to care for our neighbors, and to walk with integrity.
We thank you for the gorgeous diversity of our city,
and for the many communities and peoples
that you've called us to serve.
Bless the members of this Council

Fill them with courage and compassion

No. 644-B, a Local Law to amend the administrative code of the city of New York, in relation to requiring the department of education (DOE) to report information on physical education in New York City schools.

ANALYSIS

Section one of Proposed Int. No. 644-A would amend the administrative code of the city of New York by adding a new chapter 7 titled “Physical Education Reporting.”

Subdivision a of section 21-960 of Chapter 7 of title 21-A would provide the following definitions for the purposes of this section: “Adaptive physical education” would mean a specially designed program of developmental activities, games, sports, and rhythms suited to the interests, capabilities, and limitations of students with disabilities who may not safely or successfully engage in unrestricted participation in the activities of a regular physical education program, as specified in a student’s individualized education program; “Certified instructor” would mean a teacher certified by the New York state department of education as a physical education instructor; “Co-located” would mean any public school serving students in the elementary, middle or high school grades, or any combination thereof, including any charter school, which shares space with another public school in a building within the city school district of the city of New York; “physical education instruction” would mean physical fitness activities which satisfy the requirements for physical education curricula pursuant to the New York state education department regulations for the relevant grade; and “substitutions” would mean any extracurricular activities including, but not limited to, intramural and extramural athletic team activities or any other program which the department deems satisfies the state requirement for physical education instruction.

Subdivision b of Section 21-960 would require that the DOE submit to the council and post on its website in a manner searchable by individual school, school district, and borough, not later than August 31st of 2016 and on or before August 31st annually thereafter, a report regarding physical education which shall include, but not

be limited to, the following:

1. The average frequency and average total minutes per week of physical education instruction provided to students in each grade level in each school,

2. For each grade level in each school, data specifying the frequency and total minutes per week of physical education instruction received by students in that grade, including (i) the number and percentage of students who are receiving the required amount of physical education instruction; (ii) the number and percentage of students who are receiving less physical education than required; and (iii) the number and percentage of students who have an individualized education program that recommends adaptive physical education. This data shall be disaggregated by (i) race and ethnicity; (ii) gender; (iii) special education status; and (iv) English language learner status;

3. The number of designated full-time and part-time certified instructors providing instruction at the school; and the ratio of full time certified instructors to students at the school;

4. Information on all designated indoor and outdoor facilities used by the school for physical education instruction including, but not limited to:

(a) Information on all designated physical education instruction spaces inside or attached to the school including (i) the size of the space in square feet; (ii) whether the space is used for any purpose other than physical education instruction; and (iii) whether the space is used by any other schools including co-located schools in the same building;

(b) Information regarding all off-site indoor and outdoor spaces that are used by the school for the purpose of physical education instruction, including but not limited to (i) the name and the location of the off-site space or facility; and (ii) whether the space is being used by any other schools including co-located schools in the same building;

5. Information regarding the department's supplemental physical education program, including but not limited to, "Move to Improve";

6. Information regarding the number of students who were permitted a substitution by the department; and

7. A list of schools, including co-located schools, that share certified instructors with at least one other school.

Subdivision c of section 21-961 would provide that no information that is

otherwise required to be reported pursuant to this section would be reported in a manner that would violate any applicable provision of federal, state or local law relating to the privacy of student information or that would interfere with law enforcement investigations or otherwise conflict with the interests of law enforcement.

Section 2 of Proposed Int. No. 644-A would mandate that this local law will take effect immediately upon its becoming law.

On motion of the Speaker (Council Member Mark-Viverito), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

At this point the Speaker (Council Member Mark-Viverito) announced that the following items had been **preconsidered** by the Committee on Finance and had been favorably reported for adoption.

Report for M-344

Report of the Committee on Finance in favor of approving a Communication from the Office of Management & Budget transferring City funds between various agencies in Fiscal Year 2016 to implement changes to the City's expense budget, pursuant to Section 107(b) of the New York City Charter (MN-1).

