INVOCATION

The Invocation was delivered by Rev. Joseph E. Franco, Pastor of the Sacred Heart Parish, located at 1253 Shakespeare Avenue, Bronx, New York 10452.

Let us bow our heads and remember
that we are always in God's Holy Presence.
Heavenly Lord source of strength and hope,
we turn to you this afternoon our hearts filled with joy
to ask for your blessing on our City Council,
guide them as they legislate and fill them with strength
as they employ their many talents
to enhance the quality of life for all New Yorkers.
We thank you now for the gift
that they are not only for their courage and leadership
but especially for their willingness to serve their neighbor
and make our gathering as we near the end of a month
dedicated to suicide prevention, a time of true providence,
lead our efforts to ensure the accessibility
of mental health care and counselors
for all those in extreme isolation
and grant peace to the survivors and family members
who remain especially those of our city's first responders.
We are also mindful of our Jewish friends
and gratefully join them as they prepare to celebrate *Rosh Hashanah*,
the days of awe and repentance, a time for reconciliation,
united in our need to repent to ask for forgiveness and to learn to forgive,
make our hearts humble and contrite then dear Lord
come to us as we work for your glory and the good of our city.
It is with this hope that we offer you our hearts
increase their generosity, our minds enlighten them,
our wills quicken them, our bodies infuse them with energy,
may our shared patriotism and loyalty to the city of New York
renew our mutual commitment to make us all aware
of the hard work that must be done by each and every one,
every day to ensure tranquility in ourselves,
our families, and our community.
In your most Holy Name, we pray,
Amen.

Council Member Gibson moved to spread the Invocation in full upon the record.

Report for Int. No. 1682-A

Report of the Committee on Civil and Human Rights in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, to repeal subchapter 19 of chapter 5 of title 20, in relation to the prohibition of conversion therapy services.

The Committee on Civil and Human Rights, to which the annexed proposed amended local law was referred on September 12, 2019 (Minutes, page 2855), respectfully

REPORTS:

I. INTRODUCTION

On September 24, 2019, the Committee on Civil and Human Rights, chaired by Council Member Mathieu Eugene, will hold a vote on Proposed Introductory Bill Number 1682-A (Int. 1682-A), in relation to the prohibition of conversion therapy services.

II. BACKGROUND

Enacted on December 31st, 2017, Local Law 22 of 2018 banned conversion therapy services offered for a fee in New York City. Conversion therapy, also known as “reparative therapy,” “Ex-Gay therapy,” or “Sexual Orientation Change Efforts,” is a set of practices intending to change a person’s sexuality or gender identity to fit heterosexual or cisgender standards and expectations.¹ In 2009, the American Psychological Association (APA) conducted a comprehensive study on these practices and concluded that they were not scientifically supported and that, in fact, “valid research indicate[s] that it is unlikely that individuals will be able to reduce same-sex attractions or increase other-sex attractions through [conversion therapy].”²

After New York City banned the practice, the Alliance Defending Freedom, a group based in Arizona, filed a lawsuit challenging the law on constitutional freedom of speech grounds. Concerned the lawsuit could set problematic legal precedents if the ban was struck down by the courts, City Council Speaker Corey Johnson agreed to introduce a bill to repeal the law.

III. BILL ANALYSIS

Section one of the bill repeals Subchapter 19 of Chapter 5 of Title 20 of the Administrative Code. The bill would take effect immediately and retroactively to September 12, 2019 after it becomes law.

Report of the Committee on Environmental Protection in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to installing utility-scale energy storage systems on city buildings and conducting a feasibility study on the installation of such systems throughout the city.

The Committee on Environmental Protection, to which the annexed proposed amended local law was referred on January 31, 2018 (Minutes, page 174), respectfully

REPORTS:

I. INTRODUCTION

On September 23, 2019, the Committee on Environmental Protection, chaired by Council Member Costa Constantinides, will hold a hearing on three bills related to energy storage, aggregation and sources. Proposed Int. No. 46-A would require the Department of Citywide Administrative Services (“DCAS”) to conduct a feasibility study on the installation of utility-scale battery storage systems on city buildings. Proposed Int. No. 140-A would require the City conduct a feasibility study and plan on community choice aggregation for energy purchasing. Proposed Int. No. 426-A would require that DCAS conduct a feasibility study of the costs of installing solar water heating and thermal energy systems on city-owned buildings and mandate the installation when identified as cost-effective.

The Committee previously held a hearing on these bills on June 24, 2019, and received testimony from the New York City Mayor’s Office of Sustainability and Mayor’s Office of Resiliency, utility companies and energy providers, unions, environmental advocates, green building architects, and the general public.

More information about these bills is available with the materials for that hearing, which can be accessed online at <http://legistar.council.nyc.gov/>.

II. PROPOSED INT. NO. 49-A

Proposed Int. No. 49-A would require DCAS, or any other agency authorized by the commissioner, to conduct a feasibility study on the installation and use of each available type of utility-scale energy storage systems in each city building, and submit to the mayor and the speaker of the council a copy of such study by April 30, 2021. As determined by the study, the department shall install utility-scale energy storage systems on all city buildings where the installation of such systems is cost effective. The bill also requires the department produce a report on the types of utility-scale energy storage systems studied, city buildings where installation of such systems may be appropriate, and number of city buildings where installation of such systems has been commenced and been completed., and submit to the mayor and the speaker of the council a copy of such report by December 15, 2021. Additionally, this bill would require a feasibility study that also identifies the environmental and financial benefits relating to the installation of utility-scale battery storage systems on non-city buildings. This local law would take effect immediately.

III. PROPOSED INT. NO. 140-A

Proposed Int. No. 140-A would require the office of long-term planning and sustainability to conduct a feasibility study on the implementation of one or more community choice aggregation programs for energy

purchasing by April 30, 2021. A preliminary report is due to the Mayor and the Speaker by March 1, 2020. If the office determines that such a plan or plans would be feasible and is recommended by the office, then the office will be required to submit an implementation plan to the mayor and speaker and make the plan publically available by December 31, 2021. The city was authorized to conduct such a program by the public service commission in 2016. This local law would take effect immediately.

IV. PROPOSED INT. NO. 426-A

Proposed Int. No. 426-A would require that DCAS, or any other agency authorized by the commissioner, conduct a study identifying the types of city-owned buildings where solar water heating and thermal energy systems may be appropriate and cost-effective, and submit such study to the mayor and the speaker of the council by April 30, 2021. The bill also requires the department install a solar water heating system or a thermal energy system on all city-owned buildings where the traditional hot water or space heating equipment has reached the end of its useful life, provided that such a solar water heating system or thermal energy system is cost effective in the aforementioned feasibility study. The bill also requires the department produce a report on the types of city buildings where the installation of a solar water heating or thermal energy system may be appropriate, number of city buildings where the installation of such systems has been commenced and completed, and annual energy and other cost savings, and any other environmental benefits associated with the use of such completed systems, and submit to the mayor and the speaker of the council a copy of such report by December 15, 2021. This local law would take effect immediately.

PROPOSED INTRO. NO. 49-A

COMMITTEE: Environmental Protection

TITLE: A Local Law to amend the administrative code of the city of New York, in relation to installation of utility-scale battery storage systems on city buildings and conducting a feasibility study on installation of such systems throughout the city.

SPONSORS: Council Members Constantinides, Espinal, Brannan and Kallos.

SUMMARY OF LEGISLATION: Proposed Intro. No. 49-A would require the Department of Citywide Administrative Services (DCAS), no later than April 30, 2021, to conduct a study regarding the feasibility of installation and use of each available type of utility scale energy storage systems in each City building and submit to the Mayor and the Speaker a copy of each study. Furthermore, DCAS or an authorized agency should install utility style energy storage systems on all City buildings where the installation is cost effective as determined by the study. Lastly, no later than December 15, 2021, DCAS shall report to the Mayor and the Speaker on the type of utility scale energy storage systems studied, the buildings where installation may be appropriate, the number

of buildings where installation has been commenced and the number of buildings where installation has been completed.

EFFECTIVE DATE: This local law would take effect immediately.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2021

	Effective FY20	FY Succeeding Effective FY21	Full Fiscal Impact FY21
Revenues (+)	\$0	\$0	\$0
Expenditures (-)	\$0	\$0	\$0
Net	\$0	\$0	\$0

IMPACT ON REVENUES: It is estimated that there would be no impact on revenues resulting from the enactment of this legislation.

IMPACT ON EXPENDITURES: It is anticipated that the feasibility study and the required reporting would not have an impact on expenditures because existing resources would be used to implement these elements of the legislation. There could be some impact on expenditures in the future, depending on the results of the required feasibility study, if the study determines that there are instances where a cost effective installation of a utility style energy storage system on a City building could occur. However, at the time of this writing, the cost of such potential installation is unknown because it is unknown how many, if any, installations will be required, the size or location of such installation, or how such installation may be completed.

The determination of cost effectiveness shall not include any savings in energy costs directly attributed to federal, state and other non-city governmental assistance, but shall include the social cost of carbon value, as provided in paragraph 3 of subdivision d of section 3-125 or pursuant to paragraph 4 of subdivision d of section 3-125, provided however, that a site- or project-specific social cost of carbon value may be developed and used in lieu of the social cost of carbon value provided in or pursuant to such paragraphs if such site- or project-specific social cost of carbon value is higher than the social cost of carbon value provided in or pursuant to such paragraphs.

Department. The term “department” means the department of citywide administrative services.

