INVOCATION

The Invocation was delivered by Rabbi Yossi Blesofsky who serves as the spiritual leader of Chabad Lubavitch of Northeast Queens located at 212-12 26th Avenue, Bayside, New York 11360.

Thank you to my dear friend, Councilman Paul Vallone,
for inviting me here today
at the request of Speaker Johnson
to deliver the invocation.

Today's invocation is especially momentous
as it is ushering in 2020.

I feel privileged to be here,
particularly as a Chabad Lubavitch Rabbi
due to the very special connection
between Chabad Lubavitch and New York City
going back to 1940 when New York
was chosen as the headquarters for the movement
and the Grand Rebbe Rabbi Schneerson
took up his residence in Brooklyn.

Almighty God, master of the universe,
the members of this august body, the New York City Council,
convene here from across the great City of New York
to conduct the people's business
in good faith and with selfless dedication.

In so doing, they fulfill a fundamental precept,
which according to sacred biblical tradition you first issued
to Adam at the time of his creation and to Noah after the Great Flood,
the Commandment to govern by just laws.

We the citizens of this blessed country, the United States of America,
proudly proclaim this recognition and affirm our commitment to justice
in the pledge of allegiance when we describe our union
as one nation under God, indivisible with liberty and justice for all.

This coming Sunday evening,
Jewish people the world over begin celebrating Chanukah.

Chanukah, the Festival of Lights, recalls the victory
more than 2,000 years ago of the militarily weak,
but spiritually strong Jewish people
over the mighty forces of a ruthless enemy
that had overrun the Holy Land
and threatened to engulf the land and its people in darkness.

The miraculous victory has been celebrated annually
ever since during these eight days of Chanukah
especially by lighting the menorah.

Light is one of the most powerful creations of God.

A little bit of light dispels a lot of darkness.

Indeed, while a single candle might seem weak,
unable to accomplish much,

it has the power to illuminate and overcome the forces of darkness,
something so critical in these uncertain times.

Almighty God, you have chosen each and every Council Member
and granted them power and authority.

We ask you to guide them with your light.

Let them connect to your illumination
to become beacons of light to their communities.
May they become sources of inspiration for their constituents,
that they too can bring light
to their homes, their families and their surroundings.
May we all be empowered to remember
the potential that you have given us,
and may none of us underestimate the power
of one light, one *mitzvah*, one good deed.
We beseech you almighty and merciful God to extend your grace
to each and every member of this body and bestow upon them
the joy of life, good health and prosperity
so together they can bring life to this great city.
And let us all say,
Amen.

Council Member Vallone moved to spread the Invocation in full upon the record.

During the Communication from the Speaker segment of this Stated Meeting, the Speaker (Council Member Johnson) asked for a Moment of Silence in memory of the innocent individuals who were killed in an anti-Semitic hate crime that took place on December 10, 2019 in Jersey City, New Jersey:

Jersey City Detective Joseph Seals, 40, was shot and killed at a cemetery while protecting the city he served and cared about it. On behalf of the Council, the Speaker (Council Member Johnson) offered his condolences to his family.

Moshe Deutsch, 24, a Brooklyn resident who was visiting Jersey City, was killed later that day at the attack on a kosher supermarket. The Speaker (Council Member Johnson) spoke of his *shiva* call that he made with Council Member Levin to the Deutsch family in Williamsburg. On behalf of the Council, he offered his hearts and prayers to the family and to the entire Williamsburg community.

Mindy Ferencz, 32, one of the owners of the kosher supermarket, was gunned down and killed by the domestic terrorists behind the attack. On behalf of the Council, the Speaker (Council Member Johnson) offered his thoughts and prayers to Ms. Ferencz's family.

An immigrant Ecuadorian employee at the kosher supermarket was also shot and killed. This forty-nine year old individual, Douglas Miguel Rodriguez, sacrificed his life to save a young Jewish man by leading him out a supermarket back door. On behalf of the Council, the Speaker (Council Member Johnson) professed his honor for these four shooting victims and expressed his sympathies with their families.

The Speaker (Council Member Johnson) also acknowledged the fifth anniversary of the murders of NYPD Detectives Wen-jian Liu and Rafael Ramos. They were killed in the line of duty in a targeted assassination that took place on December 20, 2014. On behalf of the Council, the Speaker (Council Member Johnson) offered his sympathies to the grieving families. He expressed his gratitude for the service of the two late Detectives and for the service of every member of the Police Department who risk their lives to protect us every day.

At this point, a Moment of Silence was observed in the Chambers.

BACKGROUND

Extension of City Health Insurance Coverage

Generally, when New York City municipal employees pass away in the course of duty, local law allows for the City to extend health insurance coverage to the surviving family members of the former employee.¹ At this time, the law allows specifically for the "surviving spouses, domestic partners and children" of police officers, firefighters, and other uniformed employees, such as Department of Sanitation workers, to benefit from this policy.² The City has historically extended this health insurance coverage to the surviving family members of deceased uniformed municipal employees at the discretion of the Mayor and specifically by adding provisions to the local law that award these benefits to individual city employees who have passed away in the course of duty.³ Municipal employees who are not uniformed do not have this benefit extended to them or their family members.

Recently, two municipal employees have passed away in the course of duty for New York City. On September 24, 2019, Mathew Jakubowski, a member of the Department of Sanitation, passed away on the job,⁴ and on October 22, 2019, Eduardo Calle-Abril, an employee of the Department of Transportation, also passed away while on duty.⁵ Int. Nos. 1786 and 1810, heard and voted on December 17, 2019, would honor these two employees by extending health insurance benefits to their surviving family members.

Workers' Compensation

Workers' compensation is insurance that provides cash benefits and/or medical care for workers who are injured or have become ill as a result of their job.⁶ Under New York State's Worker Compensation Law,

virtually all employers in New York State must provide workers' compensation coverage for their employees.⁷ The New York State Workers' Compensation Board processes and handles the claims of employees who have become injured or ill due to their job.⁸ As the workers' compensation system is a form of no-fault insurance, employees have a right to receive workers' compensation benefits, however an employee usually cannot sue an employer for an injury if such a policy is in place.⁹

New York City, as mandated by Local Law 41 of 2004, requires that a report concerning workers' compensation claims by City employees be compiled annually and be transmitted to the Mayor, the Comptroller, the Public Advocate and the Speaker of the Council.¹⁰ The most recently received report for calendar year 2018, in accordance with Section 12-127 of the Administrative Code, includes a breakdown of the expenses paid, a list of specific claims for each agency, as well as specific types and locations of injuries, with year-to-year comparisons of the information from 2005 through 2018.¹¹ For calendar year 2018:

- A total of 18,131 new claims were received, representing a decrease of 2.5% in claims when compared with 2017 for claims filed in that year;
- The total amount paid in 2018 with respect to these claims was \$24.9 million, of which includes \$15.9 million for wage replacement and \$8.9 million for medical costs, totaling a decrease of 3% when compared with payments made in 2017;
- The largest numbers of claims came from the following five agencies: Department of Correction (5,350), Department of Education (3,150), Health + Hospitals Corporation (3,114), FDNY (1,690) and Police Department (1,112); totaling approximately 80% of all claims made in 2018;
- The leading agencies in terms of cost were: Department of Transportation (\$4.9 million), Department of Correction (\$4.4 million), Health + Hospitals Corporation (\$3.7 million), Department of Education (\$2.4 million) and Police Department (\$1.6 million); totaling approximately 68% of payments made on the cases reported.¹²

ANALYSIS OF INT. NO. 1786

Int. No. 1786 would extend health insurance coverage to surviving family members of deceased municipal employees working for the Bureau of Motor Equipment of the Department of Sanitation who died between September 23, 2019 and September 25, 2019 and who died as a natural or proximate result of an accident or injury sustained while performing their duties for the city. The bill amends previous language that allowed these survivorship benefits to pass to the surviving spouses, domestic partners, and children of certain enumerated municipal employees who also died as a natural or proximate result of an accident or injury sustained while performing duties for the city.

This bill would take effect immediately and be retroactive to September 23, 2019.

ANALYSIS OF INT. NO. 1810

Int. No. 1810 would extend health insurance coverage to surviving family members of deceased municipal employees working for Roadway Repair and Maintenance Division or the Bridges Division of the Department of Transportation who died between October 21, 2019 and October 23, 2019 and who died as a natural or proximate result of an accident or injury sustained while performing their duties for the city. The bill amends previous language that allowed these survivorship benefits to pass to the surviving spouses, domestic partners,

This bill would take effect immediately and be retroactive to October 22, 2019.

ANALYSIS OF INT. NO. 1604-B

The legislation would amend the Administrative Code of the City of New York regarding reporting on data regarding workers' compensation to include the collection of more data. Under the legislation, the report would be issued by the City Law Department, instead of the Mayor, and include additional detailed information regarding occupational diseases in addition to workplace physical injuries. The new reporting requirements would be more granular in detail and require the reporting of the type and cost of workers' compensation claims; use of modified duty assignments; and use of disability transfers.

The legislation will also require every City agency to develop, implement and report an annual accident and illness prevention program designed to reduce injuries and illnesses identified in the report and for the Mayor to develop initiatives that the City can take to mitigate workplace injuries and illnesses. Finally, the report, which is currently required to be sent to the Comptroller, Public Advocate and Speaker of the Council, would also be distributed to every Council Member.

The legislation would take effect 120 days after it becomes law.

Since introduction, the language of the bill has been amended to combine previous paragraphs 2 and 3 into one paragraph for cohesion and to adjust what granular information is and is not collected, such as no longer collecting information on modified duty assignments. The bill has also been amended to add a clause to ensure confidentiality of workers when workers' compensation information is gathered and reported to the Council and Mayor.

ANALYSIS OF RES. 40-A

The resolution would call for employees of the City of New York who are injured on the job to receive the various Federal, State and City benefits that they are entitled to receive. As confirmed by case law from 2008, NYCERS has the sole independent authority to determine eligibility for disability retirement based on the system's Medical Board's analysis and determination. However, it is possible for injured workers who are classified as "disabled" by the state and federal governments and who receive benefits from the New York State Workers' Compensation Board and the U.S. Social Security Administration, to simultaneously be denied disability retirement by NYCERS.

This resolution would call for NYCERS to determine that members are disabled for purposes of disability pensions, if the Workers' Compensation Board determines that a members has a permanent partial disability, and the U.S. Social Security Administration determines that a member is disabled for gainful (work) activity, and approved for social security disability benefits.

Report of the Committee on Education in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to requiring the department of education to provide district-level data regarding compliance rates for students' individualized education programs.

The Committee on Education, to which the annexed proposed amended local law was referred on February 14, 2018 (Minutes, page 789), respectfully

REPORTS:

INTRODUCTION

On Tuesday, December 17, 2019, the Committee on Education, chaired by Council Member Mark Treyger, held a vote on *Proposed Introduction Number 559-A*, sponsored by Council Member Treyger, *Proposed Introduction Number 900-A*, sponsored by Council Member Kallos, *Proposed Introduction Number 1380-A*, sponsored by Council Member Rosenthal, *Proposed Introduction Number 1406-A*, sponsored by Council Member Dromm, and *Proposed Resolution Number 749-A*, sponsored by Council Member Mark Treyger. The legislation was previously heard on February 25, 2019. At that hearing, the Committee heard testimony from the Department of Education (DOE), parents, students, educators, advocates, unions, and other members of the public. On December 17, 2019, the Committee passed Proposed Introduction Number 559-A, Proposed Introduction Number 900-A, Proposed Introduction Number 1380-A, Proposed Introduction Number 1406-A and Proposed Resolution Number 749-A by a vote of sixteen in the affirmative, zero in the negative, with zero abstentions.

