendly. And as the beaches of Coney Island are slowly getting cleaner and cleaner through neighborhood initiatives, there's hope that New York can have its own clean beach the way other places on the coast have. I went to Coney Island a lot growing up as it was a family-friendly classic New York City kid place to go. And now as an adult, I'm rediscovering the joy of it as initiatives like CIBBOWS cleans up the beaches. This new proposed Casino will undo all of that work to keep the beaches and boardwalk clean, while also taking away the nostalgic joy that makes Coney Island special.</p>

			As a lifelong resident of Brooklyn, destroying Coney Island would destroy a beloved part of our borough filled with so many warm memories and important history. The idea of turning so much of Coney Island into a casino isn't just bad for our community but for our city. Casinos are hubs of gambling and excessive alcohol consumption that can bring even more crime to the neighborhood.

			Growing up in Brighton Beach & my beloved Coney Island, I find the Casino proposal totally appalling & disastrous! I have seen Coney Island go through many changes over the years, through the good years, its decline & then revival again. A Casino, hotel & surrounding buildings will not help in any way, it will destroy the landscape of Coney Island, the boardwalk & beach & create impossible congestion & bring crime & drugs to the area.

			Coney Island is a monumental landmark to not only people in New York but also tourists. Coney Island brings in over 5 million visitors yearly (NYC.Gov). The park brought in \$8.36 million on revenue of about \$56.85 million in 2023 (North Sydney Sun). It is the only amusement park that low-income to moderate-income families can enjoy with their children. It would put a stain on New York City's Government and all its officials that voted in favor of removing this attraction and replacing it with a casino. STAND WITH NEW YORK CITY RESIDENTS AND NOT DEVELOPERS!!!!!!

The children in the area and those who are growing up don't deserve to grow up on a toxic environment where theres grown men and women who are alcoholics, gamblers. And chain smokers to be the norm they see when outside. The crime Of robberies and shootings will only continue to increase, with that being said. EMS will be more exhausted then they already are, placing a higher strain on the thin straw of ems already, building this casino is only a money plot , you don't actually care about the people in the area or the first responders that work tirelessly to keep the city safe, you want to exhaust them until there is nothing left of them; and continue to take away places for children to be children, it's disgusting how little thought went into this. The blood of all the crime waves and the first responders who make the choice to end their life will be on the administration's hands. It's such a shame

			Building a casino in Coney Island could bring problems like increased traffic (we already have ENOUGH traffic plus ridiculous fees, tolls hence MTA congestion pricing), noise, and more crime, while also increasing the risks of gambling addiction and harming local businesses. It WILL raise rents, push out longtime residents, and alter the area's unique history and culture. The casino could strain infrastructure and harm the environment, especially in this flood-prone area. Many locals oppose the idea due to these concerns and the potential negative impact on the community's family-friendly vibe. This development would completely change Coney Island as we know it, and neither Coney Island, Brooklyn, nor NYC needs another casino. Sign the petition or contact your local city council, district representative, Brooklyn Borough President Antonio Reynoso OR our useless mayor office.

			<p>The casino would bring more crime, totally destroy the character of Coney Island, where children go for rides; it would increase traffic, crowd trains, increase drug sales, plus gambling is against many religious principles. It would teach people to gamble rather than work and develop spiritually and as human beings and build communities. It may bring diseases, too, such as covid, where there is a big rotation of people from different localities viruses prevail. It would be a total disaster for the community that has just shown slow signs of improvement. It may also endanger the welfare of the children, if their parents gamble or gambling strangers roam around. Please ban any casinos in Coney Island. Concerned resident.</p>

			<p>The casino is a dangerous proposal!</p>
			<p>We live across the street from Asser Levy park which leads into Coney Island and the amusement area. While there were concerts in the park, the roadway was often impassable and that was before the Cyclones ballpark.</p>
			<p>We would watch fire trucks, ambulances and police cars just at a standstill. There was no way for emergency vehicles to get into the area where the casino is planned to go.</p>
			<p>So, there is the Cyclones ballpark, the amusement area itself, people who live in Coney Island and thousands of visitors to the beach and boardwalk.</p>
			<p>And...someone gets sick and needs to go to the hospital. And...the ambulance is at a standstill 1/2 a mile away. And what if there is a fire. What will the casino say when the firetrucks can't budge because there is NO place for cars to move out of the way, not even the sidewalks already crushing with visitors.</p>
			<p>These are not just words. You have to really imagine how horrific this can be!! There simply is no way to get through!! Logistically, it's a matter of not enough room.</p>