- 1. The types of utility-scale energy storage systems that were studied, as applied to various city buildings;*

No later than 2 years after the effective date of this local law, one or more offices or agencies designated by the mayor shall submit to the mayor and speaker of the council, and make available to the public, a report regarding the feasibility of installing utility-scale energy storage systems on buildings throughout the city other than city buildings, as defined in section 4-207.3 of the administrative code of the city of New York. FISCAL IMPACT STATEMENT

PROPOSED INTRO. NO. 426-A

COMMITTEE: Environmental Protection

TITLE: A Local Law to amend the administrative code of the city of New York, in relation to installation of solar water heating and thermal energy systems on city-owned buildings.

SPONSORS: Council Members Constantinides, Reynoso and Kallos.

SUMMARY OF LEGISLATION: Proposed Intro. No. 426-A would require the Department of Citywide Administrative Services (DCAS), no later than April 30, 2021, to study the feasibility of the installation of solar water heating and thermal energy systems on City-owned buildings, including consideration of State or federal incentives to defray the cost of installation, operation or maintenance of such systems. This bill would also require the installation of solar water heating and thermal energy systems where the traditional hot water and space heating equipment has reached the end of its useful life, wherever cost effective. Finally, this bill would require DCAS to submit a report to the Mayor and Speaker no later than December 15, 2021 that details the types of City-owned buildings where installation may be appropriate, the number of buildings where installation has commenced, the number of buildings where installation has been completed and the cost savings and environmental benefits associated with installation of such completed systems.

EFFECTIVE DATE: This local law would take effect immediately.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2021

FISCAL IMPACT STATEMENT:

	Effective FY20	FY Succeeding Effective FY21	Full Fiscal Impact FY21
Revenues (+)	\$0	\$0	\$0
Expenditures (-)	\$0	\$0	\$0
Net	\$0	\$0	\$0

IMPACT ON REVENUES: It is estimated that there would be no impact on revenues resulting from the enactment of this legislation.

IMPACT ON EXPENDITURES: It is anticipated that the feasibility study and the required reporting would not have an impact on expenditures because existing resources would be used to implement these elements of the legislation. There could be some impact on expenditures in the future, depending on the results of the required feasibility study, if the study determines that there are instances where a cost effective installation of a utility style energy storage system on a City building could occur. However, at the time of this writing, the cost of such potential installation is unknown because it is unknown how many, if any, installations will be required, the size or location of such installation, or how such installation may be completed.

By Council Members Constantinides, Reynoso, Kallos, Ayala and Rivera.

A Local Law to amend the administrative code of the city of New York in relation to the installation of solar water heating and thermal energy systems on city-owned buildings

Be it enacted by the Council as follows:

Section 1. Chapter 2 of title 4 of the administrative code of the city of New York is amended by adding a new section 4-207.4 to read as follows:

§ 4-207.4 *Solar water heating and thermal energy systems for city-owned buildings.* a. As used in this section, the following terms have the following meanings:

City building. The term “city building” means a building that is owned by the city or for which the city regularly pays all of the annual energy bills, or a cultural institution that is in the cultural institutions group as determined by the department of cultural affairs for which the city regularly pays all or part of the annual energy bills.

Commissioner. The term “commissioner” means the commissioner of citywide administrative services.

Cost effective. The term “cost effective” means, with respect to the installation of a solar water heating or thermal energy system, that the cumulative savings expected to result from the use of such system, including expected savings in energy costs, will, within 25 years of such installation, be equal to or exceed the expected costs of the acquisition, installation, and maintenance of such system during that same time period. The determination of cost effectiveness shall not include any savings in costs directly attributed to federal, state and other non-city governmental assistance, but shall include the social cost of carbon value, as provided in paragraph 3 of subdivision d of section 3-125 or pursuant to paragraph 4 of subdivision d of section 3-125, provided, however, that a site- or project-specific social cost of carbon value may be developed and used in lieu of the social cost of carbon value provided in or pursuant to such paragraphs if such site- or project-specific social cost of carbon value is higher than the social cost of carbon value provided in or pursuant to such paragraphs.

Department. The term “department” means the department of citywide administrative services.

b. No later than April 30, 2021, the department, or any other agency authorized by the commissioner, shall conduct a study identifying the types of city-owned buildings where solar water heating and thermal energy systems may be appropriate and cost-effective, and submit such study to the mayor and the speaker of the council. Such study shall describe any federal or state funds or incentives that would be available to defray costs related to the installation, operation or maintenance of such systems.

c. The department, or any other agency authorized by the commissioner, shall, in accordance with all applicable law, install a solar water heating system or a thermal energy system on all city-owned buildings where the traditional hot water or space heating equipment has reached the end of its useful life, provided that such a solar water heating system or thermal energy system is cost effective, as determined by the study described in subdivision b.

d. No later than December 15, 2021, the department shall report to the mayor and the speaker of the council:

1. The types of city buildings where the installation of a solar water heating or thermal energy system may be appropriate, as determined by the department;

2. The number of city buildings where the installation of a solar water heating or thermal energy system has been commenced by the department of other agency authorized by the commissioner;

3. The number of city buildings where the installation of a solar water heating or thermal energy system has been completed by the department of other agency authorized by the commissioner; and

4. The annual energy and other cost savings, and any other environmental benefits associated with the use of such completed systems.

§ 2. This local law takes effect immediately.

RE: Finance Committee Agenda of September 25, 2019 – Resolutions approving a tax exemption for two Land Use items (Council Districts 17 and 22)

Item 1: Catherine Sheridan Apartments

Catherine Sheridan Apartments is comprised of 241 residential units in a building in Astoria, Queens. The project contains twenty studios, and 220 one-bedrooms (excluding a two-bedroom superintendent unit). The project is presently owned by Catherine Sheridan Housing Development Fund Company, Inc. (“HDFC”), and all units are low-income rentals for senior citizens subject to a Housing Assistance Payments (“HAP”) Section 8 contract, under which tenants pay a fixed portion their income in rent and the U.S. Department of Housing and Urban Development (“HUD”) makes payments to the landlord for any remaining markup-to-market contract rent.

The Department of Housing Preservation and Development (“HPD”) is requesting that the Council approve a partial, 40-year Article XI property tax exemption. The HDFC will finance the rehabilitation of the property with a mortgage insured by HUD. The HDFC would enter into a regulatory agreement with HPD that would require that apartments be rented only to households earning less than 80 percent of the Area Median Income (“AMI”). Eligible tenants will receive Section 8 rental assistance.

The Lafayette-Morrison Apartments project consists of a four-building development containing 900 units of cooperative housing for low-income families. In order to correct a miscalculation of the partial property tax exemption, HPD is requesting that the Council approve an amendment to the prior resolution approving the 32-year Article XI tax exemption for the Lafayette-Morrison Apartments.

Res. No. 1067

Resolution approving an exemption from real property taxes for property located at (Block 568, Lot 12) Queens, pursuant to Section 577 of the Private Housing Finance Law (Preconsidered L.U. No. 536).

By Council Member Dromm.

WHEREAS, The New York City Department of Housing Preservation and Development (“HPD”) submitted to the Council its request dated August 16, 2019 that the Council take the following action regarding a housing project located at (Block 568, Lot 12) Queens, (“Exemption Area”):

Approve an exemption of the Project from real property taxes pursuant to Section 577 of the Private Housing Finance Law (the “Tax Exemption”);

WHEREAS, The project description that HPD provided to the Council states that the purchaser of the Project (the “Owner”) is a duly organized housing development fund company under Article XI of the Private Housing Finance Law;

WHEREAS, the Council has considered the financial implications relating to the Tax Exemption;

RESOLVED:

The Council hereby grants an exemption from real property taxes as follows:

1. For the purposes hereof, the following terms shall have the following meanings:
 - a. “Contract Rent Deadline” shall mean three hundred and sixty-five (365) days from the date of the HPD letter requesting the information that HPD needs to calculate the Contract Rent Differential Tax for the applicable tax year.
 - b. “Contract Rent Differential” shall mean the amount by which the total contract rents applicable to the Exemption Area for such tax year (as adjusted and established pursuant to Section 8 of the United States Housing Act of 1937, as amended) exceed the total contract rents which are authorized as of the Effective Date.
 - c. “Contract Rent Differential Tax” shall mean the sum of (i) \$650,400, plus (ii) twenty-five percent (25%) of the Contract Rent Differential; provided, however, that if the Owner fails to provide the contract rents on or before the Contract Rent Deadline, Contract Rent Differential Tax shall mean an amount equal to real property taxes that would otherwise be due in such tax year in the absence of any form of exemption from or abatement of real property taxation.
 - d. “Effective Date” shall mean the date that HPD and the Owner enter into the Regulatory Agreement.
 - e. “Exemption Area” shall mean the real property located in the Borough of Queens, City and State of New York, identified as Block 568, Lot 12 on the Tax Map of the City of New York.
 - f. “Expiration Date” shall mean the earlier to occur of (i) a date which is forty (40) years from the Effective Date, (ii) the date of the expiration or termination of the Regulatory Agreement, or (iii) the date upon which the Exemption Area ceases to be owned by either a housing

development fund company or an entity wholly controlled by a housing development fund company.