BACKGROUND

Students with disabilities comprise a large and growing portion of the New York City public school population. In the 2013-14 school year, there were 205,793 students with disabilities, including both school-age and pre-school students, representing 18.6 percent of the City's public school enrollment.¹ By 2017-18 the number of students with disabilities in City public schools increased to 224,160 representing 19.7 percent of

enrollment.²

Many students with disabilities are not receiving all of the services to which they are entitled. According to the DOE's latest data report, in the 2017-18 school year, 78.4 percent of school-aged students with individualized education programs (IEPs) in DOE schools fully received their recommended services, while 19.1 percent received partial services and 2.5 percent received none of their recommended services.³ It's important to note that this data does not include pre-school students with disabilities or those in charter schools, transfer and alternative high schools.⁴

Although there has been some improvement in the performance of students with disabilities in recent years, there is still a wide achievement gap with non-disabled students. On the 2018 State English Language Arts (ELA) exam, only 15.8 percent of City students with disabilities in grades 3 through 8 scored at or above proficient (up from 5.7 percent in 2013), compared to 55.2 percent for their non-disabled peers (up from 31.3 percent in 2013).⁵ Similarly, on the 2018 state math test, only 15.4 percent of students with disabilities in grades 3 through 8 scored at or above proficient (up from 8.4 percent in 2013), compared to 50.3 percent for non-disabled students (up from 34.6 percent in 2013).⁶

Graduation rates for students with disabilities in City schools have also historically been much lower than those for their peers in general education. According to DOE, in 2018, only 50.4 percent of students with disabilities graduated within four years of entry into high school (up from 37.5 percent in 2013), compared to 81.6 percent of non-disabled students (up from 70.6 percent in 2013).⁷

To address this achievement gap and improve academic outcomes for students with disabilities, the DOE initiated a number of efforts to restructure and improve special education over the years.⁸ The most recent effort, launched in September 2012, was a multi-year special education reform plan to improve education for students with disabilities by enrolling them in their neighborhood school and mainstreaming them alongside general education students as much as possible.⁹

This reform plan was launched by DOE in conjunction with the New York State Education Department (NYSED).¹⁰ The plan, *Shared Path Framework*, focused on “increased access to schools, quality IEPs, behavior, and transition.”¹¹ The results of this effort have led to a dramatically improved shift in service delivery and improved student outcomes.¹² Due to New York City's successes, the state has used the City as an example for the state's other four large urban districts to improve special education outcomes across the state.¹³

Federal Law

The education of students with disabilities is governed by the Federal Individuals with Disabilities in Education Act (IDEA), which guarantees access to a “free appropriate public education” (FAPE) in the “least

restrictive environment” (LRE) to every child with a disability.¹⁴ LRE means that, to the maximum extent appropriate, children with disabilities must be educated with children who are not disabled.¹⁵ The IDEA ensures that all children with disabilities have access to special education and related services designed to meet their unique needs and prepare them for further education, employment, and independent living.¹⁶

The IDEA governs how states and public agencies provide early intervention, special education, and related services to eligible infants, toddlers, children, and youth with disabilities. IDEA Part C addresses early intervention services for infants and toddlers, birth through age 2, while Part B covers special education and related services for children and youth ages 3 through 21.¹⁷

In addition, the IDEA authorizes formula grants to states to support early intervention services for infants and toddlers, and special education and related services for children and youth ages 3 through 21.¹⁸ The IDEA also authorizes discretionary grants to state educational agencies, institutions of higher education, and other nonprofit organizations to support research, technical assistance, technology development, personnel preparation and development, and parent-training and information centers.¹⁹

NYC DEPARTMENT OF EDUCATION SPECIAL EDUCATION SYSTEM

In order for a child in New York City to receive special education services, the DOE must follow a four-step process: (1) referral and consent; (2) evaluation; (3) the development of the Individualized Education Program (IEP); and (4) placement and services.²⁰

Step 1: Referral & Consent - A referral for special education services can only be made in writing by a parent/legal guardian or school district designee, usually the principal or assistant principal, or Committee on Special Education (CSE) Chairperson.²¹ However, certain others, including selected school staff, a licensed doctor, a judge, public officials, or a student over 18 or emancipated, can request that a student be referred for an initial evaluation. Once a referral is made, the DOE must obtain the parent’s written consent for the evaluation process to begin.²²

Step 2: Evaluation - After the DOE receives parental consent to evaluate a child, they have 60 calendar days to complete the evaluations.²³ A child must be evaluated in all areas of suspected disability, and an initial evaluation must at least include: a social history; a psycho-educational evaluation (including IQ and academic testing); a classroom observation; and a recent physical evaluation (if not available from the student’s doctor, the DOE must arrange for a physical).²⁴ Other possible evaluations include: a physical/occupational therapy or speech and language evaluation; a neurological or neuropsychological exam; an assistive technology evaluation; a psychiatric evaluation; and a vision or hearing exam, including a central auditory processing evaluation.²⁵

Step 3: IEP Development - In order for a child in New York City to receive special education services, an IEP team must find the child eligible for one of the following 13 disability classifications:

- Autism
- Deaf-Blindness
- Hearing Impairment
- Intellectual Disability

The IEP team must include the child's parent; a special education teacher and/or related service provider; a general education teacher (if a child is, or may be, participating in a general education class); a school psychologist (or other who can explain the meaning of the evaluations); the child (if age 15 or older); and a district representative. Others may also be included, such as a physician or anyone the parent wishes to invite for support.²⁷

The IEP outlines a child's educational needs and the services they are entitled to receive, including:

- Present levels of educational and social/emotional performance;
- Measurable annual goals;
- Program recommendations and/or related services;
- The extent to which the child may participate in general education classes, extracurricular and non-academic activities;
- Participation in testing, testing accommodations and modifications;
- Promotional criteria; and
- A transition plan to prepare the student for life after high school for students 15 and older.²⁸

All IEPs in New York City are created using DOE's electronic Special Education Student Information System (SEGIS), therefore an IEP is not "finalized" until the information discussed at the IEP meeting is entered into the document electronically.²⁹

Step 4: Placement and Services - Decisions about a child's placement are made by the IEP team and should be reviewed annually. If a child is receiving special education services for the first time, the DOE must arrange for placement and services within 60 school days from receiving parental consent to evaluate the child. Parents should receive a written placement offer by mail and have the right to visit the proposed classroom/school placement and may accept or reject the proposed placement.³⁰

Pre-K Special Education

DOE provides preschool special education services free of charge for children ages 3-5 who have disabilities or developmental delays that impact their ability to learn.³¹ The four-step process of referral and consent; evaluation; development of the IEP; and placement and services is the same for pre-k as for school-age children, except that the process is conducted by the local Committee on Preschool Special Education (CPSE), which is part of the CSE.³²

Special Education Services and Supports

The DOE provides a continuum of special education services for students with disabilities, which are listed below in order from less restrictive (designed to help a student remain in general education classes) to more restrictive (self-contained settings):

- General Education with Supplementary Aids and Services – Students are educated in a general education class with additional support. Supplementary aids and services include, but are not limited to:
 - Related Services - These include speech and language therapy, physical therapy, occupational therapy, counseling and some other services that may be provided individually or in a small group.
 - Special Education Teacher Support Services (SETSS) - A student is either removed from class and taught in a smaller class for a portion of the day (pull-out) or a teacher may come into the classroom to work with the student, a small group of students, or the classroom teacher during the regular lesson (push-in).
 - Paraprofessionals - (also called aides or paras) can be assigned to students to meet individual management needs, such as behavior management, health, and interpretation services.
- Integrated Co-Teaching (ICT) - This is an integrated classroom where general education students (about 60 percent of the class) and students with disabilities (about 40 percent of the class) are taught together by a full-time general education teacher and a full-time special education teacher.
- Special Class in a Community School - Students are in a small, “self-contained” class of special education students, grouped by age and functional ability, in a neighborhood school that also has general education classes. DOE offers the following student-to-teacher ratios in these self-contained classrooms:
 - 12:1 (elementary and junior/middle school only)
 - 15:1 (high school only) for students with academic and/or behavior management needs
 - 12:1:1 for students with academic and/or behavioral management needs who require extra adult support and specialized instruction.
- Special Class in a Specialized School (District 75) - District 75 is a separate school district intended for students with severe needs that require more intensive support. Some District 75 programs are located in buildings with general education schools, while others are in buildings consisting only of District 75 special classes and students. A small number of District 75 Inclusion programs integrate students with disabilities into general education classes for part of the day, with supports from District 75 staff, such as paraprofessionals, special education teachers, and speech therapists. District 75 classes offer the following student-to-teacher ratios:
 - 12:1:1 for students with academic and/or behavioral management needs who require extra adult support and specialized instruction;
 - 8:1:1 for students whose needs are severe and require intensive supervision, significant individual attention, intervention, and intensive behavior management;
 - 6:1:1 for students with very significant needs, including academic, social and/or interpersonal development, physical development, and management needs. Students’ behavior may be aggressive, self-abusive, or extremely withdrawn. Students may have severe difficulties with language and social skills. Many students in 6:1:1 classes are on the autism spectrum.
 - 12:1:4 for students with severe and multiple disabilities and limited functioning in all areas. This program primarily provides habilitation and treatment, including training in activities of daily living (ADL) and the development of communication skills.
- Specialized Programs - The DOE also offers several specialized programs in some community schools, including:

- Autism Spectrum Disorder (ASD) Nest: An integrated class setting in a community school for high functioning students on the autism spectrum;
- ASD Horizon: A self-contained special class in a community school for students on the autism spectrum.
- Barrier Free: A school building that is accessible to students who have limited mobility, serious health issues, or use a wheelchair or other mobility device.
- Bilingual Special Education: A special class for students who are recommended to receive services in a bilingual classroom.
- Academic, Career, and Essential Skills (ACES) Special Class for Students with Intellectual Disabilities: A special class in a community school for students who are classified as intellectually disabled and who are being alternately assessed.³³

There are also placement options outside of a public school, such as temporary Home Instruction or Hospital Instruction for students with medical needs, or placement in a non-public school for students whose educational needs cannot be met in a public school program.³⁴ Non-public school placement is discussed in further detail below.