			As someone who has grown up in this southern-most part of Brooklyn, Coney Island, whether the beach, boardwalk, or amusement park, has been a constant part of my childhood and now adult life. It's a place full of life, be it the people enjoying a fun day out or the wildlife by the beach or in the aquarium nearby. It's a place for people to go and leave their worries behind to enjoy themselves on the beach or with amusement park games and rides. It's a place where you can be surrounded by people but also be at peace within. It's the place, the landmark, I refer to when people not from NYC ask me where I live. And it disheartens me to think to a future where all this will disappear once a casino is built.
			Building a casino on Coney Island will not benefit the local community and will further increase crime, pollution, traffic, and noise amongst other things that bring harm to the neighborhood. Coney Island is known around the world for its amusement park by the beach and boardwalk. It is a space unlike any other in New York City, full of history and joyful memories for people across all five boroughs and beyond. To build a casino in this well-beloved space is to destroy the culture and the charm that makes this place unique and welcoming to both locals and tourists alike. Coney Island has been featured in many films, from Spiderman to Men in Black 3, and lives in the hearts of many as an iconic place in NYC existing outside of Manhattan Island.
			It will not benefit anyone except the pockets of the rich to have this casino built; and will only create more problems and make many necessities harder to access (i.e. smooth transit, roadway access with minimal traffic for emergency services, a clean and healthy environment with minimal pollution and noise, a family-friendly space). The standards of living in this area will decrease with the casino as local businesses will be driven out of business along with the residents who have lived here for generations.

Tearing down historical areas, cutting off access to the beach for emergency vehicles and shuttering business that have been keeping the area afloat is an awful idea. Beyond that the eye sore of a building mucking up what is one of the most recognizable skylines in south Brooklyn with this monstrosity would be a tragedy. We need money put into updating existing structures and bringing in business like a movie theater that can be utilized by the entire community. There are other places where a casino could be placed in Coney that would be less destructive. This isn't it.

			Building a casino in Coney Island could undermine the character and well-being of the community. Known for its historic boardwalk, family-friendly attractions, and vibrant local culture, Coney Island thrives on tourism rooted in nostalgia and accessibility. Introducing a casino risks shifting the area's identity toward one of high-stakes gambling, which could lead to increased crime, problem gambling, and economic displacement of long-standing residents and small businesses. Rather than revitalizing the neighborhood, a casino could deepen inequality and strain local infrastructure, threatening the very charm that makes Coney Island unique. The Coney Island amusement park has been a historic landmark for me and my family we made really great memories with friends as well building a casino will cause a decrease in the communities happiness over what has been here for many years ,the casino will just cause problems for the community.

6/9/2025 12:19:54	Nakasi Garcia	11224	Coney Island isn't just a NYC treasure - it's a real, generational community. Families have been raised here for decades. A casino threatens everything this place stands for. Just look at Atlantic City. Crime, corruption, and trafficking followed. That's not Coney Island's story. This is a family destination. Let's keep it that way.

Even if some of the more historical rides are left this is a bastardization of coney island and directly mirrors the past transformations this small neighborhood of new york has undergone. There is no reason to try to make coney island a vacation destination when it is already home to so many people and a beloved iconic institution.

			Don't gentrify the beloved coney island that has functioned as a source of community and activity's for lower working class families for generations- just so you get can some additional revenue that you then give as subsidies or tax cuts to the rich or to fund more militarized police. Preserve the vestige that coney island is

			This will bring, at best transient and temporary opportunities to outsiders. This will take away from the families and local businesses. This is a greedy proposal benefiting investors, expecting to profit off of locals. Coney Island will not benefit from gambling or the promotion of vices and addiction. There are other opportunities to invest in the community that deserve to be considered.

If traffic to Coney Island is the issue at hand, the casino will not only fill the void temporarily, but it will undoubtedly bring about negative change to the community.