- g. “HDFC” shall mean Catherine Sheridan Housing Development Fund Company, Inc. or a housing development fund company that acquires the Exemption Area with the prior written consent of HPD.
 - h. “HPD” shall mean the Department of Housing Preservation and Development of the City of New York.
 - i. “New Exemption” shall mean the exemption from real property taxation provided hereunder with respect to the Exemption Area.
 - j. “Owner” shall mean the HDFC.
 - k. “Prior Exemption” shall mean the exemption from real property taxation for a portion of the Exemption Area approved by the New York City Council on November 20, 2001 (Resolution No. 2123).
 - l. “Regulatory Agreement” shall mean the regulatory agreement between HPD and the Owner establishing certain controls upon the operation of the Exemption Area during the term of the New Exemption.
2. The Prior Exemption shall terminate with respect to the Exemption Area upon the Effective Date.
 3. All of the value of the property in the Exemption Area, including both the land and any improvements (excluding those portions, if any, devoted to business, commercial, or community facility use), shall be exempt from real property taxation, other than assessments for local improvements, for a period commencing upon the Effective Date and terminating upon the Expiration Date.
 4. Commencing upon the Effective Date, and during each year thereafter until the Expiration Date, the Owner shall make real property tax payments in the sum of the Contract Rent Differential Tax. Notwithstanding the foregoing, the total annual real property tax payment by the Owner shall not at any time exceed the lesser of (i) seventeen percent (17%) of the contract rents in the applicable tax year, or (ii) the amount of real property taxes that would otherwise be due in the absence of any form of exemption from or abatement of real property taxation provided by an existing or future local, state, or federal law, rule, or regulation.
 5. Notwithstanding any provision hereof to the contrary:
 - a. The New Exemption shall terminate if HPD determines at any time that (i) the Exemption Area is not being operated in accordance with the requirements of Article XI of the Private Housing Finance Law, (ii) the Exemption Area is not being operated in accordance with the requirements of the Regulatory Agreement, (iii) the Exemption Area is not being operated in accordance with the requirements of any other agreement with, or for the benefit of, the City of New York, (iv) any interest in the Exemption Area is conveyed or transferred to a new owner without the prior written approval of HPD, or (v) the construction or demolition of any private or multiple dwelling on the Exemption Area has commenced without the prior written consent of HPD. HPD shall deliver written notice of any such determination to Owner and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than sixty (60) days. If the noncompliance specified in such notice is not cured within the time period specified therein, the New Exemption shall prospectively terminate.

- b. The New Exemption shall apply to all land in the Exemption Area, but shall only apply to a building on the Exemption Area that exists on the Effective Date.
 - c. Nothing herein shall entitle the HDFC, the Owner, or any other person or entity to a refund of any real property taxes which accrued and were paid with respect to the Exemption Area prior to the Effective Date.
 - d. All previous resolutions, if any, providing an exemption from or abatement of real property taxation with respect to the Exemption Area are hereby revoked as of the Effective Date.
6. In consideration of the New Exemption, the owner of the Exemption Area shall, for so long as the New Exemption shall remain in effect, waive the benefits of any additional or concurrent exemption from or abatement of real property taxation which may be authorized under any existing or future local, state, or federal law, rule, or regulation. Notwithstanding the foregoing, nothing herein shall prohibit the granting of any real property tax abatement pursuant to Sections 467-b or 467-c of the Real Property Tax Law to real property occupied by senior citizens or persons with disabilities.

If the noncompliance specified in such notice is not cured within the time period specified therein, the New Exemption shall prospectively terminate.
 - b. The New Exemption shall apply to all land in the Exemption Area, but shall only apply to a building on the Exemption Area that exists on the Effective Date.
 - c. Nothing herein shall entitle the HDFC, the Owner or any past owner to a refund of any real property taxes which accrued and were paid by or on behalf of the HDFC or any other owner of the Exemption Area prior to Effective Date.

Report for Int. No. 1553-A

Report of the Committee on Public Safety in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to prohibiting unfinished frames or receivers.

The Committee on Public Safety, to which the annexed proposed amended local law was referred on May 8, 2019 (Minutes, page 1742), respectfully

REPORTS:

I. INTRODUCTION

On June 27, 2019 the Committee on Public Safety, chaired by Council Member Donovan Richards, Jr. will hold a vote on the following legislation: Proposed Introduction Number 1553-A (“Int. No. 1553-A”), a local law to amend the administrative code of the city of New York, in relation to prohibiting unfinished frames or

receivers; Introduction Number 1548 (“Int. No. 1548”), a local Law to amend the administrative code of the city of New York, in relation to reporting on the seizure of three-dimensional printed guns and ghost guns, or any piece or part thereof; and, Proposed Resolution number 866-A, calling on the United States Congress to re-introduce and pass, and the President to sign the 3-D Firearms Prohibition Act. The Committee previously heard the bills and the resolution on June 27, 2019

II. PROP. INT. NO. 1553-A

A. UNTRACEABLE FIREARMS

“Ghost Guns” are unlicensed and untraceable firearms made from incomplete frames and lower receivers that can be legally purchased without a license and transformed into an operable firearm using tools available in most hardware stores. Under federal law, only the frame of a firearm, the key component that houses the firing mechanism, must carry a serial number.¹ Several online retailers sell incomplete frames and tools that can be used to assemble a functioning firearm, allowing customers to bypass background checks and gun licensing.² According to the Gifford Law Center to Prevent Gun Violence, Ghost Guns, unlike traditional firearm manufacturing, are undetectable because they do not include a unique serial number that identifies its manufacturer, make, model, caliber used by law enforcement to trace its ownership.³

B. ANALYSIS OF INT. NO. 1553-A

Section 1 of this bill would add definitions for the term “frame or receiver” and “unfinished frame or receiver”.

Section 2 of the bill would make the possession or disposal of an unfinished frame or receive a class A misdemeanor punishable as defined by state law.

Section 3 of the bill would have it take effect 120 days after it becomes law except that the police commissioner may take all actions necessary to implement the law prior to such effective date.

C. AMENDMENTS TO 1553-A

This bill has been amended since it was first heard. In the prior version, violation of the law would be punishable by a fine of up to \$1,000 or imprisonment up to one year or both. In the current version, violation of the law would constitute a class A misdemeanor, which is defined under state law and carries similar penalties.

III. INT. NO. 1548

A. THREE-DIMENSIONAL PRINTED GUNS

Three-dimensional (“3-D”) printing, also known as additive manufacturing, is a process of using computer control, guided by a digital blueprint, to direct the laying of a material, most commonly plastic, to make a three-dimensional solid object.⁴ 3-D printing technology has been employed in numerous industries, including medicine, music, culinary arts, home construction, automotive, and aerospace, among many others including the

making of firearms.⁵ 3-D printed firearms are unlicensed, untraceable, and can be undetectable as they are typically made of plastic. While the United States Undetectable Firearms Act of 1988 requires guns to be detectable by metal screening machines, it does not require firearms to have a major component made of metal.⁶ Several 3-D firearms bypass metal detection, as they are designed only to include a removable metal block that is not necessary for its functionality.⁷

According to experts, 3-D printed guns tend to fail, jam, and explode at higher rates than regular firearms, presenting a significantly higher danger to users and bystanders than a firearm made through regular production means.⁸ As 3-D printed firearms become more accessible, public safety concerns have grown. In 2013, the Texas-based nonprofit Defense Distributed was the first to create a three-dimensional printed firearm, called “the Liberator,” but was temporarily prohibited from making blueprints for such firearms publically available.⁹ In May of 2019, both chambers of the New York State Legislature have passed a ban on the manufacture, sale, and possession of 3D printed guns and other undetectable firearms, and the bill is pending review by the Governor’s office.¹⁰

B. ANALYSIS OF INT. NO. 1548¹¹

Section 1 of this bill would add ghost guns and firearms created using a 3D printer to the reporting requirements under section 14-150 of the administrative code relating to seized firearms.

Section 2 of the bill would add definitions of “frame or receiver,” “ghost gun,” “three dimensional printer” and “unfinished frame or receiver”.

Section 3 of the bill would have it take effect immediately.

Report of the Committee on Small Business

Report for Int. No. 1410-B

Report of the Committee on Small Business in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to commercial tenant harassment.

The Committee on Small Business, to which the annexed proposed amended local law was referred on February 13, 2019 (Minutes, page 441), respectfully

REPORTS:

On September 23, 2019, the Committee on Small Business, chaired by Council Member Mark Gjonaj, will hold a vote on a bill designed to strengthen existing protections for commercial tenants in the city: Introductory Bill Number 1410-B ("Int. No. 1410-B"), a local law to amend the administrative code of the city of New York, in relation to commercial tenant harassment. The Committee previously heard testimony on this bill from the Department of Small Businesses Services ("SBS"), the Department of Finance, the Manhattan Borough President, and other advocates and stakeholders. Their feedback informed the bill's amendments. At the vote on September 23, the Committee voted 3 in favor, 0 opposed and 0 abstentions on the bill.

I. BACKGROUND

Commercial tenants in New York City may suffer harassment from their landlords, as may be the case with residential tenants. In the commercial context, tenants may experience landlords engaging in behavior designed

to force the tenant to vacate the property. The landlord may take such action as cutting off or overcharging for utilities, refusing to make needed repairs, or denying access to essential spaces such as entrances or storage areas.¹ Commercial tenant harassment may be especially hard on immigrant tenants. A recent survey of almost 100 immigrant small business owners in New York City showed that 40% of respondents had been subject to that kind of harassment.²

Commercial tenant harassment can be motivated by the landlord's desire for increased profitability, for example, in neighborhoods subject to rezoning in which the landlord may potentially be able to benefit from redevelopment or higher rents.³ As with residential tenancy, commercial tenants may not be able to negotiate a written lease, but may rather be offered no lease at all, an oral lease or a month-to-month lease.⁴ A recent survey of immigrant small business owners found that 19% of respondents did not have a commercial lease in their name.⁵

In an effort to continue to address these issues, Int. No. 1410-B would strengthen existing protections against commercial tenant harassment, which the Council had previously established by local law in 2016.