The Committee on Finance to which the annexed communication was referred on October 29, 2015, and was coupled with the resolution shown below, respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York (the "City Council") on October 29, 2015, the Committee on Finance considered a communication, dated October 26, 2015, from the Office of Management and Budget of the Mayor of the City of New York (the "Mayor"), of a proposed request, attached hereto as Exhibit "1" (the "Modification"), to modify units of appropriation and transfer city funds between various agencies in the amount of \$7,468,069 in the Fiscal Year 2016 expense budget as adopted by the Council on June 26, 2015, pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

Analysis. The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 26, 2015, the Council adopted the expense budget for Fiscal Year 2016 (the "Fiscal 2016 Expense Budget"). This Modification reallocates appropriations that were reflected in the Fiscal 2016 Expense Budget to fund City Council initiatives, as well as other discretionary programs.

The net effect of the Modification is zero. For more detail on the funding transfer between agencies, see Appendix A of the report attached hereto as Exhibit "1".

October 29, 2015

Procedure. If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another; or when a transfer from one unit of appropriation to the another, and such transfer results in any unit of appropriation being increased or decreased by the greater of five percent or \$50,000, section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

RE: Finance Committee Agenda of October 29, 2015 - Resolution approving a tax exemption for four Land Use Items (Council Districts 3, 9, 41, and 47)

Item 1: French Apartments

French Apartments consists of 2 buildings with 175 units of rental housing for low-income households. The property is currently owned by French Apartments Housing Company, a limited partnership and, under the proposed project, French Apts Housing Development Fund Corporation (“HDFC”) will acquire the fee interest

in the property and the Housing Company will retain the beneficial interest and continue to operate the property. The HDFC and the Housing Company will refinance the project with a private loan and will enter into a regulatory agreement with the Department of Housing Preservation and Development (“HPD”) establishing that the units must be rented to households whose incomes do not exceed 80% of the Area Median Income (“AMI”). In 2015, 80% of AMI is as follows:

AMI	Family of Four	Family of Three	Family of Two	Individual
80%	\$69,040	\$62,160	\$55,280	\$48,400

The property does not currently receive any exemption from real property taxes and is not under a regulatory agreement with HPD. In order to facilitate the project, HPD is requesting that the Council approve, pursuant to Section 577 of the Private Housing Finance Law, a partial, 30-year property tax exemption that will be coterminous with the term of the regulatory agreement.

Item 2: John Paul II Apartments

John Paul II Apartments consists of 1 building with 69 units of rental housing for low-income senior citizen households. Southwest 141 Street Housing Development Fund Company, Inc. (“HDFC”) developed the project under the Section 202 Supportive Housing Program for the Elderly, with financing and operating subsidies

from the United States Department of Housing and Urban Development (“HUD”) and a tax exemption from the City. The HDFC now wishes to refinance its original HUD mortgage in order to fund needed repairs, decrease debt service, and meet other financial obligations. The HDFC will enter into a HUD Use Agreement which, among other things, requires that the project continue to provide rental housing for elderly persons of low income on terms at least as advantageous to existing and future tenants as the terms required by the original Section 202 loan agreement, any Section 8 or other rental housing assistance contract, and applicable federal regulations. In addition, the HDFC and the Department of Housing Preservation and Development (“HPD”) will enter into a regulatory agreement establishing that the units must be rented to households whose incomes do not exceed 50% of the Area Median Income (“AMI”). In 2015, 50% of AMI is as follows:

In order to facilitate the project, HPD is requesting that the Council approve, pursuant to Section 577 of the Private Housing Finance Law, a partial, 40-year property tax exemption that will be coterminous with the term of the regulatory agreement.

