WHEREAS, the Council has considered the relevant environmental issues, including the Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on February 1, 2018 (CEQR No. 17DEP040K), which identified significant adverse impacts with historic and cultural resources (architectural and archeological) and construction noise as shown in Exhibit A;

RESOLVED:

environmental impacts to the maximum extent practicable; and

- (3) The adverse environmental impacts disclosed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval, pursuant to the Notice of Completion attached as Exhibit A hereto, those project components related to the environment and mitigation measures that were identified as practicable; and
- (4) The Decision, together with the FEIS, constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Section 197-d of the New York City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in this report, C 180065 PCK, incorporated by reference herein, the Council approves the Decision for the site selection and acquisition of the Site for a combined sewer overflow control facility.