II. LEGISLATIVE ANALYSIS

Int. No. 1410-B

Int. No. 1410-B would amend Sections 22-901, 22-902 and 22-903 of the administrative code of the city of New York. The bill would redefine commercial tenant harassment as an act or omission by or on behalf of a landlord that “would reasonably cause” a commercial tenant to vacate their property, or surrender or waive any rights under their lease or other rental agreement. Further, it would amend the law to include three additional acts or omissions by or on behalf of a landlord that would constitute commercial tenant harassment: (i) threatening a commercial tenant based on such person's actual or perceived age, race, creed, color, national origin, gender, disability, marital status, partnership status, caregiver status, uniformed service, sexual orientation, alienage or citizenship status, status as a victim of domestic violence, status as a victim of sex offenses or stalking; (ii) requesting identifying documentation that would disclose the citizenship status of a commercial tenant; or (iii) unreasonably refusing to cooperate with a tenant's permitted repairs or construction activities.

This bill would also raise civil penalties for commercial tenant harassment to not less than ten thousand dollars and not more than fifty thousand dollars. Further, the bill would explicitly allow courts to issue an order to the Department of Buildings directing them not to approve construction documents, or issue or renew permits in cases where a commercial tenant has been the subject of commercial tenant harassment, for the following categories of work: (i) demolition of all or part of the property; (ii) change of use or occupancy or all or part of the property; and (iii) change to the layout, configuration or location of any portion of the property. The bill would provide exceptions to those categories of work for: (i) work conducted to make a portion of the property accessible to people with disabilities; (ii) work conducted solely to remediate hazardous or impending hazardous conditions, or to protect public health and safety; (iii) work performed pursuant to a lease or other agreement executed prior to such court order; (iv) work performed pursuant to an agreement with the commercial tenant; and (v) other categories of work excluded by rule.

Report of the Committee on Transportation

Report for Int. No. 1140-A

Report of the Committee on Transportation in favor of approving and adopting, as amended, a Local Law in relation to off-hour deliveries at city facilities.

The Committee on Transportation, to which the annexed proposed amended local law was referred on October 17, 2018 (Minutes, page 3861), respectfully

REPORTS:

INTRODUCTION

On September 24, 2019, the Transportation Committee chaired by Council Member Ydanis Rodriguez, will hold a hearing on Proposed Int. No. 1140-A, in relation to off-hour deliveries at city facilities. This is the second hearing on this item. The first hearing on Int. No. 1140 was held on October 29, 2018, at which the Committee heard testimony from the Department of Transportation (DOT) and other interested stakeholders.

BACKGROUND

Off-Hour Deliveries

A January 2016 For-Hire Vehicle Transportation Study (“FHV Study”), commissioned by the City in accordance with Local Law 75 of 2015, found that traffic congestion in the Central Business District (CBD) had gotten worse over the preceding five years, with average vehicle speeds falling nearly 10% in the preceding two years.¹ The study noted that worsening congestion not only has implications for personal vehicle drivers and taxi/FHV drivers and passengers, but also people who depend on buses, as well as businesses and individuals who rely on the delivery of goods via trucks.² The 2016 FHV Study asserts that traffic congestion is “significantly affected by how curb space is managed,” noting that “when there is inadequate space at the curb for trucks and delivery vehicles and those vehicles double park, they can remove a full lane or more from traffic service.”³ In 2010, in conjunction with partners in the federal government, academia, and private industry, DOT completed a pilot program in which businesses were offered financial incentives to receive deliveries during overnight hours instead of during the business day.⁴ According to DOT, trucks making deliveries experienced fewer delays, easier parking, and reduced congestion.⁵ Further, many of the delivery companies and receiving businesses

experienced cost savings, with some businesses using unassisted delivery systems, which allow delivery companies to make deliveries while minimizing the need for the receiving business's employees to be present by, for example, providing a key to the delivery company to access a designated area of the business to drop off goods.⁶ In its 2016 Strategic Plan, DOT committed to expanding the use of off-hours deliveries and exploring “opportunities for micro freight distribution centers in highly congested commercial areas” using “curb space now dedicated to commercial loading.”⁷

Per Local Law 189 of 2017, DOT conducted a study of traffic congestion resulting from truck deliveries in Manhattan below 59th Street and in Downtown Brooklyn, including an analysis of the feasibility and necessity of implementing measures to reduce such congestion. The study recommended targeting 900 retail locations for inclusion in an off-hour deliveries program in order to reduce daytime traffic congestion in Midtown and Downtown Brooklyn.⁸ The study also recommended that DOT work with business improvement districts (BIDs) to help consolidate deliveries, study and evaluate changes to truck routes, and support rail and water freight movement plans.⁹

DOT now has a goal of targeting 900 business establishments by the end of 2019.¹⁰ These off-hour deliveries (OHD) build off the original 2010 pilot and will have businesses work with DOT to rethink their delivery schedules.¹¹ Proposed Int. No. 1140-A would require an agency or agencies designated by the Mayor to develop a plan of off-hour deliveries for city facilities.

ANALYSIS OF PROPOSED INT. NO. 1140-A

Section 1 of Proposed Int. No. 1140-A in subdivision a would define the following terms with the following meanings:

- Central business district. The term “central business district” means the area of the borough of Manhattan lying south of and including 60th street.
- City facility. The term “city facility” means a facility used or occupied or to be used or occupied to meet city needs that is located on real property owned or leased by the city or is operated by the city pursuant to a written agreement on behalf of the city.
- Highly congested areas. The term “highly congested areas” means at least two areas of the city outside of the central business district in which there are both high levels of traffic congestion and high densities of city facilities, as determined by the agency or office designated by the mayor pursuant to subdivision b of this section.
- Lower Manhattan. The term “lower Manhattan” means the area of the borough of Manhattan lying south of and including Canal street.
- Off-hour deliveries. The term “off-hour deliveries” means the delivery of goods between 7:00pm and 6:00am.

Subdivision b would state that no later than 180 days after the effective date of this local law, an agency or office designated by the mayor would, in consultation with other agencies or offices as deemed appropriate by the mayor, develop a framework for the feasibility of city facilities in the central business district (CBD) and highly congested areas receiving off-hour deliveries and would submit a report on such framework to the mayor and the speaker of the council. Such report would include, but need not be limited to, the following:

1. A discussion of the problems that currently exist with respect to daytime deliveries at city facilities;

2. A discussion of the existing models of off-hour delivery programs in both the public and private sectors;
3. Recommendations for actions that the city could take to expand off-hour deliveries to city facilities;
4. An assessment of the feasibility of deploying personnel to receive off-hour deliveries at city facilities;
5. Recommendations for actions that the city could take to enable off-hour deliveries without the presence of personnel;
6. Recommendations for actions that the city could take to reduce adverse impacts on communities adjacent to city facilities receiving off-hour deliveries, including through the use of low-noise equipment and operating procedures; and
7. Recommendations for processes through which building and facility delivery and service plans could best be created, implemented and refined over time for city facilities, including through delivery scheduling, vendor consolidation and safer and more environmentally sustainable freight vehicles.

Subdivision c would indicate that no later than 270 days after the effective date of this local law, the agency or office designated by the mayor pursuant to subdivision b of this section would assess all city facilities in lower Manhattan to determine whether off-hour deliveries are feasible at such facilities and such agency or office, in consultation with other agencies or offices as deemed appropriate by the mayor, would conduct off-hour deliveries at such facilities.

Subdivision d would indicate that no later than 18 months after the effective date of this local law, the agency or office designated by the mayor pursuant to subdivision b of this section would submit a report to the mayor and the speaker of the council regarding off-hour deliveries at each city facility at which off-hour deliveries were implemented pursuant to subdivision c of this section. For each such facility, such report would include the number of deliveries, the provider of the goods delivered and the value of the goods delivered that have been diverted to off-hours deliveries and any measures taken to increase off-hour deliveries.

Subdivision e would state that no later than 18 months after the effective date of this local law, the agency or office designated by the mayor pursuant to subdivision b of this section would assess all city facilities in the central business district and highly congested areas that are not in lower Manhattan to determine whether off-hour deliveries are feasible at such facilities and such agency or office, in consultation with other agencies or offices as deemed appropriate by the mayor, would conduct off-hour deliveries at such facilities.

Subdivision f would state that no later than 2 years after the effective date of this local law, the agency or office designated by the mayor pursuant to subdivision b of this section would submit a report to the mayor and the speaker of the council regarding off-hour deliveries at each city facility at which off-hour deliveries were implemented pursuant to subdivision e of this section. For each such facility, such report would include the number of deliveries, the provider of the goods delivered and the value of the goods delivered that have been diverted to off-hours deliveries and any measures taken to increase off-hour deliveries.

Section 2 of Proposed Int. No. 1140-A would state that this local law would take effect immediately.

presented for voice-vote

The following are the respective Committee Reports for each of the Resolutions referred to the Council for a voice-vote pursuant to Rule 8.50 of the Council:

Report for voice-vote item Res. No. 866-A

Report of the Committee on Public Safety in favor of approving, as amended, calling on the United States Congress to re-introduce and pass, and the President to sign, the 3-D Firearms Prohibition Act.

The Committee on Public Safety, to which the annexed amended resolution was referred on May 8, 2018 (Minutes, page 1734), respectfully

REPORTS:

(For text of related report, please see the Report of the Committee on Public Safety for Int. No. 1553-A printed in the Reports of the Standing Committees section of these Minutes)

Accordingly, this Committee recommends its adoption, as amended.

(The following is the text of Res. No. 866-A:)

Res. No. 866-A

Resolution calling on the United States Congress to re-introduce and pass, and the President to sign, the 3-D Firearms Prohibition Act.

By Council Members Miller, Rosenthal, Richards, the Public Advocate (Mr. Williams), Ayala and Rivera.