Item 3: Central Harlem Mutual Housing Association

Central Harlem Mutual Housing Association consists of 1 building with 16 units of rental housing for low-income households. Under the proposed project, Central Harlem Mutual Housing Association Housing Development Fund Corporation (“HDFC”) will acquire the property and will finance the acquisition and rehabilitation of the property with loans from the Community Preservation Corporation and the Department of Housing Preservation and Development (“HPD”). As a result of an agreement negotiated by Council Member Mealy, the HDFC and HPD will enter into a 35-year regulatory agreement establishing that the units will be rented to households whose incomes do not exceed 80% of Area Median Income (“AMI”). In 2015, 80% of AMI is as follows:

AMI	Family of Four	Family of Three	Family of Two	Individual
80%	\$69,040	\$62,160	\$55,280	\$48,400

In addition, upon vacancy, one of the units will be set aside for a formerly homeless family earning up to 45% of AMI. The HDFC has guaranteed in a written letter that notification to the Council Member will take place in advance of any such placement. In 2015, 45% of AMI is as follows:

AMI	Family of Four	Family of Three	Family of Two	Individual
45% of AMI	\$38,835	\$34,965	\$31,095	\$27,225

The property currently receives an exemption and/or abatement from real property taxation pursuant to Real Property Tax Law Section 489 (“J-51 Benefits”). In order to facilitate the project, HPD is requesting that the Council approve, pursuant to Section 577 of the Private Housing Finance Law, a partial, 35-year property tax exemption that is coterminous with the term of the regulatory agreement. The new exemption will be reduced by the J-51 Benefits.

Item 4: Ahi Ezer Apartments

Ahi Ezer Apartments consists of 2 building with 74 units of rental housing for low-income senior citizen households. The HDFC now wishes to refinance its original HUD mortgage in order to fund needed repairs, decrease debt service, and meet other financial obligations. In connection with such refinancing, the HDFC and HUD will enter into a Use Agreement which, among other things, requires that the project continue to provide rental housing for elderly persons of low income on terms at least as advantageous to existing and future tenants as the terms required by the original Section 202 loan agreement, any Section 8 or other rental housing assistance contract, and applicable federal regulations.

In addition, the HDFC and the Department of Housing Preservation and Development (“HPD”) will enter into a regulatory agreement establishing that the units must be rented to households earning between 50% and 70% of the Area Median Income (“AMI”). In 2015, 50% and 70% of AMI are as follows:

70% of AMI	\$60,410	\$54,390	\$48,370	\$42,350

In order to facilitate the project, HPD is requesting that the Council approve, pursuant to Section 577 of the Private Housing Finance Law, a partial, 35-year property tax exemption that will be coterminous with the term of the regulatory agreement.

Approve an exemption of the Project from real property taxes pursuant to Section 577 of the Private Housing Finance Law (the “Tax Exemption”);

WHEREAS, the project description that HPD provided to the Council states that the purchaser of the Project (the “Sponsor”) is a duly organized housing development fund company under Article XI of the Private Housing Finance Law;

Report of the Committee on Transportation

Report for Int. No. 210-A

Report of the Committee on Transportation in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to requiring the compilation of bike share usage data.

The Committee on Transportation, to which the annexed amended proposed local law was referred on March 26, 2014 (Minutes, page 852), respectfully

REPORTS:

INTRODUCTION

On October 27, 2015, the Committee on Transportation, chaired by Council Member Ydanis Rodriguez, held a hearing on Proposed Int. No. 210-A, a local law in relation to requiring the compilation of bike share usage data, and Proposed Int. No. 225-A, a local law in relation to bike share financial reporting. The first hearing on these bills was on April 15, 2015, at which time the Committee heard testimony from the New York City Department of Transportation (“DOT”) and other interested advocates and stakeholders.

BACKGROUND

Bike share systems provide bicycles to members of the public to use, typically for short periods of time. A key feature of most bike share systems is the availability of many stations throughout a defined geographic area from which to pick up and drop off bikes, allowing users to make point-to-point trips by picking up a bike from one station and dropping it off at another. Bike share systems are therefore most useful in relatively dense urban environments.