Non-Public Special Education Schools

NYSED recommends state approved private schools for students whose special educational needs cannot be met in a public school setting.³⁵ There are also state-supported schools that offer intensive special education services to students who are deaf, blind or have severe physical or emotional disabilities and who the CSE determines qualify for such programs.³⁶ Some state-approved schools are residential and provide a structured living environment on a school's campus for students who require 24-hour support.³⁷ If there is not an appropriate residential school for a student, the state may recommend the student for an out-of-state school.³⁸

DOE also funds state approved private special education schools for students through a voucher from CSE, known as a "P-1" or "Nickerson" letter.³⁹ DOE is required to provide parents with a P-1 letter if it fails to place a student in the appropriate special education program within their IEP mandated timeframe.⁴⁰ When these vouchers are issued, the CSE provides parents with a list of eligible private special education schools to select and apply to, but if a parent is unable to find a non-public school placement, DOE is still required to provide an appropriate placement for the student.⁴¹

Lastly, the state provides payments for special education private schools when a parent proves that the DOE failed to provide their child with a free and appropriate education during an impartial hearing.⁴² Parents can receive reimbursement or pre-imburement for private day or residential schools, including schools that are not on the state approved list, if they are able to prove that the chosen school is appropriate for their child's special education needs. A Carter hearing occurs if a parent is seeking reimbursement for special education services, and a Connors hearing occurs when they are seeking pre-imburement for special education services.⁴³

Spending on Special Education

Fair Student Funding (FSF) is the primary formula used to fund schools. Under the FSF formula, students receiving special education services receive a weight corresponding to additional funding, depending on the level of services they receive and their grade level. The FSF weights and corresponding dollar amounts for students receiving special education services in the current year are listed in Table 1 below. Students with disabilities are also eligible for grade level, poverty, English language learners (ELL) and academic intervention FSF weights.⁴⁴

Table 1

Special Education Need	Weight	FY19 Per Capita
Single Service <=20 percent	0.56	\$2,287.74
Multi-Service 21 percent-59 percent	1.25	5,108.38
K-8 Self-Contained (SC) >=60 percent	1.18	4,823.41
9-12 Self-Contained (SC) >=60 percent	0.58	2,385.87
K Integrated Co-Teaching (ICT) >= 60 percent	2.09	8,529.96
1-12 Integrated Co-Teaching (ICT) >= 60 percent	1.74	7,108.13
K-12 Post IEP Support	0.12	\$490.18

Fair Student Funding does not impact District 75, related services (including mandated speech and counseling services), IEP teachers, IEP paraprofessionals, adaptive physical education teachers, assistive technology, and other special education programmatic allocations. Schools are provided with additional allocations outside of FSF for these needs.⁴⁵

Funding for K-12 special education in public schools is included across three major program areas, shown with actual spending in the last fiscal year and budgeted spending in the current and next fiscal year in the chart below. Special Education Instruction includes services provided directly in traditional K-12 public schools; Citywide Special Education includes funding for District 75 schools and home and hospital instruction; and Special Education Instructional Support includes funds for centrally-managed special education related services such as occupational therapy, physical therapy, and nurses, as well as evaluations of students performed by school-based support teams. Spending on these areas is budgeted at \$3.79 billion in Fiscal 2019. The DOE uses both employees and contractual providers to deliver mandated services to students. Funding for “related services” is budgeted across the three special education program areas, and reflected in Table 2. Of the \$3.79 billion budget for K-12 special education in Fiscal 2019, \$1.27 billion is for related services.

Other smaller program areas include some funding for special education: some of categorical programs (federal and State funds that are allocated for specific purposes) are for reimbursable support for special education instruction; some funding for school support organizations (field-based support centers) goes toward special education administration and the CSE; and some funding in central administration is for special education initiatives. These actual and budgeted costs are also listed in Table 2 below.

Funding for special education services is growing largely due to two factors: increased headcount and increased costs for special education teachers and paraprofessionals (per collective bargaining agreements); and planned increases in spending on specific programs, including ACES, ASD, and Bilingual Special Education (note additional funding for these three programs was included in the Fiscal 2017 Executive Financial Plan). However, the DOE recognized savings in costs for ACES and bilingual special education programs in Fiscal 2018 and 2019 due to DOE's inability to recruit staff for the full number of programs they expected to open (savings were recognized in the Fiscal 2019 Preliminary Financial Plan). The savings were not baselined as DOE works to recruit and hire teachers to open the planned classes. Civilian and pedagogical headcount across the special education program areas is shown in Table 3.

Public-Funded Special Education in Private School Settings

Actual and budgeted spending on Contract Schools, Carter Cases, Foster Care, and Blind and Deaf schools is shown in Table 4 below. While the Fiscal 2019 Preliminary Budget reflects a \$100 million decline in spending on Carter Cases from Fiscal 2018 to 2019, the Council expects the Executive Budget to reflect additional resources for Carter Cases more in-line with recent spending in this area. The Fiscal 2019 Executive Financial Plan added \$80 million to the Fiscal 2018 budget for Carter Cases, but no funding was added in Fiscal 2019 or the outyears.

Pre-K Special Education

The DOE provides special education instructional services and related therapeutic services to pre-kindergarten aged children through contracts with non-public schools and private providers. None of these services are directly provided by the DOE. Actual and projected spending on these services is shown in Table 5 below. State reimbursement for special education pre-K will support approximately 69 percent of the total cost in Fiscal 2019.

SEGIS

Over the course of the de Blasio Administration, additional resources have been added to DOE's budget to support SEGIS. These additional resources total \$17.3 million in Fiscal 2019 (note the funding was added in the Fiscal 2016 Executive Financial Plan, Fiscal 2017 Executive Financial Plan, and Fiscal 2018 Preliminary Financial Plan).

Funding Sources

IDEA is the most significant source of federal funding for special education services; IDEA funding for Fiscal 2019 is projected to be \$287.8 million. The State also provides funding for special education services through:

- High cost aid, which supports public school programs for students with disabilities;
- Private excess cost aid, which supports special education students in private school settings;
- Summer school age handicapped aid, which funds services during July and August;
- Funding for pupils with disabilities residing in Office of Mental Health (OMH) psychiatric centers;

- Funding for deaf and blind schools; and
- Funding for pre-K special education (as mentioned above).

ISSUES AND CONCERNS

Parents of students with disabilities have long complained that their children are not receiving all of the services to which they are entitled. According to the most recent data from DOE, in the 2017-18 school year just 78.4 percent of IEP students received all of their mandated services.⁴⁶ This means that 22 percent, nearly 40,000 IEP students are receiving only partial or none of their mandated services. While this reflects an improvement over prior years, DOE has acknowledged that “it’s unclear how much of the year-over-year changes are due to improvements to its data systems versus better service delivery.”⁴⁷

The DOE has long had difficulty keeping up with the demand for “related services,” which include speech therapy, occupational therapy, physical therapy and intensive counseling, among others. When a child’s school does not have adequate staff to provide all of the needed services, the DOE refers the parent to one of several agencies under contract, and if none of the agencies can provide the service, the DOE issues a Related Service Authorization (RSA) to allow a family to secure an independent provider paid for by the DOE.⁴⁸ However, a backlog in payments to related service providers may be exacerbating an already serious shortage of providers. According to an expose by *NY1*, many therapists have gone for months without being paid for services they provided to students with disabilities.⁴⁹ Parents and advocates also maintain that the loss of a therapist that has worked with a student for years can be very disruptive for a child with disabilities.

Another factor that may contribute to a shortage of related service providers in schools is the existing pay disparities with other DOE positions, despite having similar education and job eligibility requirements. For example, physical and occupational therapists who work in New York City schools narrowly approved a new contract, with pay inequities cited as a major issue.⁵⁰ In an open letter to Chancellor Richard Carranza and Mayor Bill de Blasio, some of these therapists wrote, “Publicly employed OTs and PTs in most major cities including Los Angeles, Washington D.C., Chicago, and Boston earn the same as teachers and other professionals who serve students in Special Education. New York City is a glaring exception. At the top of the pay scale, OTs and PTs who work for the DOE earn \$27,000 less per year and have far fewer benefits than our counterparts in the speech therapy, social work, counseling and school psychology departments.”⁵¹

An additional area of concern is the provision of bilingual special education services for ELLs. In 2017-18, DOE reported that almost 38,000 (just over 19 percent) of students with IEPs were ELLs.⁵² Just as DOE has a shortage of bilingual teachers for ELLs in general education classes, they also have a shortage of bilingual related services providers. For the 2017-18 school year, DOE reported that 17.2 percent of

“bilingual” counseling sessions and 17.4 percent of “bilingual” speech-language therapy sessions were not held in the recommended language due to shortages of bilingual providers.⁵³

Another concern related to special education for ELLS is the failure of DOE to provide translations of IEPs to parents who need them. Parents are legally entitled to translation services for the special education process, including translations of IEPs, but many parents, do not know they have the right to request a translation.⁵⁴ This year, DOE launched a pilot program to centralize the translation process instead of relying on individual schools to manage such requests. Beginning in September 2018, schools in District 9 in the Bronx, District 24 in Queens, and the citywide special education District 75 have been able to ask DOE’s translation department to handle the request.⁵⁵ As of early January 2019, DOE had handled 100 requests to convert learning plans into Arabic, Bengali, Chinese, Korean, Russian, and Spanish.⁵⁶

One longstanding issue of concern is SESIS, DOE’s data system for tracking students’ special education services. Rolled out in 2011 at a cost of \$130 million, SESIS was plagued with technical problems from the start.⁵⁷ Special education teachers and service providers are required to enter information into SESIS about each student’s IEP, including details about evaluations, services provided, and any changes made to the plan.⁵⁸ Glitches with the system led to increased overtime costs for school staff and charges by the city comptroller that problems with the system kept the city from collecting millions of dollars in federal Medicaid reimbursements for low-income students with disabilities, leading then-Public Advocate Letitia James to file a lawsuit against DOE in 2016 over \$356 million in lost Medicaid dollars over several years.⁵⁹ Since that time, DOE has acknowledged serious problems with SESIS and conceded that their initial data reports in 2016 on special education services were not “fully reliable” due to SESIS flaws.⁶⁰ Starting in fiscal year 2018, the mayor has committed funding for needed improvements to SESIS.⁶¹ The Committee hopes to learn more about the status of these improvement efforts.

ANALYSIS OF PROPOSED INT. NO 559-A

A Local Law to amend the administrative code of the city of New York, in relation to requiring the department of education to provide school-level data regarding compliance rates for students' individualized education programs

The proposed legislation would amend Local Law 27 of 2015 to require the DOE to disaggregate by school its report on individualized education program compliance rates. The bill would take effect immediately after it becomes law.

Update to A version: Further levels of disaggregation were added in addition to school to include service recommendation and community school district. Further, Proposed Int. 559-A requires DOE to provide a

narrative description of the provision of special education services for students enrolled in District 79 schools and programs. The enactment date is now tied to Proposed Introduction Number 1406-A.

ANALYSIS OF PROPOSED INT. NO 900-A

A Local Law to amend the administrative code of the city of New York, in relation to requiring the department of education to report on the provision of special education services tri-annually and to expand the services on which the department is required to report.

The proposed legislation would amend Local Law 27 of 2015 to require the DOE to report on its provision of special education services to students tri-annually, and would also add assistive technology services and special transportation services to the services on which DOE is required to report. The bill would take effect immediately after it becomes law.

Update to A version: The tri-annual reporting dates were changed, but it remains tri-annual and the bill also updates the privacy provision so that now categories that contain zero students are reported as such and suppression will be for categories that contain between one and five students. Additionally, the enactment date is now tied to Proposed Introduction Number 1406-A.

ANALYSIS OF PROPOSED INT. NO 1380-A

A Local Law to amend the administrative code of the city of New York, in relation to requiring the department of education to annually report on claims for payment for tuition or services.

The proposed legislation would require the DOE to annually report on several indicators regarding how DOE responds to requests for payment for private school tuition or tutoring from parents or guardians who believe their child is not receiving appropriate special education services in public school. The bill would take effect immediately after it becomes law and be deemed repealed seven years thereafter.

Update to A version: The data elements in the bill, from the ten-day notice or due process complaint being received by the DOE to when a payment is actually made, now conforms to the DOE's internal checklist process how each case is tracked by their systems. Additional reporting added to the bill includes the number of impartial hearing officers, their annual compensation, and the number of cases they recuse themselves from. The bill would still take effect immediately but is now deemed repealed after five years, down from seven years.

ANALYSIS OF PROPOSED INT. NO 1406-A

A Local Law to amend the administrative code of the city of New York, in relation to requiring reports on preschool special education and early intervention services.

The proposed legislation would require the DOE to annually report on several indicators regarding its provision of special education services to preschool-age children. The bill also requires the City's Department of Health and Mental Hygiene ("DOHMH") to annually report on several indicators regarding its provision of early intervention services to eligible children ages zero to three. The bill would take effect immediately after it becomes law.

Update to A version: Technical changes were made to some of the definitions to the bill to properly capture how information is collected by the DOE and DOHMH. Where DOHMH receives information from the New York State Early Intervention System (NYEIS), in recognition that data in NYEIS is not always accurately collected, information was included in the proposed legislation to provide flexibility to DOHMH in reporting information to the extent practicable.