Whereas, 3-D printed firearms are unlicensed, untraceable, and can be undetectable as they are typically made of plastic; and

Whereas, While the United States Undetectable Firearms Act of 1988 requires guns to be detectable by metal screening machines, it does not require firearms to have a major component made of metal; and

Whereas, Several 3-D firearms bypass metal detection as they are designed to only include a removable metal block that is not necessary for its functionality; and

Whereas, According to experts, 3-D printed guns tend to fail, jam, and explode at higher rates than regular firearms, presenting a significantly higher danger to users and bystanders than a firearm made through regular production means; and

Whereas, As 3-D printers have become more accessible and widespread, the dangers posed by 3-D firearms is growing rapidly; and

Whereas, In August 2018, Judge Robert S. Lasnik of the United States District Court issued a temporary nationwide injunction barring the online publication of a 3-D gun blueprint and design; and

Whereas, Law enforcement and gun control activists have raised concerns about 3-D printed firearms, as they allow criminals to bypass background checks and ignore gun licensing laws that require unique serial numbers; and

Whereas, New York City has already seen the problems posed by these guns; and

Whereas, In September 2018, a puppet specialist for a Broadway musical was arrested and charged with manufacturing a 3-D printed gun in the play's prop room using designs he found online; and

Whereas, “Ghost Guns” are firearms made from incomplete gun frames or lower receivers that can be legally purchased without a license and transformed into an operable firearm using tools available in most hardware stores; and

Whereas, Under federal law, completed lower receivers are considered firearms, however incomplete lower receivers are unregulated; and

Whereas, Ghost guns present similar dangers as 3-D guns as they too can go undetected; and

Whereas, The 3-D Firearms Prohibition Act, previously sponsored by United States Representative Frank Joseph Pallone Jr., would prohibit the sale, acquisition, distribution in commerce, or import of “do-it yourself” firearm parts and kits, the marketing of such kits, and would require homemade firearms to have serial numbers; and

Whereas, Pursuant to the 3-D Firearms Prohibition Act, firearm receiver casting, blanks, and unfinished handgun frames would be considered banned hazardous products under the Consumer Product Safety Act; and

Whereas, Pursuant to the 3-D Firearms Prohibition Act, the advertising of marketing of on any medium, including the Internet, for the sale of do-it yourself assault weapons parts or kits would be unlawful; and

Whereas, Further, the 3-D Firearms Prohibition Act would require the attainment of a serial number and identifying mark for a firearm prior to making it; and

Whereas, The manufacturing and possession of 3-D printed firearms and Ghost Guns should be banned as they present serious safety hazardous to New Yorkers and the rest of the nation; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the United States Congress to re-introduce and pass, and the President to sign, the 3-D Firearms Prohibition Act.

DONOVAN J. RICHARDS, *Chairperson*; YDANIS A. RODRIGUEZ, FERNANDO CABRERA, VANESSA L. GIBSON, ANDREW COHEN, RORY I; LANCMAN, I. DANEEK MILLER, PAUL A. VALLONE, ADRIENNE E. ADAMS, KEITH POWERS; Committee on Public Safety, September 23, 2019.

Pursuant to Rule 8.50 of the Council, the Majority Leader and Acting President Pro Tempore (Council Member Cumbo) called for a voice vote. Hearing no objections, the Majority Leader and Acting President Pro Tempore (Council Member Cumbo) declared the Resolution to be adopted.

Adopted unanimously by the Council by voice-vote.

Section 1. Chapter 9 of title 21 of the administrative code of the city of New York is amended by adding a new section 21-919 to read as follows:

§ 21-919 *Demographic reporting and plan to address disparities. a. Definitions. For purposes of this section, the following terms have the following meanings:*

Demographic information. The term "demographic information" means race or ethnicity, gender, income level, and any other category ACS deems relevant.

Step in the child welfare system. The term "step in child welfare system" includes, but is not limited to, when a report is accepted by the state central register and triggers an investigation, when ACS assigns a case to a child protective specialist, when an ACS investigation results in a case being determined indicated, when an ACS investigation results in a case being unfounded, when a child is removed from a home prior to a court hearing, when ACS requires preventive services in a family, and any other instance which ACS deems relevant.

Res. No. 1057

Resolution Calling upon the New York State Legislature to pass, and the Governor to sign legislation to automatically expunge the records of individuals whose child abuse or neglect case was dismissed in family court from the Statewide Central Registry of Child Abuse and Maltreatment.

By Council Members Ayala, Levin, Chin, Gibson, Ampry-Samuel, and Lander.

Whereas, The New York Social Services Law establishes in the New York State Office of Children and Family Services (OCFS) a Statewide Central Register of Child Abuse and Maltreatment (SCR) to maintain a centralized database of child abuse and neglect investigation records; and

Whereas, In 2018, the New York City Administration for Children's Services (ACS) received a total of 53,676 SCR reports including over 20,000 that were "indicated," which are determined by Child Protective Specialists (CPS) upon finding some credible evidence following an investigation to support the claim that a child has been abused or neglected; and

Whereas, Current law requires indicated reports of child abuse and neglect to be retained in the SCR database records for up to 28 years or until 10 years after the 18th birthday of the youngest child named in the report unless the report is amended or sealed upon request; and

Whereas, Indicated cases of maltreatment would be conditionally reduced to eight years in the SCR under recent New York State legislation; and

Whereas, A8060A/S6427A, by Assemblymember Ellen Jaffee and Senator Velmanette Montgomery, which recently passed both the New York State Assembly and Senate, would if signed, shorten the length of time that an individual's name is retained in the SCR database records where reports were indicated for maltreatment from 10 to eight years, only allow authorized employers to access such records for four years, change the standard of proof required to determine whether a report should be indicated for abuse or maltreatment from "some credible evidence" to "a fair preponderance of evidence" and also expand an individual's rights as it relates to requesting an amendment to an indicated report; and

Whereas, "Unfounded" reports, which are determined by CPS upon finding no credible evidence following an investigation to support the claim that a child has been abused or neglected, are retained in the SCR database records for 10 years from the date of the report unless the subject of the report has been granted early expungement upon request; and

Whereas, According to the New York Times, in 2018, the State ordered investigations into 166,000 reports of child abuse or neglect, added a total of 47,541 cases to the SCR database and processed more than 316,000 SCR database checks for authorized employers; and

Whereas, Authorized agencies are legally mandated to screen an applicant or employee prior to employment, certification or licensure using the SCR Online Clearance System to confirm whether an applicant

or employee has at least one substantiated allegation in an indicated report that has been determined to be relevant to their employment; and

Whereas, Authorized agencies include residential programs licensed, certified, or operated by OCFS, the New York State Education department, the New York State Office of Mental Health, the New York State Office for People with Developmental Disabilities, the New York State Office of Alcoholism and Substance Abuse Services, some adult homes and summer camps licensed by the New York State Department of Health, operators and staff of child day care programs, applicants to be foster or adoptive parents and persons age 18 or older who reside in the homes of prospective foster and adoptive parents; and

Whereas, The process for expungement of records from the SCR database can be difficult for individuals to navigate and achieve even if the case was dismissed in court and OCFS, at its discretion and in limited circumstances, may grant such a request; and

Whereas, Having a record of child abuse or maltreatment can be especially burdensome for low-income and Black, Latinx and Asian communities whose children represented nearly 90% of those in foster care combined in 2017 and who are disproportionately impacted by child welfare policies and practices that yield negative consequences and poor outcomes for families; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to pass, and the Governor to sign legislation to automatically expunge the records of individuals whose child abuse or neglect case was dismissed in family court from the Statewide Central Registry of Child Abuse and Maltreatment.

Resolution calling on the New York State Legislature to pass, and the Governor to sign, legislation that would ban recidivist sexual offenders from mass transit.

By Council Members Deutsch, Yeger and Holden.

Whereas, According to the New York City Police Department (NYPD), there were 573 sex crime complaints from persons riding public transit; and

Whereas, According to the police department, while crime in the City's subway system has trended downward significantly over several years, there is a small group of recidivist offenders who repeatedly commit sex crimes in subways; and

Whereas, The NYPD's Transit Anti-Crime Unit deploys plainclothes police officers throughout the city's subways who surveil trains and stations for perpetrators; and

Whereas, While the police department made 196 arrests in 2018 for incidents involving sex crimes on the subway system, some defendants return repeatedly and continue to sexually abuse others; and

Whereas, Sex crime perpetrators in the subway system are most commonly arrested for forcible touching and public lewdness, which are classified as misdemeanors punishable by up to 1 year in jail; and

Whereas, According to the *New York Post*, nearly a dozen individuals continue to repeatedly victimize people in the subway despite their previous arrests, having been arrested on average 17 times for sex-related crimes; and

Whereas, In June 2019, the Metropolitan Transit Association (MTA) passed a resolution in support of banning criminal recidivists from the subway system for, repeat sexual offenses for a period of time; and

Whereas, In this resolution, the MTA highlighted a need for law enforcement to have additional tools and support to address the issue of serious recidivists, as they have very limited ways to respond before the abuse occurs; and

Preconsidered Res. No. 1061

Resolution calling on the State Legislature to pass, and the Governor to sign, A.2381/S.5471, authorizing shelters for victims of domestic violence to be reimbursed for any payment differential for housing a single individual in a room intended for double occupancy.

By Council Members Louis, Ayala and Cornegy.