Early bike share was tried in Amsterdam in 1965 and in Copenhagen in 1995, but both systems suffered from lack of user accountability.¹ The introduction of magnetic stripe cards for users of Portsmouth University’s bike share system in England in 1996 ushered in the modern era of bike share systems.² Bike share systems proliferated in Europe slowly in the early 2000s before large systems were established in Lyon in 2005 and in Paris in 2007.³ By 2009, there were about 120 bike share programs in places throughout the world, including Brazil, Chile, China, New Zealand, South Korea, Taiwan, and the United States.⁴

Following the success of bike share systems in several American cities, including Boston and Washington, D.C., in September 2011, DOT announced that Alta Bicycle Share, Inc. had been selected after a competitive request for proposals (“RFP”) process to operate a bike share system in New York City.⁵ Data showed that New Yorkers made many short trips that could be more conducive to bike trips relative to other means of transportation, with 40 percent of all trips taken by New Yorkers under one mile in length and 67 percent under three miles.⁶ The system was to be designed with a particular emphasis on solving the “last mile” problem, or giving travelers an attractive option for covering the final (or first) portion of their trip, such as the distance between a subway station and their home, office, or other destination.⁷ The original plan called for a launch in 2012 with approximately 10,000

bikes distributed at 600 stations in various locations in Manhattan and northwest Brooklyn.⁸ In May 2012, the City announced a \$41 million deal with Citi to be the title sponsor of the program and a \$6.5 million agreement with MasterCard to be the payment sponsor.⁹ By August 2012, the original launch plan had been scaled back to 7,000 bikes at 420 stations and delayed until March 2013 due to issues with the stations' software.¹⁰ In December 2012, the launch was again pushed back to May 2013 with an initial roll-out of just 5,500 bikes at 293 stations due to equipment damage sustained during Hurricane Sandy.¹¹

Citi Bike ultimately launched, as the largest bike share system in the country, on May 27, 2013.¹² The initial service areas included Manhattan below 59th Street and the Brooklyn neighborhoods of Brooklyn Heights, Bedford-Stuyvesant, Williamsburg, Clinton Hill, Fort Greene and DUMBO.¹³ User fees were \$95 for an annual membership, \$25 for a weekly pass and \$9.95 for a daily pass, with overtime fees for trips longer than 30 minutes for daily and weekly pass holders or longer than 45 minutes for annual members.¹⁴ The system is currently supported entirely by user fees and private funding such as sponsorships, with no taxpayer funding or financial risk to the City, making it unique among bike share systems in major American cities.¹⁵ Alta is to split any profits with the City.¹⁶

The launch of Citi Bike followed a public outreach campaign designed to assist DOT with identifying appropriate sites for stations. Despite this outreach, some locations provoked complaints from communities and businesses about aesthetics, loss of parking, and emergency vehicle access, leading to several unsuccessful lawsuits.¹⁷ Alta was required by the original contract to reimburse the City for lost parking revenue resulting from stations located in former metered parking spaces.¹⁸

In its first month of operation, Citi Bike recorded over 113,000 total annual, weekly and daily subscriptions including 50,000 annual members.¹⁹ When the time came for the first group of annual members to renew their subscriptions in the late spring and early summer of 2014, concerns were raised when analyses showed that as many as 30,000 members had not renewed by the end of June 2014.²⁰ In August 2014, at the height of the latest warm season, Citi Bike riders took 1,059,463 trips and traveled 1,907,282 miles, for an average of 34,176 rides per day with an average distance of 1.8 miles per trip.²¹ In that month 48,086 people bought one-day memberships and 3,658 bought seven-day memberships.²² As of February 2015, there were 87,898 annual members.²³ Despite some concerns about safety in the lead-up to the program's launch, there have been no fatalities or serious injuries to Citi Bike riders through at least October 2014.²⁴

In its first year in operation, Citi Bike suffered financially. A primary factor was heavier-than-expected use by annual members, while the more lucrative daily pass use was lower than expected, leading to increased costs for maintenance and station “rebalancing.”²⁵ This led to some calls for public investment in the system.²⁶