			<p>As a resident of Coney Island I say no to the casino. Casinos should be constructed in large business districts that are designated for such activities or in isolated areas (like the one in Queens). Although Coney Island is known as a recreational area, a casino brings a different type of crowd that will eventually bring crime related to gambling, such as prostitution, homelessness, theft and drug use, and above all a new influx of people to the Coney Island neighborhood. We don't need those effects spilling over into our residential communities. I love where I live because it's peaceful and safe.</p> <p>Traffic will be a major concern as well as available free parking to residents of the immediate neighborhood and surrounding neighborhoods. Visitors will not want to pay the parking fees at the casino. They will try to take advantage of free parking in our communities. Many community members have raised concerns about emergency vehicles having access to those in need. We already have a traffic problem with emergency vehicles. Adding a casino to this area will be detrimental to response times.</p> <p>The space could be used in a more productive way that fits neighborhood character. An indoor recreational space for all ages to use, an indoor gaming facility for people to visit when it's too cold for the outside rides, a theater, anything but a casino.</p>

			<p>Iconic Coney Island, "America's playground" and a destination point for domestic and foreign visitors to NYC - to be destroyed by greedy developers??? Coney Island is a NEIGHBORHOOD where people live, work, raise kids, go to school. Its infrastructure is already taxed. Bringing a failed Atlantic City-like impact to our thriving family friendly amusement area, full of landmarks that make Coney Island unique, would be a horror and an irreversible error of epic proportions. I cannot take my children to an extracurricular program that's not outside of Coney Island. We don't have a recreation center which would help in more ways than one starting with our lack of lifeguards, keeping the youth out of trouble by providing them a safe space and potential jobs, our parks are in shambles..most with no sprinklers, water fountains and in need of updated equipment. Classrooms are at maximum capacity. Not to mention the influx of tourist we get that always bring violence and garbage to our community. Take the casino somewhere else. Don't ruin our community.

			a casino will harm our community, not help it. It'll destroy the very reason so many people love coming to coney island. as someone who has lived here for 24 years, i can say our crime rates have gone up so much recently and i fear the building of a casino will make it even worse.
1/11/2025 2:19:08	Shantel Mero	11224	The design is way too invasive. The cons way outweigh the pros, if there even are any. Coney Is. is generally a residential community. You're taking the iconic piece of it and stripping away and character that makes it unique. If a casino was too ugly for Manhattan then it definitely does not belong by Coney/Brighton. They should put it by Floyd Bennett Field.

1/9/2025 13:13:58	Chiann	11224	<p>As Coney Island residents, we want to see POSITIVE community development that prioritizes locally-owned or managed businesses, safe public spaces for the youth, boardwalk repairs, and more sanitation services, especially on the beach. A casino is the last thing our little community needs. Casinos enable gambling and alcohol addictions, bring in the wrong kind of "tourism" that keeps people indoors and away from local businesses, and provide little opportunity for locals to open and operate their own businesses. Additionally, while a casino could theoretically provide year-round employment, it would also trap many residents into only one employment option, as it would likely wipe out smaller businesses and discourage new ones from opening in the neighborhood.</p> <p>Joseph Sitt of Thor Equities has shown time and again that he does not care about the residents of Coney Island. He sees our neighborhood as a cash cow. Now he is trying to bribe us with a \$200M trust. How do we know that money would materialize? What if the casino isn't profitable? Casinos are on the way out with online gambling, anyway. How can we trust him or his business plans? If the casino closed, we'd be left with a monstrosity of unused and decaying space. If Joseph Sitt cared about Coney Island, he would make real investments into the community, but he just sees us as another property in his massive portfolio.</p> <p>Coney Island residents deserve to live in a beautiful, safe, clean neighborhood with locally-owned and operated businesses. We deserve to keep our community vibrant and unique, we do NOT deserve to be forced into a rundown casino wasteland like Atlantic City. Coney Island will never realize its full potential if a greedy billionaire developer is allowed to completely take over the neighborhood and forever change the lives of the thousands of people who live here for the worse.</p>

This casino will only exacerbate any problems already felt in Coney Island, while simultaneously destroying the community and soul of the neighborhood. This project is only intended to make a handful of people rich, assumedly including supposed Democrat, Robert Cornegy, at the expense of regular people.</p>

			This casino would be a disaster and horrible for the people living there. My entire family has lived in Coney Island for over 45 years, this casino will displace them and many families like them. I urge the people in power to use their conscience, this is not going to work out the way they think it will. This will only bring problems. Coney Island needs more supermarkets! Fish Markets, Restaurants, Department Stores. There are so many more ways to invest in this community and keep it alive. This will kill Coney Island.