Whereas, Domestic violence, sometimes known as intimate partner violence or relationship abuse, is usually defined as a pattern of abusive behavior in a relationship used by one partner to maintain or gain power and control over another partner; and

Whereas, Domestic violence is a leading cause of homelessness in New York City, in addition to evictions and overcrowding; and

Whereas, Domestic violence survivors often cannot stay with family members for fear of running into their abusers, and many lack the income to find permanent housing quickly; and

Whereas, The provision of safe emergency shelter is a primary tool for those fleeing domestic violence; and

Whereas, The domestic violence emergency shelter system was originally created to provide short-term respite for victims of domestic violence and their families who were fleeing imminent danger; and

Whereas, Within New York City, domestic violence shelters were created over several decades to house families rather than single adults; and

Whereas, New York City Human Resources Administration's domestic violence shelters served an average of 122 single adults per month in the first half of 2019; and

Whereas, Non-profit providers who operate these shelters are reimbursed by the New York State Office of Children and Family Services per person per night; and

Whereas, The reimbursement from the State is intended to cover the entire cost of operating domestic violence shelters, including rent, utilities, staffing, and services; and

Whereas, Any reduction in this reimbursement severely impacts the ability of the provider to cover the cost of operating the shelter; and

Whereas, The State reimbursement formula discourages domestic violence emergency shelter providers from placing a smaller family or single adult in a large apartment or room; and

Whereas, Single adult victims of domestic violence have a harder time accessing domestic violence shelters; and

Whereas, A.2381, sponsored by Assembly Member Andrew D. Hevesi, and S.5471, sponsored by Senator Andrew Gounardes, requires the State to preserve the full reimbursement to providers who accommodate a single adult in a room configured for a family of two; and

Whereas, This legislation will help increase system-wide capacity for single adults who otherwise face serious obstacles to accessing the domestic violence shelter system; and

Whereas, A.2381/S.5471 will ensure that providers are not penalized for accommodating a single adult fleeing a dangerous situation; now, therefore, be it

Resolved, That the Council of the City of New York calls on the State Legislature to pass, and the Governor to sign, A.2381/S.5471, authorizing shelters for victims of domestic violence to be reimbursed for any payment differential for housing a single individual in a room intended for double occupancy.

A Local Law to amend the administrative code, in relation to requiring the fire department to report annually on emergency medical services personnel resignations

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 15 of the administrative code of the city of New York is amended by adding a new section 15-140 to read as follows:

§ 15-140 Report on emergency medical services personnel resignations. a. Definitions. For purposes of this section, the term “bureau” means the bureau of emergency medical services within the department.

b. Report required. 1. No later than March 1, 2020, and annually thereafter, the commissioner shall, in consultation with the commissioner of citywide administrative services, submit to the speaker of the council and post permanently on the department’s website a report on the individuals who resign from the bureau in the prior two calendar years.

2. The report shall include information on each unique occurrence of an individual resigning from employment in the bureau, including, where reasonably ascertainable:

(a) The job title of the individual;

(b) The final salary of the individual;

(c) The length of employment of the individual;

(d) The date of the individual’s resignation; and

(e) Within a year of resignation, whether the individual is employed by a city agency, state agency, Nassau county agency, or Suffolk county agency.

3. Any information required by paragraph 2 of this subdivision that is not ascertainable shall be indicated as such on the report.

4. In addition to the information required by paragraph 2 of this subdivision, the report shall include the number of bureau employees who took a departmental promotional exam during the prior two calendar years, and if so, which exam.

§ 2. This local law takes effect immediately.

Res. No. 1062

Resolution calling for the salaries of New York City emergency medical service personnel to be comparable to New York City’s firefighters and police officers.

By Council Members Miller, Cumbo, Adams, Chin, Rosenthal, Borelli, Rodriguez, Moya, Kallos, Koo, Ayala, Brannan, Holden, Ampry-Samuel, Lander, Cabrera and Constantinides.

Whereas, The brave men and women who serve the Fire Department of New York’s (“FDNY”) Bureau of Emergency Medical Services (“EMS”) respond to life threatening injuries and medical emergencies, helping to ensure the well-being of the residents of New York City, as well as those who work in and visit the City; and

Whereas, EMS is one of the most diverse groups of first responders in the City’s workforce, comprised of approximately 30% women and more than 50% minorities; and

Whereas, During Fiscal Year 2018, there were approximately 4,400 EMS personnel on staff which were charged with responding to more than 1.5 million medical emergencies including nearly 569,000 life-threatening incidents; and

Whereas, EMS runs account for more than 80% of the FDNY’s annual emergency calls; and

Whereas, These emergency medical service personnel respond to every major life threatening emergency that occurs in the City; and

Whereas, These emergencies include hazardous materials incidents, building collapses, transportation accidents, utility-related emergencies, natural disasters, extensive medical responses and acts of terrorism, throughout the City; and

Whereas, According to the FDNY, EMS Emergency Medical Technicians (“EMT”) receive a starting salary of \$35,254, which increases to only \$50,604 after 5 years; and

Whereas, Additionally, EMS Paramedics receive a starting salary \$48,237, which increases to only \$65,226 after five years; and

Whereas, Starting salaries of the City’s police officers and firefighters are nearly \$8,000 more than that of EMS; and

Whereas, After five years of service, FDNY firefighters make approximately \$110,000 including fringe benefits; and

Whereas, It is long overdue for the City to ensure that EMTs, Paramedics and EMS Officers are compensated fairly and offered substantial wage increases to ensure they are paid similar to other first responders; and

Whereas, Remedying this long-standing pay disparity would help provide equality among EMS and other emergency medical personnel in the New York City as well as boost moral for our City's Best; now, therefore, be it

Resolved, That the Council of the City of New York calls for the salaries of New York City emergency medical service personnel to be comparable to New York City's firefighters and police officers.

A Local Law to amend the administrative code of the city of New York, in relation to establishing maximum rates for the leasing, rental, lease-to-own and conditional purchase of for-hire vehicles

Be it enacted by the Council as follows:

Section 1. Section 19-553 of the administrative code of the city of New York, as added by local law number 43 for the year 2019, is amended to read as follows:

§ 19-553 Leasing, rental and conditional purchase of for-hire vehicles. a. The commission shall promulgate consumer protection and disclosure rules regarding leasing, rental, lease-to-own, and conditional purchase arrangements to obtain a for-hire vehicle for use with a license issued by the commission. Such rules may differ for different types of financial arrangements and different lengths of time of such arrangements. In promulgating such rules, the commission shall at a minimum consider the following:

1. A requirement that financial arrangements be in writing and signed by the lessor and lessee, with a copy provided to the lessee upon execution and upon lessee request;
2. Requiring that all terms must be written in clear and unambiguous language;
3. A requirement that the terms of the arrangement include:
 - (a) The beginning and end date of the arrangement;
 - (b) All costs and fees that may be charged under the arrangement, with costs for additional services such as insurance and licensing clearly indicated; and
 - (c) An explanation of the conditions that will result in the imposition of any cost or fee;
4. A requirement that if the arrangement includes charges for licensing the vehicle with the commission, the arrangement must provide an itemized explanation of the costs associated with such licensing, to include the amount of any fee imposed by the commission; and
5. Requiring that arrangements provide notice of appropriate mechanisms for reporting complaints regarding overcharges.

b. The commission shall establish maximum rates for the leasing, rental, lease-to-own and conditional purchase of vehicles that are licensed as for-hire vehicles.

[b.] c. The commission may deny an application for a license for a vehicle subject to a leasing, rental, lease-to-own or conditional purchase arrangement if such leasing, rental, lease-to-own or conditional purchase arrangement does not comply with the rules of the commission.

[c.] *d.* Requirements imposed by the rules promulgated pursuant to this section shall apply only to leasing, rental, lease-to-own and conditional purchase arrangements executed after the effective date of the local law that added this section.

§ 2. This local law takes effect 120 days after it becomes law, except that the commission shall take such measures as are necessary for the implementation of this local law, including the promulgation of rules, before such date.

Res. No. 1063

Resolution calling on the New York State 1115 Medicaid Redesign Team to include a proposal to provide 15 days of full Medicaid coverage for individuals admitted to City jails to ensure that all justice-involved individuals maintain critical healthcare.

By Council Members Powers, Chin, Ayala, Lander, Cornegy and Barron.

Whereas, Since 1997, the New York State Medicaid Redesign Team Waiver has regularly proposed reforms to the state’s Medicaid program to ensure that it is sustainable and serves the most vulnerable New Yorkers possible; and,

Whereas, Goals for the waiver include improving access to, and the quality of, healthcare for Medicaid populations and expanding coverage to additional low-income New Yorkers through resulting efficiencies; and,

Whereas, The last plan, developed with stakeholder and resident engagement, has been in effect since 2016 and expires on March 31, 2021; and,

Whereas, New York State is required to submit an updated 1115 Medicaid Waiver application by September 30, 2020, and the State’s 1115 Medicaid Redesign Team has begun convening stakeholder meetings related to drafting the proposed plan; and,

Whereas, In 2019, as part of his 2020 Justice Agenda, Governor Cuomo announced that the waiver application would focus on improving healthcare provided to justice-involved populations; and,

Whereas, A key element of the waiver currently under development proposes to “provide Medicaid services to certain higher-risk incarcerated individuals during the 30-day period prior to release;” and,

Whereas, While Medicaid healthcare coverage is available to low-income New Yorkers at 138% of the Federal Poverty Line, incarceration currently renders an individual ineligible for Medicaid, under the “inmate exclusion;” and,

Whereas, Often, a key element of rehabilitation post-incarceration is critically needed healthcare that is unaffordable or unattainable without Medicaid coverage; and,

Whereas, Despite significant reductions in New York State and City incarceration populations over time, the State and City still incarcerate over 77,000 individuals on any given day, with 22,000 people leaving State prisons, and close to 80,000 people leaving City jails every year; and,

Whereas, Sixteen percent of the population in New York City jails are diagnosed with a severe mental illness, and thousands more have substance use disorders, including opiate use disorders, and other chronic health conditions such as HIV; and,

Whereas, An exception to the “inmate exclusion” would ensure that incarcerated populations would not experience gaps in critical coverage and services; and,

Whereas, Due to the fact that 62% of incarcerated individuals spend less than thirty days in City jails before returning to their communities; and,

Whereas, Any gap in Medicaid coverage, however minimal, can be detrimental to the rehabilitation of justice-involved-New Yorkers; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State 1115 Medicaid Redesign Team to include a proposal to provide 15 days of full Medicaid coverage for individuals admitted to City jail to ensure that all justice-involved individuals maintain critical healthcare.