UPDATE: On Tuesday, December 17, 2019, the Committee on Education passed Proposed Introduction Number 559-A, Proposed Introduction Number 900-A, Proposed Introduction Number 1380-A, Proposed Introduction Number 1406-A and Proposed Resolution Number 749-A by a vote of sixteen in the affirmative, zero in the negative, with zero abstentions.

At this point, the Speaker (Council Member Johnson) announced that the following items had been **preconsidered** by the Committee on Finance and had been favorably reported for adoption.

Report for M-199

Report of the Committee on Finance in favor of approving a Communication from the Office of Management & Budget regarding transferring City funds between various agencies in Fiscal Year 2020 to implement changes to the City's expense budget, pursuant to Section 107(b) of the New York City Charter (MN-1).

The Committee on Finance, to which the annexed preconsidered communication was referred on December 19, 2019 and which same communication was coupled with the resolution shown below, respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York (the “City Council”) on December 19, 2019, the Committee on Finance considered a communication, dated December 18, 2019, from the Office of Management and Budget of the Mayor of The City of New York (the “Mayor”), of a proposed request, attached hereto as Exhibit “1” (the “modification” or “MN-1”), to modify units of appropriation and transfer City funds between various agencies in the amount of \$983,957,228 in the Fiscal 2020 expense budget as adopted by the Council on June 19, 2019.

Analysis. The Council annually adopts the City’s budget covering expenditures other than for capital projects (the “expense budget”) pursuant to Section 254 of the Charter. On June 19, 2019, the Council adopted the expense budget for Fiscal 2020 (the “Fiscal 2020 Expense Budget”). This Modification reallocates appropriations in the amount of \$983,957,228 that were reflected in the Fiscal 2020 Expense Budget to implement changes reflected in the November Financial Plan and to fund City Council initiatives and other discretionary programs. The net effect of the modification is zero.

Procedure. If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another; or when a transfer from one unit of appropriation to the another, and such transfer results in any unit of appropriation being increased or decreased by the greater of five percent or \$50,000, section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of approval.

DATE: December 19, 2019

SUBJECT: A budget modification (MN-1) for Fiscal Year 2020 to implement changes in the City's expense budget.

INITIATION: By letter dated December 18, 2019, the Director of the Office of Management and Budget submitted to the Council, pursuant to section 107(b) of the New York City Charter, a request for approval to transfer funds between various agencies in the amount of \$983,957,228 to implement changes in the City's expense budget.

BACKGROUND: MN-1 reallocates appropriations that were reflected in the Fiscal 2020 Adopted Budget to implement expense budget changes which were reflected in the November Financial Plan and to fund City Council local initiatives as well as other discretionary programs.

FISCAL IMPACT: MN-1 represents the reallocation of appropriations. The net effect of this modification is zero.

Accordingly, this Committee recommends its adoption.

In connection herewith, Council Member Dromm offered the following resolution:

Preconsidered Res. No. 1203

RESOLUTION APPROVING THE MODIFICATION (MN-1) OF UNITS OF APPROPRIATION AND THE TRANSFER OF CITY FUNDS BETWEEN AGENCIES PROPOSED BY THE MAYOR PURSUANT TO SECTION 107(b) OF THE NEW YORK CITY CHARTER.

By Council Member Dromm.

Whereas, At a meeting of the Committee on Finance of the City Council of the City of New York (the “City Council”) on December 19, 2019, the Committee on Finance considered a communication, dated December 18, 2019, from the Office of Management and Budget of the Mayor of The City of New York (the “Mayor”), of a proposed request, attached hereto as Exhibit 1 (the “Modification”), to modify units of appropriation and transfer city funds in the amount of \$983,957,228 in the Fiscal 2020 expense budget as adopted by the Council on June 19, 2019, pursuant to Section 107(b) of the Charter of the City of New York (the “Charter”); and

Whereas, pursuant to Section 107(b) of the Charter, the City Council has thirty (30) days after the first stated meeting of the City Council following such receipt within which to act upon the Modification;

NOW, THEREFORE, The Council of The City of New York hereby resolves as follows:

1. **Approval of Modification.** The City Council hereby approves, pursuant to Section 107(b) of the Charter, the actions proposed by the Mayor as set forth in the Modification.
2. **Effective Date.** This resolution shall take effect as of the date hereof.

On motion of the Speaker (Council Member Johnson), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

At this point, the Speaker (Council Member Johnson) announced that the following items had been **preconsidered** by the Committee on Finance and had been favorably reported for adoption.

Report for M-200

Report of the Committee on Finance in favor of approving a Communication from the Office of Management & Budget in regard to the Appropriation of new City revenues in Fiscal Year 2020, pursuant to Section 107(e) of the New York City Charter (MN-2).

The Committee on Rules, Privileges and Elections, to which the annexed preconsidered Communication was referred on December 19, 2019 and which same Communication was coupled with the resolution shown below, respectfully

REPORTS:

Introduction. At the meeting of the Committee on Finance of the City Council on December 19, 2019, the Council considered a communication from the Office of Management and Budget of the Mayor, dated December 18, 2019, of a proposed request to modify, pursuant to Section 107(e) of the Charter of the City of New York, the Fiscal 2020 Expense Budget Plan, and the revenue estimate related thereto prepared by the Mayor as of December 18, 2019.

Analysis. The Council annually adopts the City's budget covering expenditures pursuant to Section 254 of the Charter. On June 19, 2019, the Council adopted the expense budget for fiscal year 2020 (the "Fiscal 2020 Expense Budget"). On December 18, 2019, the Mayor submitted to the Council MN-1, modifying the Fiscal 2020 Expense Budget. On December 18, 2019, the Mayor submitted to the Council a revenue estimate MN-2, related to the Fiscal 2019 Expense Budget.

Circumstances have changed since the Council last adopted the Fiscal 2020 Expense Budget.

Section 107(e) provides one mechanism for the Mayor and the Council to amend the Expense Budget and related revenue estimate to reflect changes in circumstances that occur after adoption of a budget. Section 107(e) permits the modification of the budget in order to create new units of appropriation, to appropriate new revenues from any source other than categorical federal, state and private funding, or to use previously unappropriated funds received from any source.

Discussion of Above-captioned Resolution. The above-captioned resolution would authorize the modifications to the Fiscal 2020 Expense Budget and related revenue estimate requested in the communication.

This modification (MN-2) seeks to increase revenues in the net amount of \$648 million compared to the Fiscal 2020 Adopted Budget. This represents an increase in City funds of approximately 0.9 percent.

MN-2 is the first revenue modification of Fiscal 2020 and it reflects changes since the Adopted Budget which are outlined in the Fiscal 2020 November Financial Plan.

MN-2 recognizes \$648 million in increased revenues. Tax revenues increased by \$482 million since the Adopted Plan. This is largely due to a \$322 million increase from the business corporation tax, and a \$249 million increase from the personal income tax. These increases are partially offset by \$105 million in reduced revenues from the unincorporated business.

Miscellaneous revenues increased by \$166 million since the Adopted Plan. This included \$119.3 million in fines and forfeitures, \$37.6 million in charges for services, \$21 million in water and sewage charges, and \$64.5 million in other miscellaneous revenues. These are partially offset by a \$79.9 million reduction in interest income.

This modification (MN-2) uses the \$648 million in new revenues to appropriate \$98.4 million to the General Reserve, effectively offsetting the \$98.4 million reduction in General Reserve funds put through by the expense modification (MN-1). MN-2 uses the remaining \$549.5 million to prepay debt service for Fiscal 2021 in Fiscal 2020.

The resolution would also direct the City Clerk to forward a certified copy thereof to the Mayor and the Comptroller so that the Mayor, the Comptroller and the City Clerk may certify the Fiscal 2020 Expense Budget as amended thereby as the budget for the remainder of the fiscal year. The above-captioned resolution would take effect as of the date adopted.

DATE: December 19, 2019

SUBJECT: A Budget Modification (MN-2) for Fiscal 2020 that will appropriate \$648 million in new revenues.

INITIATION: By letter dated December 18, 2019, the Director of the Office of Management and Budget submitted to the Council, pursuant to section 107(e) of the New York City Charter, a request to appropriate \$648 million in new revenues. These new revenues will be used for prepayments of \$549.5 million to increase the Budget Stabilization Account and to make a \$98.4 million adjustment to the General Reserve.

BACKGROUND: This modification (MN-2) seeks to recognize \$648 million in new revenues, implementing changes reflected since the June 2019 Adopted Budget. These funds will add \$549.5 million to the Budget Stabilization Account to prepay debt service for Fiscal 2021 expenses, and upwardly adjust the General Reserve by \$98.4 million.

FISCAL IMPACT: This modification represents a net increase in the Fiscal 2020 budget of \$648 million.

Accordingly, this Committee recommends its adoption.

In connection herewith, Council Member Dromm offered the following resolution:

Preconsidered Res. No. 1204

RESOLUTION APPROVING A MODIFICATION (MN-2) PURSUANT TO SECTION 107(e) OF THE CHARTER OF THE CITY OF NEW YORK.

By Council Member Dromm.

Whereas, Section 107(e) of the Charter requires the City Council and the Mayor to follow the procedures and required approvals pursuant to Sections 254, 255, and 256 of the Charter, without regard to the dates specified therein, in the case of the proposed appropriation of any new revenues and the creation of new units of appropriation; and

Whereas, Section 107(e) of the Charter requires that any request by the Mayor respecting an amendment of the budget that involves an increase in the budget shall be accompanied by a statement of the source of current revenues or other identifiable and currently available funds required for the payment of such additional amounts, attached hereto as Exhibit B (together with the Request to Appropriate, the "Revenue Modification");

NOW, THEREFORE, The Council of the City of New York hereby resolves as follows:

1. Approval of Modification. The City Council hereby approves the Revenue Modification pursuant to Section 107(e) of the Charter.

Report for M-201

Report of the Committee on Rules, Privileges and Elections in favor of approving a Communication from the Office of Management & Budget regarding the Modification of the Fiscal Year 2020 Capital Budget and Capital Program proposed by the Mayor pursuant to Section 2016 of the New York City Charter.

The Committee on Rules, Privileges and Elections, to which the annexed preconsidered Communication was referred on December 19, 2019 and which same Communication was coupled with the resolution shown below, respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York on December 19, 2019, the Committee on Finance considered a communication, dated December 18, 2019, from the Office of Management and Budget of the Mayor of The City of New York, of a proposed request (the "Modification"), attached hereto as Exhibit "1", to modify the Fiscal 2020 Capital Budget and Capital Program (as defined below) pursuant to Section 216 of the Charter of the City of New York (the "Charter").

Analysis. The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") and appropriations for capital projects (the "capital budget") and capital program covering appropriations for capital projects for the ensuing three years ("capital program") pursuant to Section 254 of the Charter. On June 19, 2019, the Council adopted the expense budget and capital budget for Fiscal Year 2020 (the "Fiscal 2020 Adopted Budget"), as well as the capital program. This Modification reallocates appropriations that were reflected in the Fiscal 2020 Adopted Budget within and between various agencies to reallocate City Council appropriations in the Fiscal 2020 Capital Budget.

The net effect of the Modification is zero. For more detail on the funding transfer between agencies, see Schedule A of the modification attached hereto as Exhibit "1".

Procedure. Pursuant to section 216 of the Charter, upon receipt of a recommendation in writing from the Mayor or a Borough President, the City Council may amend the capital budget or capital program in the same manner as the adoption of the capital budget and capital program as set forth in section 254 of the Charter. The Council may approve the proposed amendment as submitted, or increase or decrease the amounts of funds proposed to be appropriated, so long as funds are available within the capital budget and the applicable program category of the capital program.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 216 of the Charter. Such resolution would take effect as of the date of adoption.

