

Statement in Support of S5484A – Sponsored by Senator Golden/A7185A – Sponsored by Assemblyman Abbate

Unformed sanitation workers perform an essential service for municipal residents and risk grave physical injury as they provide this service.

Furthermore, the care and devotion members display for every neighborhood can be seen every working hour of everyday.

This legislation asks you to recognize the importance of their work and provide these workers with protection for their families in the event of the worker's untimely death.