§ 3. This local law takes effect 120 days after it becomes law, provided, however, that the administering agency, as defined in section 24-154 of the administrative code of the city of New York, may take all actions necessary for its implementation, including the promulgation of rules, before such date.

(d) If the vacancy occurs during the first three years of a term and such first Tuesday falls 30 or fewer days before a primary election, the vacancy shall be filled at a special election that occurs on the same day as such primary election.

5. Term. A person elected to fill a vacancy pursuant to this subdivision shall take office immediately upon qualification and serve the remainder of the unexpired term.

§ 6. Section 91 of the New York city charter is REPEALED and a new section 91 is added to read as follows:

§ 91. *Election; term; salary; vacancy.*

a. The comptroller shall be elected by the electors of the city at the same time and for the same terms as prescribed for the mayor, except as provided pursuant to subdivision d of this section.

b. A comptroller who resigns or is removed from office prior to completion of a full term shall be deemed to have served a full term for purposes of section 1138.

c. The salary of the comptroller shall be \$209,050 per year.

d. Any vacancy in the office of the comptroller shall be filled by popular election in the manner set out in this subdivision.

1. Succession in interim. If the first deputy comptroller is unable to act as comptroller because of illness or absence, the second deputy comptroller shall act as comptroller. 4. Holding of special election. (a) Any vacancy shall be filled by special election when the vacancy occurs (i) during the first three years of a term or (ii) in the fourth year of a term if there are more than 90 days between the occurrence of the vacancy and the date of the primary election.

(b) If a vacancy occurs in the fourth year of a term and there are fewer than 90 days between the occurrence of the vacancy and the date of the primary election, the vacancy shall not be filled by special election. In such case, the person elected at the general election in such year for the next succeeding term shall take office immediately upon qualification and serve the remainder of the unexpired term.

5. Scheduling. A special election to fill a vacancy shall be held on the first Tuesday at least 45 days after the occurrence of the vacancy, provided that the mayor, in the proclamation required by paragraph 2 of this subdivision, may schedule such election for another day no more than 10 days after such Tuesday and no less than 40 days after the proclamation if the mayor determines that rescheduling is necessary to facilitate maximum voter participation; except that:

(a) If the vacancy occurs before September 20 and such first Tuesday is less than 90 days before a regularly scheduled general election or between a primary and a general election, the vacancy shall be filled at a special election that occurs on the same day as such general election;

(b) If the vacancy occurs before September 20 and such first Tuesday is after a regularly scheduled general election, the vacancy shall be filled at a special election that occurs on the same day as such general election;

(c) If the vacancy occurs on or after September 20 and such first Tuesday is less than 30 days after a regularly scheduled general election, the vacancy shall be filled at a special election to be held on the first Tuesday in December in such year; and

(d) If the vacancy occurs during the first three years of a term and such first Tuesday falls 30 or fewer days before a primary election, the vacancy shall be filled at a special election that occurs on the same day as such primary election.

6. Term. A person elected to fill a vacancy pursuant to this subdivision shall take office immediately upon qualification and serve the remainder of the unexpired term.

§ 7. Subdivision c of section 94 of the New York city charter is REPEALED.

§ 8. This local law takes effect immediately after it is submitted for the approval of the qualified electors of the city at the next general election held after its enactment and is approved by a majority of such electors voting thereon.

Res. No. 1064

Resolution calling upon the New York State Legislature to pass and the Governor to sign the A1436/S222, the Separation of Children Accountability Act (SCAR), which would require agencies and contractors with the state to disclose information about the unaccompanied children in their care every 15 days.

By The Public Advocate (Mr. Williams) and Council Members Rosenthal, Levin and Chin.

Whereas, In January 2017, a coalition of advocacy organizations including the American Immigration Council filed a complaint with the Department of Homeland Security (DHS) regarding the systematic refusal and denial of entry to asylum seekers at border crossings into the United States; and

Whereas, Shortly thereafter, the Trump Administration cancelled the Central American Minors Program (CAM) which had been started in November 2014 under President Obama to allow parents lawfully in the United States to apply for refugee or parolee status for their children residing in El Salvador, Guatemala and Honduras due to the rising insecurity and the prevalence of widespread violence and gang activity in the region; and

Whereas, The Trump Administration considered establishing family separation policies as a deterrent to immigration weeks after his inauguration in January 2017 and the policy was formally announced by Attorney General Jeff Sessions on April 6, 2018, which directed federal prosecutors to the adoption of a “zero-tolerance policy for all offenses” related to improper entry into the United States despite the objections and concerns expressed by over 200 child welfare organizations, the American Academy of Pediatrics and the American Civil Liberties Union among many others; and

Whereas, The policy enacted by the Trump Administration lacked a reunification plan for the families it separated and did not accurately track the children removed from their families, which exacerbated a humanitarian crisis that continues to persist today, nearly a year after the formal ending of the program with the signing of an executive order on June 20, 2018; and

Whereas, Under the policy more than 2,737 children were separated from their parents and between March and July 2018 and it is likely that thousands more were separated prior to the Federal District Court ordered accounting of the children in June 2018, according to the Office of Refugee Resettlement; and

Whereas, The Department of Health and Human Services admits in a January 2019 report on separated children placed in their care, the challenge of identifying and locating children due to the lack of an “existing, integrated data system to track families” across federal agencies and therefore, the total numbers and whereabouts of separated children will likely never be fully known; and

Whereas, According to Mayor de Blasio in June 2018, the Cayuga Center in Harlem, an organization that provides services for temporary foster and unaccompanied children, had at least 243 children come through their program from federal custody with smaller numbers of children at other agencies in the city and the Department of Health and Human Services and Department of Homeland Security resisted providing more information to local officials about the children sent to New York City; and

Whereas, The Separation of Children Accountability Act (SCAR) would require the reporting on numbers of separated children in the custody of and being released from the care of facilities in New York State every 15 days, so that advocates and policy makers can have the information they need to effectively assist these children; now, therefore, be it

Resolved, The New York City Council calls upon the New York State Legislature to pass and the Governor to sign the A1436/S222, the Separation of Children Accountability Act (SCAR), which would which would

require agencies and contractors with the state to disclose information about the unaccompanied children in their care every 15 days.

Section 1. Subdivision (e) of section 24-223 of the administrative code of the city of New York, as added by local law number 113 for the year 2005, is amended to read as follows:

(e) Authorization for after hours construction work may only be issued in the following circumstances:

(1) Emergency work. Agencies shall authorize such after hours construction work for emergency conditions, inside or outside the property line, involving a threat to public safety or causing or likely to cause the imminent interruption of service required by law, contract or franchise. An emergency authorization issued pursuant to this paragraph shall expire as determined by the agency but no later than the [ninetieth] *fifteenth* day after its issuance and shall be renewable in accordance with agency procedures while the emergency continues.

(2) Public safety. Agencies may authorize such after hours work, inside or outside of the property line, where the agency determines that the work cannot reasonably or practicably be performed on weekdays between the hours of 7 a.m. and 6 p.m. because of traffic congestion and/or concern for worker and/or public safety. An authorization issued pursuant to this paragraph shall [expire, as determined by the agency, but] *expire after a number of days that the commissioner of environmental protection shall, in consultation with the commissioner of buildings, establish by rule for the type of work involved, provided that such authorization shall expire no later than the [ninetieth] fifteenth day after its issuance and shall be renewable in accordance with [agency procedures] subdivision (f) of this section.*

(3) [City] *Government* construction projects. Agencies may authorize after hours work (i) by or on behalf of *federal, state or city agencies* for projects that are judicially mandated or the subject of consent orders and/or where a project is necessary in the public interest including but not limited to facilities, equipment, and infrastructure for the provision of water, sewerage, sanitation, transportation, *public utilities* and other services necessary for the health or safety of the public *and (ii) by or on behalf of educational institutions.* An authorization issued pursuant to this paragraph for a government construction project shall remain in effect for the duration of the project.

(4) Construction activities with minimal noise impact. The commissioner shall promulgate rules setting forth a list of construction activities with minimal noise impact and specific noise mitigation measures applicable to such activities. Agencies may authorize the performance of such construction activities after hours in accordance with such rules.

(5) Undue hardship. [Agencies] *Subject to the requirements of subdivision (f) of this section, agencies* may authorize after hours work if the commissioner certifies that the permit holder has substantiated a claim of undue hardship resulting from unique site characteristics, unforeseen conditions, scheduling commitments and/or financial considerations outside the control of the permit holder and that the applicant has received approval from the department of an alternative noise mitigation plan pursuant to section 24-221 of this subchapter, specifying the activities and devices that will be used for such after hours construction and setting forth the additional mitigation measures, above and beyond those measures otherwise required for such devices and activities pursuant to the department's rules, that the applicant will use to significantly limit noise emissions from

the site of such after hours work. Applications for such certification shall be submitted to the department in a form and manner to be set forth in the rules of the department. The applicant for an after hours authorization under this paragraph shall submit such certification to the issuing agency.