RE: Finance Committee Agenda of December 19, 2019 – Resolutions approving a tax exemption for five Land Use items (Council Districts 7, 13, 14, 15, and 17)

Item 1: William R. Anderson

William R. Anderson Housing Development Fund Company (HDFC) is a two-building project comprised of 32 apartments and one commercial unit in Hamilton Heights. The first property, 1638 Amsterdam Avenue, is a five-story building that contains nine three-bedroom units and one ground-floor commercial space. The second property, 93 Hamilton Place, consists of six one-bedroom units, four two-bedroom units, 11 three-bedroom units, and two four-bedroom units (inclusive of one superintendent unit).

The Department of Housing, Preservation, and Development (HPD) anticipates providing the HDFC with approximately \$1.1 million in subsidy for moderate rehabilitation work, including roof replacement, asbestos abatement, façade repairs, masonry work, window replacement, and plumbing, energy efficiency and water conservation upgrades. The HDFC would be the borrower and West Harlem Group Assistance, Inc. (WHGA) would come on as the project sponsor, managing agent, and beneficial owner.

The HDFC has had a partial Article XI tax exemption since 1994 and a full exemption since 1999, which is set to expire in 2027. HPD is requesting that the Council approve a full, 32-year Article XI exemption to replace the prior exemption. HPD would enter into an amended and restated regulatory agreement with the HDFC and WHGA for the same 32-year term. That agreement would require that 18 units be leased to households with incomes up to 50% of the Area Median Income (AMI), 10 units be leased to households with incomes up to 60% of AMI, and three units be leased to households with incomes up to 80% of AMI. Three of these units would be reserved for referrals of formerly homeless families.

The property was constructed in 2005 and it currently receives a 421-a property tax abatement that expires on July 1, 2020. HPD is requesting that the Council approve a partial, 40-year Article XI exemption to replace the expiring abatement. Beechwood Hutchinson Management Company, LLC would remain the beneficial owner and would transfer the exemption area to HP Hutchinson River Parkway HDFC. ELH Management LLC acquired the building in June 2019 through its subsidiary 1414 Walton LLC with a Community Preservation Partnership (CPC) acquisition bridge loan and granted the exemption area to 1414 Walton HDFC. At acquisition closing, the HDFC and HPD entered into a regulatory agreement. At permanent closing, the HDFC will replace its CPC bridge debt with a loan from the New York City Housing Development Corporation (HDC). The 24 apartments include four one-bedroom units, 13 two-bedroom units, and 7 three-bedroom units. Of the units are shareholder-owned and nine are rentals. HPD proposes to subsidize moderate rehabilitation, including roof replacement, window replacement, domestic hot water heater and storage tank replacement, boiler replacement, façade repointing, and electrical upgrades, as well as the energy and water efficiency needs of the building.

Introduction

On December 18, 2019, the Committee on Housing and Buildings, chaired by Council Member Robert E. Cornegy, Jr., will hold a hearing on Proposed Int. No. 948-A, which was first heard on October 16, 2018, and Proposed Int. No. 1211-A, which was [first heard on January 14, 2019. Proposed Int. No. 948-A

Proposed Int. No. 948-A would require the Department of Housing Preservation and Development (HPD) to identify 50 class A multiple dwellings based on factors including number of temperature violations and heat-related complaints every two years. Owners of buildings identified by HPD under this law would then be required to install internet-capable temperature reporting devices for up to four years. These devices must be capable of measuring indoor air temperatures at least once per hour, and recording the temperature, along with the date and time of that recording, and making such information available through an ordinary internet connection, or some other means where no internet connection is available, to both the property owner and the tenant of the unit in which the device is installed. HPD would be required to conduct heat inspections of these buildings at least once every two weeks to ensure compliance with the provisions of this section and minimum heat requirements. HPD would be required to annually submit to the Mayor and the Speaker of the Council the list of units identified by this section, along with other information related to the implementation of this law.

This local law would take effect June 1, 2020.

Proposed Int. No. 1211-A

Proposed Int. No. 1211-A would require HPD to require developers who receive City financial assistance for new construction of housing development projects to set aside at least 15 percent of dwelling units offered for rent in each housing development project for homeless individuals and families. The term “housing development project” means construction of any multiple dwelling of no less than 41 new dwelling units offered for rent, provided that such multiple dwelling is subject to a regulatory agreement with a federal, state or local government agency, and provided, further, that the term “housing development project” shall not include any rehabilitation of a multiple dwelling or any construction of (i) any multiple dwelling that is owned by a limited-profit housing company organized pursuant to article 2 of the Private Housing Finance Law; or (ii) any multiple dwelling on HUD restricted land in which less than 100 percent of the class A dwelling units are subject to a regulatory agreement requiring that occupancy of such units be restricted based on the income of the occupants. HPD would be required to annually report to the Mayor and the Speaker of the Council the number of units set aside for homeless individuals and families in each housing development project and housing preservation project that has received City financial assistance, as well as whether the project is a supportive housing project.

This local law would take effect July 1, 2020.

PROPOSED INTRO. NO: 1211-A

COMMITTEE: Housing and Buildings

TITLE: A Local Law to amend the administrative code of the city of New York, in relation to the department of housing preservation and development requiring that a percentage of dwelling units in housing development projects receiving city financial assistance be set aside for homeless individuals and families.

SPONSORS: Council Members Salamanca, Levin, Cornegy, Brannan, Lander, Reynoso, Torres, Barron, the Public Advocate (Mr. Williams), Ayala, Diaz, Gibson, Levine, Cabrera, Lancman, Espinal, Adams, Moya, Rivera, Kallos, Rosenthal, Rodriguez, King, Ampry-Samuel, Eugene, Menchaca, Chin, Cumbo, Van Bramer, Gjonaj, Perkins, Cohen, Constantinides, Richards, Holden, Koslowitz and Ulrich.

SUMMARY OF LEGISLATION: Proposed Intro. No. 1211-A would require the Department of Housing and Preservation (HPD) to require developers who receive City financial assistance for new construction of housing development projects with 41 or more units to set aside for homeless individuals and families at least 15 percent of dwelling units offered for rent in each housing development project. HPD would also be required to annually report to the Mayor and the Speaker of the Council on the number of units set aside for homeless individuals and families in each housing development project and housing preservation project that has received City financial assistance, as well as whether the project is a supportive housing project.

EFFECTIVE DATE: This local law would take effect July 1, 2020.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2021

FISCAL IMPACT STATEMENT:

	Effective FY21	FY Succeeding Effective FY22	Full Fiscal Impact FY21
Capital Expenditures ¹	\$17,100,00	\$17,100,00	\$17,100,00

IMPACT ON REVENUES: It is estimated that there would be no impact on revenues resulting from the enactment of this legislation.

SOURCE OF FUNDS TO COVER IMPACT ON EXPENDITURES: It is estimated that the enactment of this legislation would result in additional capital expenditures for residential projects financed by HPD. Over the five-year period from 2014 to 2018, HPD financed the construction of 1,459 homeless units, or about 300 units annually; this accounts for about three percent of HPD's annual housing production of newly constructed units. The cost of financing 300 homeless units annually is already assumed and accounted for in the City's financial plan and are thus not included in this cost estimate. As such, it is estimated that the additional subsidy necessary to meet the requirements of this legislation would be approximately \$17.1 million in total for all covered units. Lastly, it is anticipated that the reporting requirements of this legislation would be implemented using existing expense budget resources.

REPORTS:**Introduction**

On December 19, 2019, the Committee on Housing and Buildings, chaired by Council Member Robert E. Cornegy, Jr., will hold a hearing on Proposed Int. PROPOSED INTRO. NO: 1710-A

COMMITTEE: Housing and Buildings

TITLE: A Local Law to amend the administrative code of the city of New York, in relation to exemption from taxation of alterations and improvements to multiple dwellings.

SPONSORS: Council Members Richards, Grodenchik, Louis, Kallos, Vallone and Yeger.

SUMMARY OF LEGISLATION: Proposed Intro. No. 1710-A would extend the J-51 tax exemption and abatement program through June 30, 2020, and would increase the assessed value limitation from \$35,000 to \$40,000.

The J-51 program provides local real property tax exemption and abatement benefits to property owners of multi-family residential buildings who perform qualifying capital improvements on their property. Eligible

projects for this program include: City or privately-financed moderate and gut rehabilitations, privately-financed and governmentally-assisted major capital improvements to multiple dwellings, and conversions of lofts and other non-residential buildings into multiple dwellings. The type and length of J-51 benefit that a property receives depends on the degree of government assistance in the rehabilitation, the location of the property, and the extent and nature of the improvement.

EFFECTIVE DATE: This local law would take effect immediately.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2021

FISCAL IMPACT STATEMENT:

	Effective FY20	FY Succeeding Effective FY21	Full Fiscal Impact FY21
Revenues	\$0	\$0	\$0
Expenditures	\$0	\$0	\$0
Net	\$0	\$0	\$0

IMPACT ON REVENUES: It is estimated that this legislation would have no impact on revenues because the financial plan already assumes that the J-51 program would be extended, and therefore the fiscal impact associated with this legislation is already reflected in the plan. The plan currently estimates that the Fiscal 2019 tax expenditure of this program will total \$297.9 million covering 461,829 units. This reflects \$223.1 million for 21,840 exemptions and \$74.8 million for 72,101 abatements.

IMPACT ON EXPENDITURES: As the extension of this tax program is already reflected in the financial plan, it is estimated that there will be no impact on expenditures as a result of this legislation. Additionally, it is anticipated that existing resources would be used by HPD and the Department of Finance (DOF) to implement its provisions.

By Council Members Salamanca and Adams.

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on November 13, 2019 its request dated October 22, 2019 that the Council take the following actions regarding the proposed Urban Development Action Area Project (the "Project") located at 138 West 117 Street (Block 1901, Lot 51), 140 West 117 Street (Block 1901, Lot 52), and 264 West 117 Street (Block 1922, Lot 53), Community District 10, Borough of Manhattan (the "Disposition Area or Exemption Area"):

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to Section 693 of the General Municipal Law;
3. Waive the requirements of Sections 197-c and 197-d of the Charter pursuant to Section 694 of the General Municipal Law;
4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and
5. Approve an exemption of the Exemption Area from real property taxes pursuant to Section 577 of Article XI of the Private Housing Finance Law.

WHEREAS, the Project is to be developed on land that is an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not require any change in land use permitted under the New York City Zoning Resolution;

WHEREAS, upon due notice, the Council held a public hearing on the Project on December 2, 2019; and

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Project.

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement pursuant to Section 693 of the General Municipal Law.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

The Council approves the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law.

The Project shall be developed in a manner consistent with the Project Summary that HPD has submitted to the Council on November 13, 2019, a copy of which is attached hereto.

Section 1. Punjab Avenue

Introduced by Council Member Adams

The Punjabis or Punjabi people are an ethnic group associated with the Punjab region in South Asia, specifically in the northern part of the Indian subcontinent, presently divided between Punjab, India and Punjab, Pakistan. Historically, the Punjabi people were a heterogeneous group and were subdivided into a number of clans called biradari (literally meaning "brotherhood") or tribes, with each person bound to a clan. However, Punjabi identity also included those who did not belong to any of the historical tribes. With the passage of time, tribal structures are coming to an end and are being replaced with a more cohesive and holistic society, as community building and group cohesiveness form the new pillars of Punjabi society. In relative contemporary terms, Punjabis can be referred to in three most common subgroups: Punjabi Muslims, Punjabi Sikhs and Punjabi Hindus. Due to political, social and economic factors a significant number of Punjabi Sikhs have immigrated to build their homes throughout the nation—particularly in the last three decades or so. Specifically, Richmond Hill, New York, has a high concentration of these immigrants and is a community that can be identified as a Punjabi Sikh enclave. As this demographic group continues to grow and foster a particular social environment, the children of Punjabi immigrants have forged a unique identity in which they balance the traditional values of their family's heritage with the intricacies of urban America. The obstacles they face originate because of different structural, communal and cultural reasons. These problems work together to be a heavy burden on the youth of a community that is still very much assimilating into the nation's landscape. Although there are Punjabi youth from the community who are beginning to access the resources and education they need in order to uplift themselves and their families, much more is needed in order to develop the ability of this first generation group to navigate through the hurdles they face in order to experience the prosperity that their parents dreamed of.