During the winter months it is slow, but once March comes the Island gets very busy and a Casino will not be beneficial to the residents. There is no room and Surf Avenue is overcrowded with buildings, baseball stadium, and amphitheater.

			Coney Island is a residential area. It cannot be turned into a casino. It is not a park. This is an important issue that your constituents living in Brooklyn are affected by and it will influence who they vote for in coming elections. We need our representatives to protect our neighborhoods and keep them from turning into resorts and casinos. This affects all of NYC, not just Coney Island.

If the Coney were approved, it would diminish family access and center corporate greed and gambling over community building. I oppose this proposal. It poses a risk to families and local businesses. There are countless other ways to invest in Coney Island. Bringing gambling to the area and limiting beach access under the guise of adding jobs is misleading and untrue. There's no evidence to prove that money spent at the Coney would go back into the local economy. We need to invest in what exists, not tear it down.

Coney Island is magic because it is free to be there. It is accessible by subway. It is no off-limits to teens. Coney Island is a sacred third space that deserves respect. Please reconsider a proposal which will change the fabric of an organic and singular gem in our city. Spaces like Coney Island are absolutely vital to a healthy city. And it is important to me, a citizen of that city.

<p>Coney Island doesn't need to be infiltrated by the rich, when it's already, rich in NYC culture, history and so much more. Coney Island does not need to be turned into a money making machine, for those who have an obscene amount already. If this casino happens, it will only be a matter of time until all of Coney is wiped off the face of the boardwalk, by these greedy billionaires. It will deprive countless people of the completely unique joy it brings now, while destroying the lives of small business owners, their families, employees, etc. Please say a resounding no to a casino in Coney island.</p> <p>New York does not need another casino. We already have Empire City. Just because we are a rich city doesn't mean gambling that money, and it definitely doesn't mean adding another useless establishment on city grounds just to appease or lure in billionaires to further increase economic tax burdens on hard working New Yorkers. Coney Island is fun; amusement parks, beaches, parks and more. New Yorkers, adults and children included, deserve to have a landmark designation that holds such rich and diverse history among the community where they can have fun. We don't have many of those foundations left, and if we do, it's not being used or properly funded like it deserves. This city is dying, a place filled with culture and notoriety, is now being turned into a pocket shop for billionaires who couldn't name a renowned pizza spot in this city if they tried. When people come to New York to have fun, they don't want to risk their financial security playing gambling games that won't satisfy their deepest sympathies, they want to risk their lives and bodies with their families on the old ass Cyclone ride while having the biggest smile on their face—because memories last longer than money. Fill these New Yorkers pockets with sand and crumpled balls of napkins from Nathan's, not disposable dollar bills.</p>

6/11/2025 13:17:48 Amusement park at Coney Island is a beautiful example of how past meets the present. How history lives on. Millions of people from around the world (and thousands and thousands of New Yorkers amongst them) visit Coney Island to see the NYC/Brooklyn of the past as well as the present. It's an attraction on its own. NYC kids got to the place every year after they finish school to celebrate, to have fun. Casino is not New York-ian. It will destroy the vibe of the place, destroy the view, the shore line, the magic, and NYC childhood memories.	Catherine Tenorio	11218