§ 2. Section 24-223 of the administrative code of the city of New York is amended by adding a new subdivision (f) to read as follows:

(2) An applicant seeking an authorization for after hours construction pursuant to paragraph (5) of subdivision (e) of this section or renewals of after hours construction work permits pursuant to paragraph (2) of such subdivision shall be required to include in their application, and the agency that provides such authorization must post on their website:

(3) (A) Pursuant to rules set forth by the department, after submitting an application for authorization for after hours construction, the commissioner shall issue a written notification to such applicant that approves, denies or otherwise amends the days sought by such applicant for such after hours construction. The commissioner shall also provide an explanation of such denial or amendment to such applicant.

(B) Where such applicant submits a request for an authorization for after hours construction and the commissioner has issued an authorization to a prior applicant for after hours construction to occur on the same or adjacent block on a date to occur after such submission, the commissioner may only issue the authorization for after hours construction to such present applicant for after hours construction to occur on the same date as the previously issued authorization that was granted to the prior applicant. Such applicant may appeal such decision in writing within 10 days that such decision was issued by the commissioner.

(4) No later than December 1, 2020 and by December 1 every year thereafter, the department shall submit a report to the mayor and the council on the issuance of authorizations for after hours construction. Such report shall, for the immediately preceding fiscal year include, but not be limited to:

(B) The location for each project for which an authorization for after hours construction was issued by the department;

(C) The permitted length of time for each authorization for after hours construction that was issued by the department;

(D) A description of any violation of the terms of an authorization for after hours construction by an applicant, the identifying information of such applicant and the penalties, if any, issued to such applicant; and

(E) The number of complaints, received for each project for which an authorization for after hours construction was issued by the department, received through the 311 citizen service center or other means.

§ 3. Section 28-104.2.7.1 of the administrative code of the city of New York, as amended by local law number 10 for the year 2016, is amended to read as follows:

§ 28-104.2.7.1 Notification of approval. applicants during the prior week, disaggregated by community board. In addition, the department shall post such information on its website on a weekly basis.

Res. No. 1065

Resolution calling on American Airlines and Delta Air Lines to ensure that airline catering workers serving their flights at John F. Kennedy International Airport (JFK) and LaGuardia Airport (LGA) are adequately compensated and have access to affordable, high-quality health insurance.

By Council Members Rodriguez, Levine, Lander, Miller, Grodenchik, Menchaca, Dromm, Rosenthal, Constantinides, Reynoso, Kallos, Van Bramer, Richards, Ayala, Chin and Cabrera.

Whereas, The airline industry currently helps drive \$1.5 trillion in United States (U.S.) economic activity and more than 10 million U.S. jobs, according to Airlines for America; and

Whereas, American Airlines and Delta Air Lines are among the largest airline companies in the U.S. and world, with American Airlines reporting an annual net income of \$1.412 billion for 2018 and a quarterly net income of \$662 million for the quarter ending June 30, 2019, and Delta Air Lines reporting an annual net income of \$3.935 billion for 2018 and a quarterly net income of \$1.443 billion for the quarter ending June 30, 2019, according to Macrotrends LLC; and

Whereas, Although American Airlines and Delta Air Lines have reported substantial net incomes and profits, many of their catering workers, who prepare and transport food and beverages that passengers consume on flights, are underpaid and lack substantial benefits, including affordable, high-quality health care, according to a 2019 Bloomberg Law article; and

Whereas, As a result, unions including UNITE HERE, the International Brotherhood of Teamsters and the Retail, Wholesale and Department Store Union, who collectively represent more than 25,000 airline catering workers, have continually fought for better wages, more affordable healthcare and better working conditions, generally from the two largest airline catering subcontractors in the world: LSG Sky Chefs and Gate Gourmet; and

Whereas, To exemplify these inequities, according to a July 2019 letter from UNITE HERE to the National Mediation Board, over 60% of LSG Sky Chefs employees, which largely serve American Airlines' and Delta Air Lines' flights, earn less than \$15 per hour and have healthcare premiums of over \$500 per month for family coverage; and

Whereas, As of August 2019, more than 70% of workers who cater John F. Kennedy International Airport's (JFK) American Airlines' and Delta Air Lines' flights were paid the state minimum wage, including dozens of workers who have been in their jobs for 30 years or longer, according to a March 2019 Issue Brief by UNITE HERE; and

Whereas, In addition, a UNITE HERE survey of 85 JFK airline catering workers showed that 14% reported they were enrolled in Medicaid, 45% reported they were enrolled in a government subsidized plan and 20% reported having no health insurance at all; and

Whereas, The lack of affordable health coverage among JFK airline catering workers is further compounded due to the fact that only 26% of workers who cater for American Airlines' and Delta Air Lines' flights out of JFK had employer provided health insurance in 2018, with less than 5% having a child or family member covered, according to UNITE HERE; and

Whereas, To address these glaring inequities, in June 2019, about 11,000 airline catering workers voted to authorize a strike, and on July 26, 2019, UNITE HERE asked for formal approval to be released from mediation from the National Mediation Board (NMB), which is the federal agency that oversees labor relations in the aviation sector; and

Whereas, The NMB now has to rule on whether they should release the parties from their collective bargaining agreements or risk the possibility that thousands of airline catering workers go on strike, which would be catastrophic to the airline industry; and

Whereas, For JFK and LaGuardia Airport (LGA), which are both located in the borough of Queens, and service a large number of American Airlines' and Delta Air Lines' flights, potentially more than 1,200 airline caterer workers would strike, according to the Daily News; and

Whereas, As the City of New York owns JFK and LGA, which are hubs for both American Airlines and Delta Air Lines, and leases them to the Port Authority of New York and New Jersey, the City has an interest in maintaining efficient airport operations and thus, ensuring that airline caterer workers are provided good wages and comprehensive benefits with affordable, high-quality health insurance; now, therefore, be it

Resolved, That the Council of the City of New York calls on American Airlines and Delta Air Lines to ensure that airline catering workers serving their flights at John F. Kennedy International Airport (JFK) and LaGuardia Airport (LGA) are adequately compensated and have access to affordable, high-quality health insurance.

Res. No. 1066

Resolution urging New York State to reduce the length of time caretakers, parents or legal guardians remain on the Statewide Central Registry list.

By Council Members Rose, Levin, Chin, Ayala and Lander.

Whereas, The Federal Child Abuse Prevention and Treatment Act defines child abuse and neglect as "any recent act or failure to act on the part of a parent or caretaker, which results in death, serious physical or emotional harm, sexual abuse or exploitation, or an act or failure to act which presents an imminent risk of serious harm;"

and

Whereas, The New York City Administration for Children’s Services (ACS) expands the definition of child physical abuse to when a parent or caretaker inflicts or allows someone to inflict serious physical injury other than by accidental means; and

Whereas, ACS defines neglect as the failure of a parent or caretaker to provide needed food, clothing, shelter, medical care, or supervision to the degree that the child’s health, safety, and well-being are threatened with harm, including failure to support a child’s educational needs, failure to provide medical or mental health care and exposing a child to family violence; and

Whereas, Reports of abuse and neglect are made to Statewide Central Register of Child Abuse and Maltreatment (SCR), maintained by the New York State Office of Children and Family Services; and

Whereas, SCR staff decide whether a report should be investigated and relay information from the reports to the local child protective services for investigation, which is ACS in New York City; and

Whereas, According to ACS data, the large majority of allegations are for neglect (65%), while 15% are for substance abuse and 10% are for physical abuse; and

Whereas, Of the 59,166 investigations that ACS conducted in Fiscal Year 2018, approximately 38% found credible evidence of abuse or neglect; and

Whereas, If ACS finds some credible evidence of abuse or neglect, ACS will mark the report as “indicated;” and

Whereas, Pursuant to New York State law, indicated reports made to the SCR are kept on record until the youngest child in the family at the time of the investigation turns 28 years old; and

Whereas, Even if a child was not removed from the home and the case was closed, a parent may still have a report against them in the SCR; and

Whereas, Child care employers, foster care and adoption agencies may be notified of indicated reports; and

Whereas, In addition, the police, district attorneys, child welfare agencies, and judges have access to this information; and

Whereas, An indicated report may prevent an individual from getting a job in child care, volunteer work with children, becoming a foster parent, adopting a child, and may even mean losing custody of a child; and

Whereas, If ACS finds that there is no credible evidence in a report, it will be marked as “unfounded” and will be sealed; and

Whereas, A sealed case is not available to employers or licensing agencies that involve the care of children and will be expunged after 10 years; and

Whereas, Other jurisdictions maintain SCR records for a significantly less amount of time; and

Whereas, For indicated cases, states such as Illinois, Iowa, and Kansas allow a record to be expunged from the central registry after 5 years with certain stipulations; and

Whereas, For unfounded cases, records are immediately expunged from the registry in American Samoa, Colorado, Delaware, District of Columbia, Illinois, Hawaii, Michigan, New Jersey, South Carolina, and Wyoming; and

Whereas, According to child welfare and parent advocates, ACS investigations target low-income families, especially women of color and those with a history of domestic violence, who may be disproportionately impacted by the SCR report for at least 28 years; and

Whereas, Maintaining an SCR record until the youngest child turns 28 years old seems severely punitive, thus limiting employment opportunities that may cause families to remain in poverty and putting them at risk of ongoing child welfare involvement; now, therefore, be it

Resolved, That the Council of the City of New York urges New York State to reduce the length of time caretakers, parents or legal guardians remain on the Statewide Central Registry list.