From 1972 the Richmond Hill gurdwara founded by the Sikh Cultural Society of New York welcomed Sikhs from the entire New York metropolitan area travelled there to attend religious services. The gurdwara offered meals, lodging and other services to visitors and to the continuing stream of Sikh immigrants. It served as a house of worship, community center and entry point to a new country. As increasing numbers of Sikh immigrants arrived in America the gurdwara continued to be the central focus for this community. Many of these immigrants found work in Richmond Hill and called this area home. Gurdwaras in the city of New York are seen as a religious cornerstone and beacons of hope.

Report for Res. No. 40-A

Resolution calling upon the New York City Employees' Retirement System to determine that members are disabled for purposes of disability pensions, if the New York State Workers' Compensation Board determines that a member has a permanent partial disability, and the U.S. Social Security Administration determines that a member is disabled for substantial gainful (work) activity, and approved for social security disability benefits.

By Council Members Cornegy, Koslowitz, Ayala, Louis and Yeger.

Whereas, When employees of the City of New York are injured on the job, they become eligible for various Federal, State and City benefits; and

Whereas, City employees who are injured in the course of their duties may be eligible for workers' compensation benefits, Social Security disability benefits and disability retirement pension benefits; and

Whereas, The New York State Workers' Compensation System, the U.S. Social Security Administration, and the New York City Employees' Retirement System (NYCERS) all have thorough processes for determining whether a City employee injured at work is eligible for benefits; and

Whereas, NYCERS has the sole discretion to determine whether an employee injured in the course of their job is eligible for disability retirement; and

Whereas, As confirmed by case law from 2008, NYCERS has the sole independent authority to determine eligibility for disability retirement based on the system's Medical Board's analysis and determination; and

Whereas, It is possible for an injured worker to be classified as "disabled" by, and receive benefits from,

the New York State Workers' Compensation Board and the U.S. Social Security Administration, but be simultaneously denied a disability retirement by NYCERS; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York City Employees' Retirement System to determine that members are disabled for purposes of disability pensions, if the New York State Workers Compensation Board determines that a member has a permanent partial disability, and the U.S. Social Security Administration determines that a member is disabled for substantial gainful (work) activity, and approved for social security disability benefits.

Adopted unanimously by the Council by voice-vote.

Report for voice-vote item Res. No. 749-A

Report of the Committee on Education in favor of approving, as amended, a Resolution calling upon the New York City Department of Education to establish a chief compliance officer position to ensure compliance with Individualized Education Programs and other requirements for students in special education.

The Committee on Education, to which the annexed amended resolution was referred on February 13, 2019 (Minutes, page 486), respectfully

REPORTS:

(For text of report, please see the Report of the Committee on Education for Int. No. 559-A printed in the Reports of the Standing Committees section of these Minutes)

Accordingly, this Committee recommends its adoption, as amended.

(The following is the text of Res. No. 749-A:)

Res. No. 749-A

Resolution calling upon the New York City Department of Education to establish a chief compliance officer position to ensure compliance with Individualized Education Programs and other requirements for students in special education.

By Council Members Treyger, Brannan, Rosenthal, Levin, Rose, Lander, Barron, Ayala, Louis, Vallone, Rivera and Kallos.

Whereas, The Federal Individuals with Disabilities Education Act (IDEA) guarantees a free appropriate public education to eligible children with disabilities in the U.S. and ensures special education and related services to those children; and

Whereas, The IDEA also governs how states and school districts provide early intervention, special education, and related services to eligible children and youth with disabilities; and

Whereas, As mandated by the IDEA, the New York City Department of Education (DOE) provides special education services to students with disabilities, defined as any child with an Individualized Education Program (IEP); and

Whereas, According to DOE, in the 2018-19 school year, there were more than 227,000 students with disabilities, approximately 20% of the total 1.1 million student enrollment, in City public schools; and

Whereas, However, not all students with disabilities in City public schools receive all of the services to which they are entitled under IDEA; and

Whereas, In response to concerns expressed by parents and educators that many students were not receiving all of their special education services, the Council enacted Local Law 27 of 2015, later amended by Local Law 183 of 2017 and Local Law 89 of 2018, requiring the DOE to produce an annual report comprised of data on special education services provided to students; and

Whereas, Reports received pursuant to these local laws confirm that many students with disabilities have not received all of the services to which they are entitled; and

Whereas, According to DOE's latest report, for the 2018-19 school year, only 84.3% of students with disabilities were receiving full program services; and

Whereas, Further, the four-year graduation rate of students with disabilities was just 50.4% in school year 2017-18, the latest year for which data is available; and

Whereas, While the percentages of students with disabilities receiving full program services as well as the percentages graduating in four years have increased over the past several years, the numbers are still unacceptably low; and

Whereas, Data in the DOE special education reports clearly show that students with disabilities in City public schools are not receiving all of the services to which they are entitled under IDEA; and

Whereas, Creating a special education chief compliance officer position could provide the needed focus and accountability to ensure that students with disabilities receive all of the services required in their IEPs; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York City Department of Education to establish a chief compliance officer position to ensure compliance with IEPs and other requirements for students in special education.

MARK TREYGER, *Chairperson*; YDANIS A. RODRIGUEZ, DANIEL DROMM, BRADFORD S. LANDER, Jr., DEBORAH L. ROSE, INEZ D. BARRON, BEN KALLOS, MARK D. LEVINE, I. DANEEK MILLER, BARRY S. Pursuant to Rule 8.50 of the Council, the Majority Leader and Acting President Pro Tempore (Council Member Cumbo) called for a voice vote. Hearing no objections, the Majority Leader and Acting President Pro Tempore (Council Member Cumbo) declared the Resolution to be adopted.

Adopted unanimously by the Council by voice-vote.

A Local Law in relation to establishing a day-fines pilot program in the office of administrative trials and hearings

Be it enacted by the Council as follows:

Section 1. a. Definitions. For the purposes of this local law, the following terms have the following meanings:

Chief administrative law judge. The term “chief administrative law judge” means the chief administrative law judge of the office of administrative trials and hearings.

Day-fines. The term “day-fines” means a system of assessing and imposing fines that takes into account the daily disposable income of a respondent.

Office. The term “office” means the office of administrative trials and hearings.

Organization. The term “organization” means a not-for-profit corporation, as determined by the chief administrative law judge, capable of efficaciously selecting appropriate statutes for, and conducting research into, the efficacy and final fine-rates of, the use of day-fines.

b. No later than January 1, 2021, the office shall establish a pilot program, in consultation with the organization, in no fewer than two boroughs, for the implementation of day-fines. Such pilot program shall include a total of no fewer than 10 statutes, addressing summonses issued by no fewer than two different agencies, with a sufficient quantity to adequately assess the fiscal and policy implications of permanently imposing day-fines. Such pilot program shall continue through at least January 1, 2022, and may continue further at the discretion of the chief administrative law judge. Pursuant to such pilot program, notwithstanding the provisions of subdivision 4 of section 1049 of the New York city charter, the office may offer community service pursuant to section 1049 of the New York city charter for up to 10 offenses that are not specified offenses as defined in such section.

c. The chief administrative law judge shall have the authority, during the duration of the pilot program, to discontinue the inclusion of any statute in such pilot program, provided that no fewer than 10 statutes shall be assessed for day-fines in such pilot program at any time.

d. No later than June 30, 2022, the chief administrative law judge, in conjunction with the organization, shall submit a report to the mayor and the speaker of the city council on such pilot program, which shall include recommendations as to whether and how such pilot program should be expanded, and compare the use of community service to day-fines. Such report shall also include the following information:

1. The number of statutes included in the pilot program, in total disaggregated by the agency or agencies that issued summonses under such statutes, and also disaggregated by which statutes were utilized for day-fines and which for community service, if any.

2. The amount of fines imposed and collected, and the number of community service hours completed, in total and disaggregated by statute, and also disaggregated by the borough in which the summonses underlying such fines were issued.

3. A historical comparison of the fines imposed and collected under such pilot program to the fines imposed and collected under each such statute over the five years preceding the implementation of such program.

4. The costs associated with the pilot program, and a projection of such costs for any reasonable expansion of the use of day-fines.

5. Feedback from participants in such pilot program, including employees of the office of administrative trials and hearings judges and relevant respondents

6. A list of statutes that were removed from the pilot program, if any, and the reason for such discontinuation.

§ 2. This local law takes effect immediately.

Referred to the Committee on the Justice System (preconsidered but laid over by the Committee on the Justice System).

Res. No. 1195

Resolution commemorating the Tulsa Race Massacre that occurred May 31 to June 1, 1921.

By Council Member Cabrera.

Whereas, The Tulsa Race Massacre (also referred to as the Tulsa Race Riots) that occurred over 14 hours from May 31 to June 1, 1921, represent one of the worst incidents of racial violence in modern United States' history; and

Whereas, Although estimates vary, the report produced by the official state government Tulsa Race Massacre Commission concluded that between 100 and 300 people were killed and more than 8,000 (mostly Black) people were made homeless because of the violence; and

Whereas, The details of what precipitated the violence are unclear; and

Whereas, At the time, various newspapers reported that a young Black man, Dick Rowland, attacked a young, White, female elevator attendant in the Drexel Building; and

Whereas, The Tulsa Tribune, for example, published the headline "Nab negro for attacking girl in elevator"; and

Whereas, Accepting claims that Mr. Rowland had attacked the elevator attendant, the police arrested Mr. Rowland and placed him in custody; and

Whereas, Despite the inflammatory headline, today the most commonly accepted explanation is that Mr. Rowland merely tripped and accidentally stepped on the foot of the attendant, whose scream prompted a call to the police; and

Whereas, While Mr. Rowland was in custody, an anonymous caller announced to the Police Commissioner that they were going to "lynch that negro, that black devil who assaulted that girl"; and

Whereas, Soon after, as many as 2,000 White people descended onto the courthouse, while police continued to receive more threats of lynching Mr. Rowland; and

Whereas, Fearing that these threats would materialize, a group of about 25 Black men came to the courthouse to try and protect Mr. Rowland; and

Whereas, This group was turned away but more groups of Black protectors and White agitators continued to flood toward the courthouse; and

Whereas, Shortly after 10pm, a gun was discharged and chaos ensued; and

Whereas, This kicked off hours of deadly violence; and

Whereas, Evidence and reports indicate that people were murdered in cold blood, their bodies dumped in mass graves or in the river; and

Whereas, Their belongings were then looted and their homes and businesses burned to the ground; and

Whereas, Most of this violence occurred in the predominately Black neighborhood of Greenwood; and

Whereas, Prior to the massacre, Greenwood was considered the 'Black Wall Street' – an affluent and thriving Black neighborhood that was one of the wealthiest Black communities in the Country; and

Whereas, By the end of June 1, 1921, however, Greenwood was decimated and nearly the whole 40 blocks of Black Wall Street had been destroyed; and

Whereas, According to various reports, Black residents were chased out of their homes and attacked in the streets and public spaces; and

Whereas, There were even witnesses who recounted airplanes flying over the neighborhood, piloted by White men, dropping kerosene bombs; and

Whereas, In the report from the official Commission examining the massacre, the authors wrote that "Tulsa was likely the first city [in the United States] to be bombed from the air"; and