In an effort to stabilize and expand Citi Bike, in October 2014, DOT announced that Citi Bike would see a \$30 million infusion of private capital as a result of Bikeshare Holdings LLC's acquisition of Alta.²⁷ Citi also increased its sponsorship commitment to up to \$70.5 million and extended its support through 2024, and the program received a \$15 million increase in its credit facility from the Goldman Sachs Urban Investment Group.²⁸ According to DOT, this will “allow for the expansion and ensure the long-term stability of the system, making it more reliable and accessible.” DOT and Citi Bike plan to expand the current system of 330 stations and 6,000 bikes to over 700 stations and 12,000 bikes by the end of 2017.²⁹ In 2015, the expansion is expected to begin in Long Island City, Greenpoint, Williamsburg, and the rest of Bedford-Stuyvesant, to be followed by Harlem, Astoria, Bushwick, Prospect Heights, Crown Heights, Park Slope, Carroll Gardens, Boerum Hill, Cobble Hill, Red Hook, and Gowanus. The price of an annual membership also increased

ANALYSIS

Int. No. 210-A

Section one of Int. No. 210-A would amend subchapter 3 of chapter 1 of title 19 of the Administrative Code by adding a new section 19-193. Subdivision a of new section 19-193 would define the term "bike share" to mean the provision of public bicycles for shared use for payment through a contracted operator. Citi Bike would fall under the definition of "bike share."

Subdivision b would require DOT to compile data on each bike share trip including the duration, the start date and time, the end date and time, the start station, the end station, the bike number, and the membership type, but not including personally-identifiable information. Subdivision c would require DOT to post that data on its website in a commonly available non-proprietary format or spreadsheet format that is suitable for analysis on a quarterly basis beginning January 1, 2016. It would further require DOT to provide the Council with a report on such data disaggregated by month, quarter, and year as it is available, disaggregated by Council District and Community District, as applicable.

INTRODUCTION AND READING OF BILLS

Preconsidered Res. No. 887

Resolution calling upon Congress to pass and the President to sign H.R.1321/S.1424, known as the “Microbead-Free Waters Act of 2015,” which would amend the Federal Food, Drug and Cosmetic Act to prohibit the sale or distribution of cosmetics containing synthetic microbeads.

By Council Members Cabrera, Arroyo, Chin, Koo, Palma, Richards and Dickens.

Whereas, Microbeads are manufactured particles of plastic that measure smaller than three millimeters in size and are used in various cosmetic products; and

Whereas, Microbeads are commonly used as scrubbing agents and exfoliates in cosmetic products such as facial cleansers and toothpaste; and

Whereas, In normal use, microbeads are washed down drains and cannot be filtered out by wastewater treatment plants before entering marine environments in oceans and lakes; and

Whereas, According to a report by the Office of the Attorney General, microbeads, like plastics generally, are slow to biodegrade and can remain in the marine environment for centuries; and

Whereas, In marine environments microbeads accumulate and attract harmful chemical pollutants already present in the water, such as carcinogenic polychlorinated biphenyls, commonly known as PCBs; and

Whereas, In marine environments the small, buoyant and colorful microbeads are mistaken for food and consumed by fish and other wildlife, thereby harming marine life and contaminating the food chain; and

Whereas, In 2012, a research team sailed and surveyed Lake Superior, Lake Huron and Lake Erie to quantify the degree of plastic pollution in the Great Lakes; and

Whereas, The researchers found an average of 43,000 microbeads per square kilometer in the Great Lakes and deduced the source to be combined sewage overflows from proximate urban population centers; and

Whereas, According to the United States Environmental Protection Agency, the Great Lakes form the largest surface freshwater system on Earth; and

Whereas, According to the National Oceanic and Atmospheric Administration, the Great Lakes are home to 250 species of fish, provide drinking water for over 40 million people, as well as supplying water for industrial and agricultural purposes; and

Whereas, This precious national resource is under pressure from invasive species, such the Asian carp, and the activities of the over 30 million persons who live in the Great Lakes Basin; and

Whereas, There are many non-toxic, biodegradable and readily available alternatives to microbeads, such as apricot seeds, walnut husks, crushed cocoa beans and oatmeal; and

Whereas, Many major personal care companies, in recognition of the problem, have pledged to phase out microbeads; and

Whereas, While nine states have passed legislation banning microbeads, and both New York City and State are considering such legislation, water does not recognize borders and local action is not enough; and