6/11/2025 19:06:32	This is unfair. The changes should be updating Coney Island making it better for the community to still enjoy. Removing Coney Island removes all the memories we created there. Not only is the Casino taking away from the community creating memories but we know with changes like this comes with people eventually losing their homes & business. This amusement park has been frequented by my child, myself as a child and adult, my mom and grandmother, and great aunts and uncles! This park is for the NYC community, for NYC kids and tourists, and to remove this legendary landmark and replace it with a casino takes away from the kids and does absolutely nothing for the community! More violence will come to the neighborhood following a casino! This is not Atlantic City or Resorts Casino. A thought like this cannot come from a native New Yorker. I can't put into words how deeply rooted C.I. is to NY and what it means to us. Only NYers really understand how symbolic this place is to us. Do not take this from the kids and the community! It's safe for families and one of my family's favorite places to visit throughout the years. A casino will bring further pollution, encourage excessive drinking, and create an unsafe environment for the countless of people that already love Coney Island and come to NY to visit Coney Island. No one wants a casino except the folks paying for its construction and it does not benefit any part of the NY community. With a NYC shoreline, generally, sinking at an increasingly rapid rate – that a 40 story building (plus 2 X 16 story partner developments) would ever be remotely considered on a peninsula with one main point of egress (two, if you travel further eastward) is akin of planning mass homicide. 1. The ANORA Effect - Coney Island is about to be discovered by a new generation(s) of people - locals and tourists alike, worldwide. The Academy Awards, broadcast less than a week ago, saw Anora sweep major categories, winning 5 awards out of its 6 nominations:

- Best Film Editing
- Best Original Screenplay
- Best Director
- Best Actress
- Best Picture

With Coney Island and surrounding areas (e.g., Brighton Beach) as its film set, the romanticism of this iconic neighborhood, its historic rides and landmarked buildings, will inevitably spark interest and increase traffic to this beloved area:

CBS19 TV, Charlottesville, VA - Oscar fave 'Anora' a 'love letter' to eccentric beachside Brooklyn - https://www.cbs19news.com/oscar-fave-anora-a-love-letter-to-eccentric-beachside-brooklyn/article_7cc7ebf3-bebb-5b74-b47d-9f69a954bc4a.html

The Twin Geeks - Reviews: ANORA: A SENSE OF PLACE - NOVEMBER 5, 2025; HTTPS://THETWINGEEKS.COM/2024/11/05/ANORA-A-SENSE-OF-PLACE/

Ref. Paragraphs 6, 12, last "stunning Coney Island of Anora"; British Broadcasting Company (BBC) - Touring the real-life Anora in Coney Island; February 28, 2025, <https://www.bbc.com/reel/video/p0kv27sl/touring-the-real-life-anora-in-coney-island>

And many others locally (e.g., NYPost, Brooklyn Paper, New Yorker), nationally (e.g., KPV1 Pocatello ID, Hollywood Reporter) and internationally (i.e., Financial Times, Cannes Review, The Guardian).

2. Taking Coney Island streets and buildings into account - including limited points of egress to the peninsula, its private property and landmarked institutions, the casINO conundrum is essentially an eminent domain "workaround", but without bona fide and tangible economic development benefits, and all of the negatives that come from placing casinos in densely populated residential areas. Placing a casino in a residential and family-friendly recreation area is not a proper public use! The community has been making a strong, realistic and pragmatic case of the harm of such a use, such as (among other reasons) impact on children, which the casino group has been actively courting to influence, community organizations that have positive impact in the area but have been rebuffed by the casINO group (despite attestations to the contrary) and other arguments better explained by true residents (not paid ringers brought in from the outside).

The well-respected non-profit legal entity Institute for Justice gave New York an "F" rating for its failure to pass any eminent domain reform after Kelo in 2005, despite having some of the "worst laws in the nation for eminent domain abuse" (their language). Note that the term eminent domain has not been used within the Coney Island vs. casINO context - but a monkey dressed in silk is still a monkey (Cuban expression).

6/11/2025 22:22:52 A casino is gambling away the soul of coney island. Don't disrupt what no one asked for.

Coney Island should be landmarked for it's rich and incredible history! Do not turn it into a Casino that could be anywhere USA! Also the residents will be priced out!

This would be a disgrace. The nostalgia and making memories with our loved ones are priceless. We must keep Coney Island alive by any means necessary!

A casino is literally the opposite. you go in with \$200 and leave with nothing but dust. Please reconsider your plan. You're a freaking billionaire. If anything why don't you give Brooklynites \$1000 each. Help us don't destroy us. Fck is wrong with you and the other rich people in this world?!