Whereas, To add insult to injury, at dawn, when the National Guard arrived, it was the Black residents who were taken into custody and held under armed guard; and

Whereas, With hands up in surrender, Black residents were forced to walk through White neighborhoods to reach the make-shift detention camp; and

Whereas, This gave some White residents an easy opportunity to loot vacant homes, and reports say they stole furniture, jewelry, fur coats and other valuables; and

Whereas, It is estimated that 6,000 people were detained at the detention camp, housed at the fairgrounds, and many were not released until a White person vouched for them; and

Whereas, Those who were released were given cards to wear and, if they failed to attach this card to their clothes while in public, they were subject to re-arrest; and

Whereas, Despite the abhorrent details of this massacre and unjust detention of Black people, very little commemoration or reporting has publicized the incident, with one survivor describing such talk as “taboo”; and

Whereas, For example, it has been discovered by researchers and journalists that the Tulsa newspapers and police archives have deliberately removed or hidden stories related to the massacre; and

Whereas, As such, the massacre is rarely taught in schools or mentioned in history books; and

Whereas, In fact, it was not until 2001 that the state government-appointed Commission released a report examining the details of the incident; and

Whereas, Furthermore, it was not until last year that the name of the Commission was changed to reflect an understanding of the event as a race massacre, rather than a race riot; and

Whereas, As we know from other atrocities in human history, the harmful effects of these incidents are far-reaching and long-lasting, and continue to affect communities for generations; and

Whereas, Although this massacre occurred in Tulsa, its slowly-recognized title as one of the worst acts of racial violence in our Country’s history means that it has a huge impact on people of color across all state lines; and

Whereas, New York City is home to more than two million Black or African American people, according to the 2017 American Community Survey; and

Whereas, Furthermore, since 2011, New York City has been a majority minority city, meaning there are more Black, Hispanic and Asian residents than those recorded as Non-Hispanic White; and

Whereas, As these demographics highlight, commemorating the Tulsa Race Massacre is of vital importance to a significant part of the City’s population; and

Whereas, In fact, given that some consider the massacre to be an act of ethnic cleansing, there are important lessons to be learned for all New Yorkers; and

Whereas, Just as the Holocaust is taught in schools and solemnly but publicly commemorated so that we never forget and never repeat such atrocities, the Tulsa Race Massacre holds similar lessons for humanity; now, therefore be it

Resolved, That the Council of the City of New York commemorate the Tulsa Race Massacre that occurred May 31 to June 1, 1921.

Referred to the Committee on Cultural Affairs, Libraries and International Intergroup Relations.

Res. No. 1196

Resolution calling on the New York State Legislature to pass, and the Governor to sign, A. 8484, to increase the amount of light that must pass through a car’s side windows.

By Council Member Cabrera.

Whereas, On July 26, 2019, one year old twins Luna and Phoenix Rodriguez died of heatstroke after being left for eight hours in a hot car in the Bronx by their father who forgot they were still strapped into their car seats; and

Whereas, According to data from advocacy group KidsandCars.org, 53 children have died from vehicular heatstroke in 2019; and

Whereas, According to the American Academy of Pediatrics, heatstroke is the leading cause of non-crash, vehicle-related deaths in children under the age of 15; and

Whereas, The temperature inside a parked car can reach 125 degrees Fahrenheit in minutes; and

Whereas, Children left in cars can die from heatstroke when the outside air temperature is as low as 57 degrees Fahrenheit; and

Whereas, A child's internal body temperature reaches 100 degrees Fahrenheit or more after about an hour in a car parked in the sun and after about two hours in a car parked in the shade; and

Whereas, The car in which the Rodriguez twins died had tinted windows; and

Whereas, Tinted windows can reduce and interfere with a driver's visibility and cause accidents, especially in poor light conditions; and

Whereas, Installing tinted windows strengthens the glass and makes the window more difficult to break if it needs to be broken to get to someone trapped in the vehicle or for someone trapped inside the vehicle to get out; and

Whereas, Tinted windows impede a person's ability to see into the car; and

Whereas, If the car's rear side windows were not tinted, a passerby may have seen the Rodriguez twins in the car and alerted the authorities; and

Whereas, New York State Vehicle and Traffic Law (VTL) section 375(12-a) currently requires a car's windshield and front side windows to allow at least 70 percent of light from the outside to pass through the window and requires rear side windows to allow at least 70 percent of light from the outside to pass through the window if the vehicle is classified as a station wagon, sedan, hardtop, coupe, hatchback, or convertible; and

Whereas, In August 2019, Assembly Member N. Nick Perry introduced A. 8484, which would amend the VTL to require a car's rear side windows to allow at least 50 percent of light from the outside to pass through the window if the vehicle is classified as a station wagon, sedan, hardtop, coupe, hatchback, or convertible; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass, and the Governor to sign, A. 8484, to increase the amount of light that must pass through a car's side windows.

Referred to the Committee on Transportation.

Res. No. 1197

Resolution calling upon the New York City Department of Education to install air conditioning in school auditoriums, gymnasiums and cafeterias with highest priority in school districts where there is a high rate of asthma and other respiratory illnesses

By Council Members Cabrera, Treyger, Louis, Kallos, Yeger and Chin.

Whereas, In New York City (NYC), extreme heat events are defined as periods when the heat index is 100°F or higher for one or more days, or when the heat index is 95°F or higher for two or more consecutive days; and

Whereas, During the summer, NYC usually experiences one or more periods of extreme heat, which can cause dehydration, heat exhaustion, heat stroke, and in extreme cases, death; and

Whereas, Extreme heat events can produce poor air quality and can often cause or worsen respiratory problems; and

Whereas, Asthma is a common respiratory disease in which the lungs become swollen, making breathing difficult; and

Whereas, According to research, poor indoor air quality can worsen asthma symptoms and may also be a factor in the development of asthma in those who are more susceptible, like small children; and

Whereas, According to the NYC Environment and Health Data Portal, asthma is a leading cause of emergency room visits, hospitalizations and missed school days in the City's poorest neighborhoods and is more common among low-income Black and Latino children; and

Whereas, Nearly 70,000 public school children aged 5-14 years old have a diagnosis of asthma that has been reported to NYC Department of Health and Mental Health; and

Whereas, A healthy indoor air environment is supported with properly functioning Heating, Ventilation and Air Conditioning (HVAC), which contributes to adequate air flow, proper filtration and humidity control; and

Whereas, While HVAC does not filter the air, it alleviates asthma symptoms as keeping doors and windows shut help to keep out pollens and other outdoor irritants and allergens; and

Whereas, Further, research provides evidence that cumulative heat exposure hinders cognitive skill development and that school AC can offset nearly all of the damaging impacts of cumulative heat exposure on academic achievement; and

Whereas, In 2017, the de Blasio administration announced the Air Conditioning Initiative, which funds air conditioning (AC) for every public school classroom in NYC and prioritizes schools that have summer school; and

Whereas, At the time of the announcement, 80% of all classrooms had AC and under this initiative, over 16,000 additional classrooms will receive AC; and

Whereas, The Proposed Five-Year Capital Plan for Fiscal Years 2020 through 2024 for the NYC Department of Education includes plans to complete installation of AC in all classrooms, but this plan does not include AC in other needed learning spaces; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York City Department of Education to install air conditioning in school auditoriums, gymnasiums and cafeterias with highest priority in school districts where there is a high rate of asthma and other respiratory illnesses.

Res. No. 1199

Resolution calling upon the Mayor to not renew or issue new contracts with any entity that results in a direct financial benefit to President Donald Trump.

By Council Members Levine, Chin, Rivera and Louis.

Whereas, On January 20, 2017, President Donald Trump took an oath to preserve, protect, and defend the Constitution of the United States; and

Whereas, Article II, § 1, Clause 7 of the Constitution of the United States prohibits the President from receiving any “Emolument from the United States, or any of them”; and

Whereas, According to the Congressional Research Service, an emolument is defined as any benefit, gain or advantage, that does not arise from the President’s fixed salary; and

Whereas, According to a 1981 Department of Justice memorandum on the Emoluments Clause, the purpose of the Emoluments Clause is “to prevent Congress or any of the states from attempting to influence the President through financial awards or penalties”; and

Whereas, Supreme Court Justice Rehnquist ruled in *United Building & Construction Trades Council v. Mayor and Council of Camden*, “that what would be unconstitutional if done directly by the State can no more readily be accomplished by a city deriving its authority from the State”; and

Whereas, The Domestic Emoluments Clause’s prohibition on the President receiving benefits from “any of them” therefore applies to cities and counties; and

Whereas, Before becoming President of the United States, Donald Trump was the president of the Trump Organization; and

Whereas, According to Donald Trump’s Executive Branch Personnel Disclosure Report filed on July 15, 2015, he was the sole or principal owner of approximately 500 separate entities; and

Whereas, As president of the Trump Organization Donald Trump entered into contracts with the City of New York; and

Whereas, In 1986, Donald Trump entered into a contract with the Department of Parks and Recreation to rebuild and operate the Wollman Ice Rink; and

Whereas, The contract between the Department of Parks and Recreation and Wollman Rink Operations LLC, which is owned by the Trump Organization, was extended to last until 2021; and

Whereas, According to Donald Trump’s Executive Branch Personnel Financial Disclosure Form to the U.S. Office of Government Ethics, Donald Trump earned over \$12 million dollars from Wollman Rink Operations LLC operating the Wollman Ice Rink; and

Whereas, City Comptroller William C. Thompson released an audit report in 2007 on the Compliance of Wollman Rink Operations LLC with its License Agreement, and found that Wollman Rink Operations owes the Department of Parks and Recreation over \$146,000 in additional license fees and over \$50,000 in late charges; and

Whereas, Wollman Rink Operations LLC has physically removed the Trump name brand from the ice rink although it is still owned by the Trump Organization; and

Whereas, According to Pro Publica, the Trump Organization signed a 20-year contract in 2011 to manage a golf course in the Bronx that cost the City over \$120 million dollars to develop; and

Whereas, The New York State Attorney General’s office conducted a nearly two-year investigation into the Donald J. Trump Foundation; and

Whereas, The New York State Attorney General’s office found that the Trump Foundation operated in persistent violation of state and federal laws; and

Whereas, On November 7, 2019, Manhattan Supreme Court Justice Saliann Scarpulla decided the lawsuit brought by the New York State Attorney General’s office by ordering Donald Trump to pay \$2 million in damages for misusing funds from a tax-exempt charity; and

Whereas, Donald Trump’s organizations have a history of violating state and federal laws and defrauding the City; and

Whereas, On February 22, 2016, Donald Trump created a blind trust to oversee his companies and divest his financial benefit from his organization; and

Whereas, According to a Pro Publica report from 2017, Donald Trump has continued to financially benefit from his past business dealings; and

Whereas, As President, Donald Trump has expressed a lack of concern for his potential violation of the Emoluments Clause, characterizing the Clause as “phony” during a cabinet meeting on October 21, 2019; and

Whereas, According to the Constitutional Accountability Center, business contracts that predate a President’s term in office that result in the President receiving profits beyond the President’s fixed income may conflict with the Domestic Emoluments Clause; and

Whereas, The House Committee on Oversight and Reform has therefore been conducting investigations into possible violations of the Emoluments Clause by Donald Trump; and

Whereas, The City of New York should not contract with any organization that is linked with the President of the United States, or any organization that violates state and federal laws; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the Mayor to not renew or issue new contracts with any entity that results in a direct financial benefit to President Donald Trump.