Whereas, Microbeads have been found in the Hudson as well as the Great Lakes and may come to pose a threat to drinking water; and

Whereas, New York City has some of the best, natural drinking water in the country and its preservation is a moral and practical imperative; and

Whereas, The United States is a maritime nation bordered by two oceans, the Great Lakes and mighty rivers—protection of our waterways is in the national interest; now, therefore, be it

Resolved, That the Council of the City of New York, calls upon Congress to pass and the President to sign H.R.1321/S.1424, known as the “Microbead-Free Waters Act,” which would amend the Federal Food, Drug and Cosmetic Act to prohibit the sale or distribution of cosmetics containing synthetic microbeads.

Res. No. 890

Resolution calling upon the New York State Legislature to pass and the Governor to sign A.329/S.554, to implement more foreign language instruction in elementary schools.

By Council Members Levine, Williams, Arroyo, Chin, Constantinides, Koo, Mendez, Palma, Richards, Rose and Dickens.

Whereas, The ability to communicate in more than one language is critically important in the interconnected world of the 21st century; and

Whereas, Furthermore, there is growing awareness in the United States that creating a multilingual society is crucial to our economic success, national security, and international relations; and

Whereas, Today's students, who will have to compete in the global economy and work with people of diverse cultures abroad and at home, thus need to learn one or more foreign languages; and

Whereas, Studies have found that young children are better able to learn new languages, and that the ability markedly declines after puberty, as the brain is more plastic and ready to create new neural circuits before than after puberty; and

Whereas, In addition, the American Council on the Teaching of Foreign Languages (ACTFL) states that beginning foreign language instruction early sets the stage for students to develop advanced levels of proficiencies in multiple languages, as younger learners still possess the capacity to develop near native-like pronunciation and intonation in a new language; and

Whereas, ACTFL also reports that children who learn a foreign language beginning in early childhood demonstrate certain cognitive advantages over children who do not; and

Whereas, Additionally, longitudinal studies by Harvard University confirm that learning additional languages increases critical thinking skills, creativity and flexibility of the mind in young children; and

Whereas, Despite such evidence, a national survey from the Center for Applied Linguistics (CAL) shows U.S. elementary schools cut back on foreign language instruction in recent years; and

Whereas, According to the CAL survey, the percentage of public elementary schools offering foreign language instruction decreased significantly, from 24% in 1997 to 15% in 2008, the latest year for which data is available; and

Whereas, As in most other states, foreign language instruction is not currently found in all public elementary schools in New York, but is needed so that all students are able to develop proficiencies in one or more languages other than English (LOTE); and

Whereas, A.329, sponsored by Assemblymember Rozic, and its companion bill S.554, sponsored by Senator Parker, would allocate \$2 million to establish an incentive program for school districts wishing to implement programs of foreign language in the elementary schools and establish an incentive program for college students wishing to become foreign language teachers; and

Whereas, More specifically, A.329 and S.554 would establish a pilot program in five high needs districts (\$200,000 each) to expand foreign language education programs at the elementary level; and

Whereas, In addition, A.329 and S.554 would provide for 100 awards of up to \$10,000 each for college students who are working towards certification in foreign languages education, to cover the costs of tuition and materials for their education; and

Whereas, It is hoped that the success of these Foreign Language in the Elementary School (FLES) programs will not only encourage the districts to find the funds to continue offering the FLES programs once funding from the bill has ended, but also generate interest in the neighboring districts which will inspire them to implement FLES programs, thus creating a grassroots movement in favor of FLES; and

Whereas, Further, in regards to the second goal of this legislation, to provide funding to encourage college students wishing to become LOTE teachers, it is hoped that this will help to address the current severe shortage of LOTE teachers in New York State which can prevent school districts from offering a variety of languages; and

Whereas, Students in New York State and especially those in New York City, the nation's most diverse and global city, need to have skills in at least one language other than English in order to successfully confront the challenges of the world of today and tomorrow; now, therefore, be it

October 29, 2015

Res. No. 891

Resolution calling on the State Legislature to pass and the Governor to sign into law, A.1353/S.0813, the Homeless Protection Act, which designates certain offenses against homeless persons as hate crimes.