A Local Law to amend the New York city charter and the administrative code of the city of New York, in relation to replacing the term "alien" with "noncitizen," and to repeal section 17-124 of the administrative code of the city of New York, relating to the quarantine of those with communicable diseases

Be it enacted by the Council as follows:

Section 1. a. Except as otherwise provided in this section, no laws, documents, or materials generated by any city agency after the effective date of this law shall refer to noncitizens as "aliens," "illegal aliens" or "illegal immigrants."

b. Notwithstanding subdivision a of this section, laws, documents and materials generated by the city may include the term “alien” when referencing specific federal laws or programs or case law in which the term “alien” is used.

c. Notwithstanding subdivision b of this section, all forms, signage or other printed or online materials produced by city agencies shall be amended to replace the term “alien” with “noncitizen.”

§2. Subdivision 14 of section 8-102 of the administrative code of the city of New York is amended to read as follows:

14. Applicability; alienage or citizenship status. Notwithstanding any other provision of this section, it shall not be an unlawful discriminatory practice for any person to discriminate on the ground of alienage or citizenship status, or to make any inquiry as to a person's alienage or citizenship status, or to give preference to a person who is a citizen or national of the United States over an equally qualified person who is [an alien] *a noncitizen*, when such discrimination is required or when such preference is expressly permitted by any law or regulation of the United States, the state of New York or the city, and when such law or regulation does not provide that state or local law may be more protective of [aliens] *noncitizens*; provided, however, that this provision shall not prohibit inquiries or determinations based on alienage or citizenship status when such actions are necessary to obtain the benefits of a federal program. An applicant for a license or permit issued by the city may be required to be authorized to work in the United States whenever by law or regulation there is a limit on the number of such licenses or permits which may be issued.

§3. Paragraph 1 of subdivision c of section 11-1758 of the administrative code of the city of New York is amended to read as follows:

(1) Partnerships. Every partnership having a city resident partner shall make a return for the taxable year setting forth all items of income, gain, loss and deduction and such other pertinent information as the tax commission may by regulations and instructions prescribe. Such return shall be filed on or before the fifteenth day of the fourth month following the close of each taxable year except that the due date for the return of a partnership consisting entirely of nonresident [aliens] *noncitizens* shall be the date prescribed for the filing of its federal partnership return for the taxable year. For purposes of this paragraph, "taxable year" means a year or a period which would be a taxable year of the partnership if it were subject to tax under this chapter.

§4. Subparagraph b of paragraph 6 of subdivision e of section 1304 of the New York city charter is amended to read as follows:

b. For the purposes of such certification, "minority owned business enterprise" and "women owned business enterprise" shall mean business enterprises authorized to do business in this state, including sole proprietorships, partnerships and corporations, in which (i) at least fifty-one percent of the ownership interest is held by United States citizens or permanent resident [aliens] *noncitizens* who are either minority group members or women, (ii) the ownership interest of such individuals is real, substantial and continuing, and (iii) such individuals have and exercise the authority to control independently the day to day business decisions of the enterprise;

§5. Subparagraph c of paragraph 6 of subdivision e of section 1304 of the New York city charter is amended to read as follows:

c. For the purposes of such certification, "emerging business enterprise" shall mean a business enterprise authorized to do business in this state, including sole proprietorships, partnerships and corporations, in which (i) at least fifty-one percent of the ownership interest is held by United States citizens or permanent resident [aliens] *noncitizens*; (ii) the ownership interest of such individuals is real, substantial and continuing, (iii) such individuals have and exercise the authority to control independently the day to day business decisions of the enterprise; and (iv) such individuals have demonstrated, in accordance with regulations promulgated by the commissioner, that they are socially and economically disadvantaged. An individual who is "socially and economically disadvantaged" shall mean an individual who has experienced social disadvantage in American society as a result of causes not common to individuals who are not socially disadvantaged, and whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities as compared to others in the same business area who are not socially disadvantaged. An individual's race,

national origin, or gender by itself, shall not qualify the individual as "socially disadvantaged." In drafting such regulations, the commissioner shall consider criteria developed for federal programs established to promote opportunities for businesses owned by individuals who are socially and economically disadvantaged, including criteria for determining initial and continued eligibility in relation to the net worth of individuals claiming to be economically disadvantaged, provided that the net worth of an individual claiming disadvantage pursuant to this section must be less than one million dollars. In determining such net worth, the department shall exclude the ownership interest in the business enterprise and the equity in the primary personal residence.

a. The commissioner shall administer the provisions of this section and enforce a citywide program to ensure that city contractors and subcontractors take appropriate action to ensure that women and minority group members are afforded equal employment opportunity, and that all persons are protected from discrimination prohibited under the provisions of federal, state and local laws and executive orders with regard to recruitment, employment, job assignment, promotion, upgrading, demotion, transfer, layoff, termination, rates of pay and other forms of compensation. The commissioner may request and shall receive from any contracting agency of the city such assistance as may be necessary to carry out the provisions of this section. "Minority group member" shall mean a United States citizen or permanent resident [alien] *noncitizen* who is a member of a racial or language minority group in New York city protected by the voting rights act of 1965, as amended, or such other groups as may be covered by rule of the agency.

Res. No. 1200

Resolution calling upon the New York State Legislature to pass, and the Governor to sign, A.7556/S.4325, the Big Five African Trophies Act, relating to banning the importation, transportation and possession of certain African wildlife species and products.

By Council Members Powers, Levine and Holden.

Whereas, New York State bills A.7556/S.4325, if enacted, would prohibit the sale, import, and possession of any parts of the skin or body of African Elephants, African Leopards, African Lions, Black Rhinoceroses and White Rhinoceroses, collectively referred to as the "Big Five"; and

Whereas, According to the Red List, compiled by the International Union for Conservation of Nature and considered the world's most comprehensive data-set on species conservation, all of the Big Five animals are categorized as either near threatened, vulnerable to becoming endangered or critically endangered; and

Whereas, Unfortunately, the scarcity of these animals makes them particularly sought-after by trophy hunters and poachers; and

Whereas, The largest hunting organization, the U.S.-based Safari Club International (SCI), holds competitions to encourage the killing of the Big Five animals; and

Whereas, For example, SCI gives awards to people who have killed one of each of the Big Five animals, while the winner of the highest award – World Hunter of the Year – must kill more than 300 animals across the globe; and

Whereas, Hunters covet access to the Big Five animals to participate in such competitions, and information collected by the Humane Society states that trophy hunters can pay up to \$150,000 for the opportunity to hunt a White Rhinoceros; and

Whereas, Hunts for the other Big Five animals also range in the tens of thousands of dollars; and

Whereas, Despite the cost, Big Five animal hunting is a booming tourist industry, and globally the United States is the most frequent importer of animal trophies, according to a 2016 report from the House of Representatives Natural Resources Committee; and

Whereas, According to data from the Humane Society, 14,456 animal trophies from the Big Five were imported into the United States; and

Whereas, Nationally, the top port of entry for these trophies and animal parts is New York City; and

Whereas, Of the 14,456 Big Five trophies imported into the United States between 2005 and 2014, more than a quarter were imported through New York City; and

Whereas, Last year, the federal government eased restrictions on the import of trophies from the Big Five and other animals; and

Whereas, Conversely, the New York City Council has made animal protections a key priority; and,

Whereas, For example, the City Council recently enacted a package of bills that provide various animals protections; and

Whereas, Part of the package included legislation to create an Office of Animal Welfare – making New York City the first city in the Country to establish this kind of dedicated office; and

Whereas, Clearly, the issue of animal welfare is of key concern to the residents of New York City; and

Whereas, As the top port of entry for Big Five trophies, New York City is uniquely positioned to restrict, and potentially reduce the demand for, such imports; and

Whereas, These restrictions would also reflect the concerns that the City's residents have regarding the welfare of animals; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to pass, and the Governor to sign, A.7556/S.4325, the Big Five African Trophies Act, relating to banning the importation, transportation and possession of certain African wildlife species and products.

Res. No. 1201

Resolution calling on Congress to pass and the President to sign, H.R.4546, the Public Housing Emergency Response Act.

By Council Members Rivera, Chin, Ampry-Samuel, Louis and Brannan.

Whereas, The New York City Housing Authority (NYCHA) is the largest public housing authority in North America, providing affordable housing to low and moderate income New Yorkers; and

Whereas, The historical federal disinvestment from public housing authorities has limited the amount of available resources for NYCHA to correct mold conditions, broken boilers, lead conditions, leaking roofs, and stalled elevators; and

Whereas, According to NYCHA's Capital Plan for Calendar Years 2019-2023, from 2001 to 2017, the annual federal capital grants for NYCHA have declined from \$420 million to \$346 million and NYCHA has experienced a cumulative federal capital grant funding loss of \$1.34 billion since 2001; and

Whereas, According to NYCHA's most recent Physical Needs Assessment, the total projected cost of all needs – repair and replacement – over the next five years is \$31.8 billion, and \$45.2 billion over 20 years; and

Whereas, H.R.4546, sponsored by Representative Nydia Velazquez, currently pending in the United States House of Representatives, would invest \$70 billion into the Public Housing Capital Fund at the Department of Housing and Urban Development to help support NYCHA's funding needs and the funding needs of the other public housing agencies throughout the United States; and

Whereas, The passage of this Congressional bill is critical to providing public housing authorities like NYCHA with the necessary funding to help maintain their buildings and give tenants a suitable place to live; now, therefore, be it

Resolved, That the Council of the City of New York calls on Congress to pass and the President to sign, H.R.4546, the Public Housing Emergency Response Act.

Resolution calling on the New York State Legislature to pass, and the Governor to sign, the Heatstroke Elimination Awareness Technology Act (S.6642/A.8537).

By Council Members Vallone, The Public Advocate (Mr. Williams) and Louis.

Whereas, In August 2019, New York State Senator David Carlucci introduced the Heatstroke Elimination Awareness Technology Act (S.6642) and Assembly Member Ellen Jaffee introduced a companion bill (A.8537), which would require motor vehicles sold in New York State to be equipped with a functioning rear seat detection system to recognize the presence of an occupant in the rear seating position after the vehicle engine or motor is deactivated, and automatically provide the driver with a warning alert; and

Whereas, The National Highway Traffic Safety Administration (NHTSA) has confirmed that vehicular heatstroke poses a grave threat to public safety as, on average, a child dies from vehicular heatstroke once every ten days; and

Whereas, Heatstroke begins when body temperature reaches 104 degrees Fahrenheit, quickly overwhelming the thermoregulatory system, and becomes lethal when body temperature reaches or exceeds 107 degrees Fahrenheit; and

Whereas, Evidence has shown even a mild outside temperature of 60 degrees Fahrenheit can cause the inside temperature of a vehicle to rise above 110 degrees Fahrenheit within ten minutes; and

Whereas, The NHTSA has confirmed that vehicular heatstroke, which occurs when an individual is left in a hot vehicle, allowing their core body temperature to quickly elevate to dangerous levels, is one of the leading causes of non-crash-related fatalities among children; and

Whereas, 829 children have died as a result of vehicular heatstroke in the United States since 1998, including 32 children who succumbed to vehicular heatstroke since January 2019; and

Whereas, While rear seat alert systems technology presently exists and can detect the presence of unattended children and animals in the rear seat of a vehicle once the driver gets out of the car, to date, installation of this technology is voluntary and not mandated on the part of automobile manufacturers or automobile owners; and

Whereas, The Association of Global Automakers and the Alliance of Automobile Manufacturers groups which represent the majority of carmakers serving the United States market have agreed to standardize rear seat occupant alert technology in their entire passenger fleets by the 2025 model year; and

Whereas, Skilled automobile industry suppliers who invested in detection and alert systems report the costs of installing such systems into existing cars to be relatively small when compared to the potentially incalculable life-saving benefits; now, therefore, be it

Resolved, That the New York City Council calls on the New York State Legislature to pass, and the Governor to sign, the Heatstroke Elimination Awareness Technology Act (S.6642/A.8537).