By Council Members Palma, Arroyo, Gentile, Mendez, Koslowitz and Chin.

Whereas, According to the Coalition for the Homeless, New York City's homeless population experienced steady growth over the past decade, with now over sixty thousand homeless persons seeking shelter on an average night; and

Whereas, Homeless persons are one of the most at risk populations in New York City, often in need of assistance with shelter, transportation, medical services, mental health services, language services and more; and

Whereas, According to the Coalition for the Homeless in New York, the majority of single homeless persons living out of the shelter system are known to have some form of mental illness; and

Whereas, The New York City Human Rights Law prohibits discrimination in housing based on a lawful source of income; and

Whereas, According to the National Coalition for the Homeless, between 1999 and 2013, there were over 1,400 cases of violence against persons experiencing homelessness across the United States, with little basis for these attacks other than a bias against homelessness; and

Whereas, In June of 2014, 3 men viciously attacked a homeless man sleeping on the steps of a church in the Bronx, causing brain hemorrhages, with no apparent cause for the attack; and

Whereas, In February of 2015, a homeless man was brutally beaten in a Brooklyn park, where he was left for four hours before being taken to the hospital while in a coma, eventually succumbing to his injuries; and

Whereas, A.1353/S.0813, introduced respectively by Assembly Member Linda Rosenthal and Senator Neil Breslin, would designate certain offenses against homeless persons as hate crimes, thereby increasing the penalties for such offenses; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the State Legislature to pass and the Governor to sign into law, A.1353/S.0813, the Homeless Protection Act, which designates certain offenses against homeless persons as hate crimes.

Res. No. 892

Resolution calling on the Federal Aviation Administration to amend the North Shore helicopter route to extend further west to cover Northeast Queens.

By Council Members Vallone, Chin, Koo, Rose and Constantinides.

Whereas, In 2007, U.S. Senator Charles Schumer and Congressman Tim Bishop conducted a meeting with the Federal Aviation Administration (FAA), local helicopter operators and airport proprietors to address noise complaints stemming from helicopter operations along the north shore of Long Island, NY; and

Whereas, In 2008, as a result of this meeting, the FAA established a voluntary route that helicopter pilots could take over the north shore of Long Island, NY (the “North Shore helicopter route”); and

Whereas, In 2012, in response to concerns from a large number of residents disturbed by the level of noise from helicopters operating over Long Island, the FAA adopted a rule generally mandating use of the North Shore helicopter route; and

Whereas, Such rule was scheduled to lapse in 2 years unless the FAA determined that a permanent rule was merited; and

Whereas, In 2014, the FAA published a final rule that extends the requirement for the mandatory North Shore helicopter route for an additional two years; and

Whereas, According to the FAA’s North Shore helicopter route training, the mandatory route the helicopters have to fly only extends along the shore of Long Island; and

Whereas, There are four heliports in the city of New York that accept charter flights flying to and from Long Island that are required to fly along the North Shore helicopter route; and

Whereas, The North Shore helicopter route does not extend west of Long Island to cover areas of the city of New York that are also impacted by helicopters flying between the city of New York to Long Island, NY; and

Whereas, According to NYC Open Data Plan’s 311 Service Requests, the second largest number of noise complaints about helicopters in Queens, NY are from

Whitestone, Queens, which is the northernmost community in Queens and the community directly west of the North Shore helicopter route; and

Whereas, In August 2015, Senator Charles Schumer sent a letter to urge the FAA Administrator to address the noise pollution caused by heavy helicopter traffic throughout Northeast Queens, including Whitestone and Malba Garden; and

Whereas, The letter specified that the FAA could apply its authority and create or make changes to helicopter flight patterns to redirect their flight paths, whenever possible, to all-water routes; now, therefore, be it

Resolved, That the Council of the city of New York calls on the Federal Aviation Administration to amend the North Shore helicopter route to extend further west to cover Northeast Queens.
